Coordinating Committee on Research in Vocational Education,1979      Young Adult Development at the School-to-Work Transition E. Anne Marshall,Jennifer E. Symonds,2021-01-18 The school to work transition is a critical part of the human life span for young adults their families and society The timing of the transition varies greatly and its co occurrence with a number of other life transitions make it challenging to summarize or generalize Individual differences and normative developmental factors as well as external contextual factors such as global pandemics changing economic circumstances workplace demands and cultural shifts intersect to create a range of challenges and opportunities for those navigating this transition Written by internationally renowned scholars in developmental psychology applied psychology counseling and sociology the chapters in this book highlight the trends issues and actions that researchers academics practitioners and policy makers need to consider in order to effectively support young adults transition to work pathways This volume provides an explicitly international perspective on this area broad coverage of psychological topics on the school to work transition and an inclusive focus on sub groups and minority groups making it a must read for those who support young adults as they move from school to work      **Mature Students, Entry to Higher Education** Judith Bell,Shiela Hamilton,Gordon Wynne Roderick,1986      Handbook of Career Development Gideon Arulmani,Anuradha J. Bakshi,Frederick T. L. Leong,A. G. Watts,2014-02-08 This book is focused on work occupation and career development themes that are fundamental to a wide range of human activities and relevant across all cultures Yet theorizing and model building about this most ubiquitous of human activities from international perspectives have not been vigorous An examination of the literature pertaining to career development counseling and guidance that has developed over the last fifty years reveals theorizing and model building have been largely dominated by Western epistemologies some of the largest workforces in the world are in the developing world Career guidance is rapidly emerging as a strongly felt need in these contexts If more relevant models are to be developed frameworks from other cultures and economies must be recognized as providing constructs that would offer a deeper understanding of career development This does not mean that existing ideas are to be discarded Instead an integrative approach that blends universal principles with particular needs could offer a framework for theorizing research and practice that has wider relevance The central objective of this handbook is to draw the wisdom and experiences of different cultures together to consider both universal and specific principles for career

guidance and counseling that are socially and economically relevant to contemporary challenges and issues This book is focused on extending existing concepts to broader contexts as well as introducing new concepts relevant to the discipline of career guidance and counseling     *Getting Skills Right Career Guidance for Adults in a Changing World of Work*
