## **Guild Dynamics In Seventeenthcentury Istanbul:**

*Guild Dynamics in Seventeenth-Century Istanbul* Eunjeong Yi, 2003-12-01 The Istanbul guilds of the Ottoman Empire witnessed a period of profound economic and political turbulence throughout the seventeenth century Drawing on the kadi court records of Istanbul the author explores issues of guild organization questions the so called traditionalism of Ottoman guilds and examines the ability of the guilds to negotiate with the state during times of peace war and revolt Not only does this study shed new light on the question of what the Ottoman guilds were and what they were capable of but it also places the guilds of Istanbul into the wider dynamic context of contemporary history This work is a valuable addition to anyone interested in Ottoman social and political history *The Arabs of the Ottoman Empire, 1516-1918* Bruce

Masters, 2013-04-29 This book discusses the role of Arabs in the Ottoman Empire for the four centuries that they were its subjects The conventional wisdom was that the Arabs were a subject people who resented or at best were indifferent to their Ottoman overlords This book argues that two social classes Sunni religious scholars and urban notables were willing collaborators in the imperial enterprise and without whose support the Ottoman Empire would not have ruled the Arab lands for as long as they did **Transottoman Biographies, 16th-20th c.** Denise Klein, Anna Vlachopoulou, 2023-09-04 For

centuries people moved between the Ottoman Empire Eastern Europe and Iran This book studies the biographies of individuals and groups as different as rulers and revolutionaries frontier bandits and merchants soldiers and slaves from the sixteenth to the twentieth centuries Following their journeys across borders the case studies of this volume emphasize the profound effect that mobility had on the lives and thoughtworlds of everyone with a Transottoman trajectory The chapters reveal breaks adjustments and continuities in people s biographies and the in betweenness that moving typically created

Gymnich, 2024-05-20 Given that strong asymmetrical dependencies have shaped human societies throughout history this kind of social relation has also left its traces in many types of texts Using written and oral narratives in attempts to reconstruct the history of asymmetrical dependency comes along with various methodological challenges as the 15 articles in this interdisciplinary volume illustrate They focus on a wide range of different factual and fictional text types including inscriptions from Egyptian tombs biblical stories novels from antiquity the Middle High German Rolandslied Ottoman court records captivity narratives travelogues the American gift book *The Liberty Bell* and oral narratives by Caribbean Hindu women Most of the texts discussed in this volume have so far received comparatively little attention in slavery and dependency studies The volume thus also seeks to broaden the archive of texts that are deemed relevant in research on the histories of asymmetrical dependencies bringing together perspectives from disciplines such as Egyptology theology literary studies history and anthropology **The Image of an Ottoman City** Heghnar Watenpaugh, 2004-09-01 This urban and

architectural study of Aleppo a center of early modern global trade draws upon archival and narrative texts architectural evidence and contemporary theoretical discussions of the relation between imperial ideology urban patterns and rituals and architectural form The first two centuries of Ottoman rule fostered tremendous urban development and reorientation through judiciously sited acts of patronage Monumental structures endowed by Ottoman officials both introduced a new imperial architecture from Istanbul and incorporated formal elements from the local urban visual language By viewing the urban and social contexts of these acts tracing their evolution over two centuries and examining their discussion in Ottoman and Arabic sources this book proposes a new model for understanding the local reception and adaptation of imperial forms institutions and norms

Crisis and Rebellion in the Ottoman Empire Aysel Yildiz, 2017-01-30 In 1807 the reformist Sultan Selim III was overthrown in a palace coup enacted by the elite special forces of the day the Janissaries The Ottomans were bankrupt and had been forced to make peace with Napoleon after Austerlitz but it was Selim III's efforts to reform an empire that had suffered successive military defeats and to reform along the lines of modern principles with an end to the privileged feudal position of many in elite Ottoman civil military society which sealed his fate This book seeks to situate Turkey's reactionary revolutions of 1807 into a wider European context that of the French Revolution and the outbreaks of revolutionary activity in the German states Britain and the US The Ottoman Empire was an interconnected and crucial part of this early modern world and therefore Aysel Yildiz argues must be analyzed in relation to its European rivals Focusing on the uprising and the socio economic and political conditions which caused it this book re-orientates Ottoman history towards Western Europe and re-situates the late Ottoman Empire as a key battle ground of political ideas in the modern era

*Forging Urban Solidarities* Charles L. Wilkins, 2010 As with most empires of the Early Modern period 1500 1800 the Ottomans mobilized human and material resources for warmaking on a scale that was vast and unprecedented The present volume examines the direct and indirect effects of warmaking on Aleppo an important Ottoman administrative center and Levantine trading city as the empire engaged in multiple conflicts including wars with Venice 1644 69 Poland 1672 76 and the Hapsburg Empire 1663 64 1683 99 Focusing on urban institutions such as residential quarters military garrisons and guilds and using intensively the records of local law courts the study explores how the routinization of direct imperial taxes and the assimilation of soldiers to civilian life challenged and reshaped the city's social and political order

