THE IMPACT OF EDUCATIONAL POLICIES ON MODERN EDUCATION SYSTEMS

Educational Policy And The Just Society

Educational Policy And The Just Society:

Educational Policy and the Just Society Kenneth A. Strike, 1982 **Cultural Politics and Irish Education Since the 1950s** Denis O'Sullivan, 2005 **Philosophy of Education: Society and education** Hirst, Paul Heywood Hirst, Patricia White, 1998 **A Just Society** Michael Boylan, 2004-07-13 A Just Society represents a complete account of Boylan's original worldview theory of ethics and social philosophy. The author sets out the foundation and application of the personal worldview imperative for ethics and the shared community worldview imperative for social philosophy. These form the structure for a rights-based deontological theory that is holistic and underscored by an understanding of the good will that incorporates novel depictions of the sincere and authentic agent who displays sympathy, care, openness, and love. In the end, A Just Society strikes a balance between extreme liberalism, libertarianism, and those advocating the rule of the general will, utilitarianism. As such, the book makes an important contribution to ethical and political theory as well as grounding an original approach to public philosophy.

U.S. Educational Policy Interest Groups Gregory S. Butler, James D. Slack, 1994-08-16 Analyzes and surveys how 182 nongovernmental organizations affect the development of federal U.S. educational policy. The alphabetically arranged profiles describe the purposes, origins, and development, structure, and budget, policy concerns, and tactics, political activities, and publications of key citizen interest groups in the field of education. Appendices give information about the survey questionnaire, important governmental bodies, and legislative hearings, and list the organizations under study. A short bibliography points to important recent books and articles on educational groups in general. The index makes the guide easily accessible to students, teachers, policymakers, and professionals in education, public policy, and government.

Disrupting Program Evaluation and Mixed Methods Research for a More Just Society Jori N. Hall, Ayesha Boyce, Rodney Hopson, 2023-01-01 While women have influenced the fields of program evaluation and mixed methods research, their contributions are rarely acknowledged. In this edited volume, we recognize the contributions Jennifer C. Greene made to evaluation and mixed methods, focusing on how she disrupted traditional ways methods are conceptualized and implemented. We aim to provide a range of perspectives on how Greene disrupted social science theory, methodology, and training through her commitment to the values of democracy, diversity, and dialogue. Accordingly, the volume makes explicit how Greene democratized social science inquiry and training by emphasizing inclusive, culturally responsive, and educative theories, methods, and pedagogical practices. Second, it clarifies how her commitment to diversity supported scholars from diverse disciplinary backgrounds and cultures within and beyond the United States and validated often ignored perspectives on phenomena or experiences. And third, it showcases how her commitment to dialogue opened spaces for non-traditional methodological approaches that engage, communicate, and disseminate program evaluation and mixed methods work. Taken together, the first-hand accounts presented in this volume offer a historical perspective and practical guidance on program evaluation and mixed methods conceptualization, implementation, and training.

Endorsements The theme of disruption in this

book is a powerful look at the breadth and significance of Jennifer C Greene's distinguished contributions both theoretical and practical in evaluation for over 30 years. In essence these chapters reveal the sustaining power of her scholarship and influence today and likely in years to come. Her recognition that no single method can solve the complex problems faced in evaluation is revealed in the ontological, epistemological and methodological work she developed on mixed methods which led to a genre of study that recast the debate about the hegemony of quantitative over qualitative methods and vice versa. She has foregrounded values, the quintessential character of evaluation by recognizing the multiplicity of perspectives that guide our theories, roles, questions, designs and perceptions of quality. Jennifer Greene's generativity is exemplified in her egalitarian, dialogic stance, inclusion of voices and context and commitment to equity. The chapters reflect the impact of her work on scholars who continue to advance evaluation for a more just society. Valerie J. Caracelli, U.S. Government Accountability Office.

It is not possible to convey in a few words my strongest endorsement for this volume that begins scratching the surface of Jennifer C Greene's many contributions to evaluation theory, methods and practice. I have worked with and learned from her on many occasions over the years as I grappled with refining my understanding and practice of culturally responsive evaluation. I commend the editors and authors for this first substantive collection providing a more in-depth understanding and appreciation of Jennifer Greene's body of work for some while providing others the opportunity to revisit the lessons we have learned from her work, spirit and commitment to make a difference. Stafford Hood, Center for Culturally Responsive Evaluation Assessment, CREA and Professor Emeritus, University of Illinois at Urbana-Champaign.

A Just Society for Ireland? 1964-1987 C. Meehan, 2013-10-15. Drawing on interviews with key players and previously unused archival sources, this book offers a fascinating account of a critical period in Fine Gael's history when the party was challenged to define its place in Irish politics.

Race And Education: Policy And Politics In Britain Tomlinson, Sally, 2008-03-01. Provides crucial information on key educational issues, events and conflicts in Britain from the 1960s to the present day.

