Education Ralf Koerrenz,Sebastian Engelmann,2019-10-15 This book introduces six pedagogues from the German context to an English speaking audience and demonstrates their significant contribution to the field of alternative education First and foremost the authors emphasise the importance of understanding the history of education to realise that in fact what we understand as normal today is by no means the only course history could have taken The quest for alternative ways of schooling goes back to the late eighteenth century where educational thinkers advocated various approaches in the face of rapid societal change The chosen six thinkers are not well known in the English speaking scientific community and some are even infrequently cited in the German context In offering an historic and systematic introduction to concepts that can frame Alternative Education in different ways this book allows the reader to critically reevaluate present forms of education by using the past as a mirror *Education and Culture in Industrializing Asia* Willy Wielemans,Pauline Choi-Ping Chan,1992

Political Education in the Anthropocene Nathanaël Wallenhorst,Renaud Hétier,Jean-Philippe Pierron,Christoph Wulf,2023-10-19 This book articulates an educational theory as well as a political theory of the Anthropocene Divided into three sections it addresses educational anthropology cultures and institutions and educational recommendations in the Anthropocene Topics covered in the volume measure the impact of the idea of the Anthropocene on the type of anthropology that underlies education and on a phenomenology of relationship It links the notion of the Anthropocene with cultures and institutions so as not to smooth out or erase the latter Finally it presents proposals and recommendations for educational practices The work advocates rethinking education as an essential component in ensuring the sustainability of human life in society by proposing to go beyond the approach of education for sustainable development or environmental education The work also brings together empirical contributions in which proposals are elaborated for programs pedagogical devices and experiments relating to the preparation of the future in the field of education This volume is of interest to researchers of the Anthropocene *Studies Introductory to a Theory of Education* Ernest Trafford Campagnac,1915