*The Ottoman World* Christine Woodhead, 2011-12-15 The Ottoman empire as a political entity comprised most of the present Middle East with the principal exception of Iran north Africa and south eastern Europe For over 500 years until its disintegration during World War I it encompassed a diverse range of ethnic religious and linguistic communities with varying political and cultural backgrounds Yet was there such a thing as an Ottoman world beyond the principle of sultanic rule from Istanbul Ottoman authority might have been established largely by military conquest but how was it maintained for so long over such distances and so many disparate societies How did provincial regions relate to the imperial centre and what role was played in this by local elites What did it mean in practice for ordinary people to be part of an Ottoman world Arranged in five thematic sections with contributions from thirty specialist historians The Ottoman World addresses these questions examining aspects of the social and socio ideological composition of this major pre modern empire and offers a combination of broad synthesis and detailed investigation that is both informative and intended to raise points for future debate The Ottoman World provides a unique coverage of the Ottoman empire widening its scope beyond Istanbul to the edges of the empire and offers key coverage for students and scholars alike

*Women in Eighteenth Century Europe* Margaret Hunt, 2014-06-11 Was the century of Voltaire also the century of women In the eighteenth century changes in the nature of work family life sexuality education law religion politics and warfare radically altered the lives of women Some of these developments caused immense confusion and suffering others greatly expanded women's opportunities and worldview long before the various women's

suffrage movements were more than a glimmer on the horizon This study pays attention to queens as well as commoners respectable working women as well as prostitutes women physicists and mathematicians as well as musicians and actresses feminists as well as their critics The result is a rich and morally complex tale of conflict and tragedy but also of achievement The book deals with many regions and topics often under represented in general surveys of European women including coverage of the Balkans and both European Turkey and Anatolia of Eastern Europe of European colonial expansion particularly the slave trade and of Muslim Eastern Orthodox and Jewish women s history Bringing all of Europe into the narrative of early modern women s history challenges many received assumptions about Europe and women in past times and provides essential background for dealing with issues of diversity in the Europe of today

**Artisan Entrepreneurs in Cairo and Early-Modern Capitalism (1600-1800)** Nelly Hanna,2011-06-16 Little has been written about the economic history of Egypt prior to its incorporation into the European capitalist economy While historians have mined archives and court documents to create a picture of the commercial activities networks and infrastructure of merchants during this time few have documented a similar picture of the artisans and craftspeople Artisans outnumbered merchants and their economic weight was considerable yet details about their lives the way they carried out their work and their role or position in the economy are largely unknown Hanna seeks to redress this gap with *Artisan Entrepreneurs in Cairo and Early Modern Capitalism 1600 1800* by locating and exploring the role of artisans in the historical process Offering richly detailed portraits as well as an overview of the Ottoman Empire s economic landscape Hanna incorporates artisans into the historical development of the period portraying them in the context of their work their families and their social relations These artisans developed a variety of capitalist practices both as individuals and collectively in their guilds Responding to the demands of expanding commercial environments in Egypt and Europe artisans found ways to adapt both production techniques and the organization of production Hanna details the ways in which artisans defied the constraints of the guilds and actively engaged in the markets of Europe demonstrating how Egyptian artisan production was able to compete and survive in a landscape of growing European trade Deftly synthesizing a wide range of economic and historical theory Hanna reinvigorates the current scholarship on early Ottoman history and provides a persuasive challenge to the largely shallow perception of artisans role in Egypt s economy

**Ransom Slavery along the Ottoman Borders** Geza David,2007-08-31 Notwithstanding the spectacular upswing in the research there are areas of Ottoman slavery that have still not received the attention they deserve This volume intends to take a step towards bridging this gap The twelve studies it contains are organised around connected themes the hunt for the trade in and the treatment of captives in the Balkans and in Central Europe The area under scrutiny is focussed on Hungary and some other border regions extending from the Crimea to Malta It offers both an analytic and synthetic approach based on a great deal of so far unpublished Ottoman and European archival material It not only examines Christian slavery in the Ottoman Empire but also provides greater insight into the tribulations of Ottoman slaves in the

Christian world and sheds light on the devastating effect of captive related transactions on trade and sometimes on the financial position of whole communities

**Emotions in the Ottoman Empire** Nil Tekgöl, 2022-12-15 Exploring the political social and familial ties in early modern Ottoman society this book is a timely contribution to both the history of emotions and the study of the Ottoman Empire Spanning love and compassion in political discourse gratitude in communal relations to affection in the home Emotions in the Ottoman Empire considers the role of emotions in both micro and macro settings Drawing on Ottoman primary sources such as advice manuals judicial court records and imperial decrees this book claims that the contested concept of protection related to how and who to protect was culturally specific and historically contingent and stands at the center of all debates about how the Ottoman empire and society itself employed the politics of difference It explores what it felt like to protect and be protected in the early modern era and how Ottoman subjects conceptualized the unequal power relations The central argument of the book is that it was emotions in the early modern era which provided the meaning of the concept of protection It also traces change in meaning of protection in the nineteenth century and explores how emotions transformed or got lost in social political and familial relations during the period of modernization Highlighting a culture that has so far been neglected in the history of emotions this book looks to globalise the field and think more deeply about Ottoman society in the early modern period