Education Policy in Ireland Since 1922 Brendan Walsh, 2022-04-18. This book examines educational policy at primary, secondary and university level in Ireland from the foundation of the State to the present day. Primarily an attempt to set policy within a historical context, the book draws together compelling research on the evolution of key changes in topics as diverse as the use of corporal punishment, the evolution of skills policy in post-primary settings and the development of the universities in the post-1922 period. The book includes detailed analysis of more recent policy initiatives and changes in initial teacher education, curriculum change and special and inclusive education and will be of interest to those working in the various fields, students and the general public. It presents detailed discussions of change in the Irish education system, demonstrating how policy initiatives, particularly since the early 1990s, have brought about significant transformation at all levels. In doing so, the book also demonstrates that the origin of change often lay in earlier developments, particularly those of the mid-1960s. Policy development is closely linked to external factors and influences, and chapters on academic selection and teachers.

Education, Inequality and Poverty: a response to the Green Paper on Education (1993) , **No Child Left Behind and the Transformation of Federal Education Policy, 1965-2005** Patrick J. McGuinn, 2006 Education is intimately connected to many of the most important and contentious questions confronting American society from race to jobs to taxes and the competitive pressures of the global economy have only enhanced its significance Elementary and secondary schooling has long been the province of state and local governments but when George W Bush signed into law the No Child Left Behind Act in 2002 it signaled an unprecedented expansion of the federal role in public education This book provides the first balanced in depth analysis of how No Child Left Behind NCLB became law Patrick McGuinn a political scientist with hands on experience in secondary education explains how this happened despite the country's long history of decentralized school governance and the longstanding opposition of both liberals and conservatives to an active reform oriented federal role in schools His book provides the essential political context for understanding NCLB the controversies surrounding its implementation and forthcoming debates over its reauthorization how the struggle to define the federal role in school reform took center stage in debates over the appropriate role of the government in promoting opportunity and social welfare He places the evolution of the federal role in schools within the context of broader institutional ideological and political changes that have swept the nation since the 1965 Elementary and Secondary Education Act chronicles the concerns raised by the 1983 report A Nation at Risk and shows how education became a major campaign issue for both parties in the 1990s McGuinn argues that the emergence of swing issues such as education can facilitate major policy change even as they influence the direction of wider political debates and partisan conflict McGuinn traces the Republican shift from seeking to eliminate the U S Department of Education to embracing federal leadership in school reform then details the negotiations over NCLB the forces that shaped its final provisions and the ways in which the law constitutes a new federal education policy regime against which states have now begun to rebel and that only by understanding the unique dynamics of national education politics will reformers be able to craft a more effective national role in school reform *Educational Politics for Social Justice* Catherine Marshall, Cynthia I. Gerstl-Pepin, Mark Johnson, 2020 Using an innovative social justice framework Educational Politics for Social Justice provides a comprehensive examination of educational politics at all levels of the system how inequities are embedded in democratic practices and ways to work the system to move toward greater justice and equity Data Cultures in Higher Education Juliana E. Raffaghelli, Albert Sangrà, 2023-03-07 This collection focuses on the role of higher education institutions concerning datafication as a complex phenomenon It explores how the universities can develop data literacies shaping tomorrow skills and *formae mentis* to face the most deleterious effects of datafication but also to

engage in creative and constructive ways with data. Notably the book spots data practices within the two most relevant sides of academics' professional practice: namely research and teaching. Hence the collection seeks to reflect on faculty's professional learning about data infrastructures and practices. The book draws on a range of studies covering the higher education response to the several facets of data in society: from data surveillance and the algorithmic control of human behaviour to empowerment through the use of open data. The research reported ranges from literature overviews to multi-case and in-depth case studies illustrating institutional and educational responses to different problems connected to data. The ultimate intention is to provide conceptual bases and practical examples relating to universities' faculty development policies to overcome data practices and discourses' fragmentation and contradictions in a nutshell to build fair data cultures in higher education.

Individualism And Community Michael Peters, James Marshall, 2002-11. Examining in the widest sense the changes in political philosophy that have occurred in Western capitalist states since the early 1980s, this book focuses on the introduction of neo-liberal principles in the combined area of social and education policy. New Zealand presents a paradigm example of the neo-liberal shift in political philosophy. From constituting the social laboratory of the Western world in the 1930s in terms of social welfare provision, New Zealand has become the neo-liberal experiment of the fully marketised society in the 1990s. Against the theoretical background of educational theory and practice, this book examines neo-liberalism and its critiques as responses to the so-called crisis of the welfare state and argues for a reformulated critical social policy in the postmodern condition. The conclusions about social policy drawn by the authors can be generalized to similar situations in other Western capitalist countries.

Inclusive Education in Low-Income Countries McConkey, Roy, 2014-04-03. The history of people with disabilities has been dominated by their isolation and exclusion. The long fight towards inclusion and inclusive education in particular started not many years ago. Most were powerless to control their own destiny. Their participation in society has been the object of others' actions. In many countries, their disability policies have a substantial element of protection and charity but not the right to equalisation of opportunities. This book highlights the process of change that is underway internationally. The equalisation of opportunities requires new processes through which the various systems of society such as health services and education are delivered. It means the right for people with disabilities to remain in their communities and to receive the schooling and social supports they need within the ordinary structures available in local communities. Strong advocacy is needed for this to happen. In particular, parents need to be empowered, communities mobilised and professionals trained in new ways of working; hence this book. Drawing on experiences in Africa, the book describes the issues to be considered when it comes to implementing inclusive strategies, the processes to be followed and the roles of different sectors such as people with disabilities, parents, policy makers, educationalists, health and community development professionals and crucially society at large.
