

Education Class And Nation The Experiences Of Chile And Venezuela

Juan M. Del Aguila

Education Class And Nation The Experiences Of Chile And Venezuela:

Education, Class, and Nation Kalman H. Silvert, Leonard Reissman, 1976 Comparison of the role of politics and education in social change in Chile and Venezuela analyzes individual responses to survey questionnaires on attitudes towards the family religion education the economy and the government examines the impact of educational level occupation and social class on attitudes and discusses historical aspects of educational development and access to education in the two countries Graphs references and statistical tables Handbook of Educational Ideas and Practices (Routledge Revivals) Noel Entwistle, 2015-08-11 First published in 1990 the Handbook of Educational Ideas and Practices was written for practitioners and students in the field of education and its related services and was designed to appeal to educationists no matter what their nationality Focusing mainly on compulsory schooling it provides summaries of the thinking research findings and innovative practices current at the time However the book is also careful to present a complete picture of education and therefore includes a separate section for education beyond school which covers pre school level post secondary level and adult and continuing education There are also other chapters dealing with aspects of organization curriculum and teaching in various forms of tertiary education Indeed each topic has been discussed by an acknowledged expert writing in sufficient detail in order to resist trivialization The Battle over Spanish between 1800 and 2000 Luis Gabriel-Stheeman, José del Valle, 2003-09-02 This book examines the way in which a group of key Spanish and Latin American intellectuals of the nineteenth and twentieth centuries discussed the concept of the Spanish language The contributors analyse the ways in which these discussions related to the construction of national identities and the idea of an Hispanic culture This book will be essential reading for sociolinguists scholars of the Spanish language historians of the Hispanic culture and all those with an interest in the relationship between language and culture Historical Dictionary of Chile Salvatore Bizzarro, 2017-02-13 This two volume Historical Dictionary of Chile covers the economy and the environment political parties and history and reprehensible period of dictatorship during a crucial time in Chile's history The end of the iron fist rule of Augusto Pinochet who ruled from 1973 until 1990 however allowed a return to democratic rule and the country kept searching for coherence and unity in national life among diverse and often discordant elements This fourth edition of Historical Dictionary of Chile contains a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Chile

Women's Education in the Third World Gail P. Kelly, Carolyn M. Elliott, 1983-06-30 Gail Kelly and Carolyn Elliott have assembled the latest and best available scholarship from a range of disciplines to illuminate the determinants nature and outcomes of women's education in third World nations This study focuses on the undereducation of women in Africa Asia Latin America and the Middle East delving into its causes changes in female education patterns and the significance of these

changes to societies and to women's lives Articles in this volume lay the foundation for further research by examining women's schooling from the novel perspective that the social and economic outcomes of women's education are shaped by gender sex systems that subordinate women to men

Reforming Chile Patrick Barr-Melej, 2002-11-25 Highlighting the crucial yet largely overlooked role played by society's middle layers in the historical development of Latin America Patrick Barr Melej provides the first comprehensive analysis of the rise of Chile's middle class reform movement and its profound impact on that country's cultural and political landscapes He shows how a diverse collection of middle class intellectuals writers politicians educators and bureaucrats forged a progressive nationalism and advanced an ambitious cultural political project between the 1890s and 1940s Together reformers challenged the power of elite groups and sought to quell working class revolutionary activism as they endeavored to democratize culture and fortify liberal democracy Using sources that range from archival documents and newspapers to short stories novels and school textbooks Barr Melej examines the reform movement's cultural ideas and their political applications especially as they were articulated in the areas of literature and public education In the process he provides a new framework for understanding Chile's cultural and political evolution as well as the complicated place of the middle class in a society experiencing the swift changes inherent in capitalist modernization

Coming of Age in Times of Crisis J. Hurtig, 2008-12-08 Coming of Age in Times of Crisis is an anthropological study of the intersecting roles of gender and schooling in the lives of rural Venezuelan youth as they make the transition to adulthood during times of national political and economic crisis Strongly grounded in local detail while speaking to larger comparative issues and the crises that surround globalization the study enables us to see how gender roles and social class are reproduced in a culture experiencing profound upheaval and to see how rural Venezuelans have managed to reproduce and change their culture in these circumstances This book is based on two and a half years of ethnographic field research Hurtig conducted in the Andean region of Venezuela between 1991 and 1993 and again briefly in 1996
