Cordasco,1976 A concise overview of educational practices throughout history and the world The Evolution of Educational Theory in the United States Dickson Mungazi,1999-01-30 There is no better way to understand a society's assessment of its own success or failure than an examination of its theories of education because any attempt to improve national performance will be reflected in educational policy This study is a comprehensive account of the evolution of American educational theory from the colonial period to the present It includes a broad discussion of the foundations upon which early Americans built their educational policy as well as influential factors unique to the American experience From the Revolution to nineteenth century reform efforts to the turbulent twentieth century educational theory has been adapted to suit the needs of an ever changing multicultural society Throughout U S history key objectives have affected the character of education particularly curriculum One main thrust for reform has been the belief that equality in education serves the national interest Examination of the historical attitudes toward the education of African Americans provides a valuable insight into this process Today America is experiencing significant difficulties in making its educational system succeed and the negative social effects of this deterioration are already apparent The future success of educational theory lies in international cooperative efforts **Free Market Missionaries** Sharon Beder,2012-06-25 In her recent book *Suited to Themselves* bestselling author Sharon Beder exposed how the global corporate elite have brazenly rewritten the rules of the global economy to line their pockets In this new book she turns her sights on the insidious underbelly of this global trend to show how they have also orchestrated a mass propaganda campaign to manipulate community values and convince us that their interest in co-opting and controlling all of us in the name of the free market is in our interest During the 20th century business associations coordinated mass propaganda campaigns combining 20th century American PR methods with revitalized free market ideology from 18th century Europe The aim was to persuade people to eschew their own power as workers and citizens and forego their democratic power to restrain and regulate business activity Sophisticated corporate funded think tanks augmented these campaigns in the 1970s and 1980s promoting free enterprise and business friendly policies These free market missionaries now seek to change individual and institutional values through bolder strategies such as expanding share ownership and manipulating wider public concerns In each case the goal is the same the triumph of business values over community values Beder's is an intellectual call to arms challenge the ideology of the free market missionaries or be converted to it **Selling Free Enterprise** Elizabeth A. Fones-Wolf,1994 The post World War II years in the United States were marked by the business community's efforts to discredit New Deal liberalism and undermine the power and legitimacy of organized labor In *Selling Free Enterprise* Elizabeth Fones Wolf describes how conservative business leaders strove to reorient workers away from their loyalties to organized labor and government teaching that prosperity could be achieved through reliance on individual initiative increased productivity and the protection of personal liberty Based on research in a wide variety of business and labor sources this detailed account shows how business
