beliefs influenced the nature content and application of criminal law and justice under Fascism National Socialism and other authoritarian regimes in the twentieth century Bringing together expert legal historians from four continents the collection s 16 chapters examine aspects of criminal law and related jurisprudential and criminological questions in the context of Fascist Italy Nazi Germany Nazi occupied Norway apartheid South Africa Francoist Spain and the authoritarian regimes of Brazil Romania and Japan Based on original archival doctrinal and theoretical research the collection offers new critical perspectives on issues of systemic identity self perception and the foundational role of criminal law processes of state repression and the activities of criminal courts and lawyers and ideological aspects of and tensions in substantive criminal law *Pride in Modesty* Michelangelo Sabatino,2011-05-21

Following Italy s unification in 1861 architects artists politicians and literati engaged in volatile debates over the pursuit of national and regional identity Growing industrialization and urbanization across the country contrasted with the rediscovery of traditionally built forms and objects created by the agrarian peasantry *Pride in Modesty* argues that these ordinary often anonymous everyday things inspired and transformed Italian art and architecture from the 1920s through the 1970s Through in depth examinations of texts drawings and buildings Michelangelo Sabatino finds that the folk traditions of the pre industrial countryside have provided formal practical and poetic inspiration directly affecting both design and construction practices over a period of sixty years and a number of different political regimes This surprising continuity allows Sabatino to reject the division of Italian history into sharply delimited periods such as Fascist Interwar and Democratic Postwar and to instead emphasize the long continuous process that transformed pastoral and urban ideals into a new modernist Italy *Le Corbusier's Venice Hospital Project* Mahnaz

Shah,2017-05-15 While Le Corbusier s urban projects are generally considered confrontational in their relationship to the traditional urban fabric his proposal for the Venice hospital project remained an exercise in preserving the medieval fabric of the city of Venice through a systemic replication of its urban tissue This book offers a detailed study of Le Corbusier s Venice hospital project as a plausible built entity In addition it analyses it in the light of its supposed affinity with the medieval urban configuration of the city of Venice No formal attempt to date has been made to critically analyse the hospital project s design considerations in comparison to the medieval urban configuration of the city of Venice Using a range of methodologies including those from architectural theory and history using archival resources on site analysis and interviews with important resource persons this book is an interpretation of the conceptual basis for Le Corbusier understanding of the structural formulation of the city of Venice as mentioned in *The Radiant City* 1935 In doing so it deciphers the diagrammatic analysis of the city structure found in this work into a set of coherent design modules that were applied in the hospital project and that could become a point of further investigation Architects and other architecturally interested laypeople with an interest in Venice will find the book a valuable addition to their knowledge For architectural historians the book makes an important link between modernism and the historically grown Venice ***Rome the Second Time*** Dianne Bennett,William

Modigliani Meryle Secrest,2011-03-01 People like us have different rights different values than do ordinary people because we have different needs which put us above their moral standards Modigliani Amedeo Beloved of God Modigliani was considered to be the quintessential bohemian artist his legend almost as infamous as Van Gogh s In Modigliani s time his work was seen as an oddity contemporary with the Cubists but not part of their movement His work was a link between such portraitists as Whistler Sargent and Toulouse Lautrec and that of the Art Deco painters of the 1920s as well as the new approaches of Gauguin C zanne and Picasso Jean Cocteau called Modigliani our aristocrat and said There was something like a curse on this very noble boy He was beautiful Alcohol and misfortune took their toll on him In this major new biography Meryle Secrest one of our most admired biographers whose work has been called enthralling *The Wall Street Journal* rich in detail scrupulously researched and sympathetically written *The New York Review of Books* now gives us a fully realized portrait of one of the twentieth century s master painters and sculptors his upbringing a Sephardic Jew from an impoverished but genteel Italian family his going to Paris to make his fortune his striking good looks How beautiful he was my god how beautiful said one of his models his training as an artist and his influences including the Italian Renaissance particularly the art of Botticelli Nietzsche s theories of the artist as barmensch divinely endowed divinely inspired the monochromatic backgrounds of Van Gogh and C zanne the work of the Romanian sculptor Brancusi and the primitive sculptures of Africa and Oceania with their simplified masklike triangular faces elongated silhouettes puckered lips low foreheads and heads on

exaggeratedly long necks We see the ways in which Modigliani's long kept secret illness from tuberculosis it almost killed him as a young man affected his work and his attitude toward life how consumption caused him to embrace fatalism and idealism creativity and death and how he used alcohol and opium with laudanum as an antispasmodic to hide the symptoms of the disease and how because of it he came to be seen as a dissolute alcoholic And throughout we see the Paris that Modigliani lived in a city in dynamic flux where art was still a noble cause how Modigliani became part of a life in the streets and a world of art and artists then in a transforming revolution Monet C zanne Degas Renoir et al and others more radical Matisse Derain etc all living within blocks of one another Secrest's book written with unprecedented access to letters diaries and photographs never before seen is an extraordinary revelation of a life lived in art Here is Modigliani the man and the artist seemingly shy delicate a man on a desperate mission masquerading as an alcoholic cheating death again and again and calculating what he had to do in order to go on working and concealing his secret for however much time remained
