*Guillaume Postel, Prophet of the Restitution of All Things* Marion Leathers Kuntz, 1981      **Guillaume Postel M.L.**  
Kuntz, 1981  
Guillaume Postel was undoubtedly one of the most remarkable and interesting scholars and thinkers of the sixteenth century. His knowledge of Hebrew and Arabic was rare among his contemporaries as was his study and use of the Rabbinical Cabalistic and Islamic literature preserved in these languages. His attempt to harmonize Christian Jewish and Mohammedan thought gave him an important place in the history of religious tolerance whereas his prophecies about a universal religion and a universal monarchy seem to anticipate more recent ideas of a world state and of general peace. In his prophecies Postel assigned a unique role to himself and to a pious lady whom he met in Venice and whom he lavishly praises in all his later writings. Admired and respected by many contemporary scholars and princes in France Italy and Germany he also aroused the suspicions of the religious and political authorities of his time who considered him dangerous but mad and thus spared his life but confined him to a monastery for many years. His numerous writings survive in rare editions and manuscripts and the later copies of some of his works show that he continued to be read and to exercise much influence down to the eighteenth century.

*The Radical Reformation, 3rd ed.* George Huntston Williams, 1995-05-01  
George Williams monumental *The Radical Reformation* has been an essential reference work for historians of early modern Europe narrating in rich interpretative detail the interconnected stories of radical groups operating at the margins of the mainline Reformation. In its scope spanning all of Europe from Spain to Poland from Denmark to Italy and its erudition *The Radical Reformation* is without peer. Now in paperback format Williams' magnum opus should be considered for any university level course on the Reformation.

**Christian Hebraism in the Reformation Era (1500-1660)** Stephen G. Burnett, 2012-01-05  
The Reformation transformed Christian Hebraism from the pursuit of a few into an academic discipline. This book explains that

transformation by focusing on how authors printers booksellers and censors created a public discussion of Hebrew and Jewish texts      **Rose Cross Over the Baltic** Susanna Åkerman,1998 This volume studies the fascinating millenarian background to the early Rosicrucian pamphlets with special emphasis on their reception in the Baltic area but also with reference to the original authors in Tübingen      **The Privileged Divine Feminine in Kabbalah** Moshe Idel,2018-11-19 This volume addresses the complex topic of the preeminent status of the divine feminine power to be referred also as Female within the theosophical structures of many important Kabbalists Sabbatean believers and Hasidic masters This privileged status is part of a much broader vision of the Female as stemming from a very high root within the divine world then She was emanated and constitutes the tenth lower divine power and even in this lower state She is sometime conceived of governing this world and as equal to the divine Male Finally She is conceived of as returning to Her original place in special moments the days of Sabbath the Jewish Holidays or in the eschatological era Her special dignity is sometime related to Her being the telos of creation and as the first entity that emerged in the divine thought which has been later on generated In some cases an uroboric theosophy links the Female Malkhut directly to the first divine power Keter The author points to the possible impact of some of the Kabbalistic discussions on conceptualizations of the feminine in the Renaissance period      **Shifting Patterns of Reformed Tradition** Emidio Campi,2014-05-14 The thirteen essays in this volume were all originally presented at international conferences or in public lectures They address three main areas of inquiry all of which in one way or another are of key importance in early modern historical discourse and theological thinking 1 the theological diversity and debates within the Reformed tradition in the sixteenth century and beyond 2 Peter Martyr Vermigli's noteworthy contribution to Reformed ecclesiology and biblical exegesis and 3 the later development and enrichment of Reformed thought on both sides of the Atlantic They show that the Reformed tradition was neither monolithic nor monochrome nor immutable but evolved in different if interrelated patterns and directions      *Black and Slave* David M. Goldenberg,2017-05-22 Studies of the Curse of Ham the belief that the Bible consigned blacks to everlasting servitude confuse and conflate two separate origins stories etiologies one of black skin and the other of black slavery This work unravels the etiologies and shows how the Curse an etiology of black slavery evolved from an earlier etiology explaining the existence of dark skinned people We see when where why and how an original mythic tale of black origins morphed into a story of the origins of black slavery and how in turn the second then supplanted the first as an explanation for black skin In the process we see how formulations of the Curse changed over time depending on the historical and social contexts reflecting and refashioning the way blackness and blacks were perceived In particular two significant developments are uncovered First a curse of slavery originally said to affect various dark skinned peoples was eventually applied most commonly to black Africans Second blackness originally incidental to the curse in time became part of the curse itself Dark skin now became an intentional marker of servitude the visible sign of the blacks degradation and in the process deprecating black skin itself      Queen Christina of Sweden and her Circle

Susanna Åkerman,1991-07-01 The life and works of Queen Christina of Sweden 1626 1689 have often been obscured behind a haze of lurid myths and legends This book looks again at her notorious abdication of 1654 seeing it against the background of her reputation as a libertine a heterodox religious thinker Her subsequent conversion to Catholicism is therefore understood as a consequence of messianic and millenarian expectations during those turbulent years and her bizarre attempt in 1657 to become the ruler of Naples is revealed to be the political wing of a comprehensive religious and intellectual philosophy

**Jewish Allegory in Eighteenth-Century Christian Imagination** Rebecca K. Esterson,2023-10-08 Rebecca K Esterson explores how Christian methods of biblical interpretation shifted during the eighteenth century producing a rhetorical rejection of allegory while embracing literalism Under the influence of Enlightenment concepts of human reason and advances in the experimental sciences Christian interpreters began casting Jewish biblical interpretation as allegorical while presenting Christian interpretation as literal This shift in self understanding allowed Christians to portray their own interpretations as scientifically philosophically and historically superior resulting in a new way of othering the Jewish people This study of biblical exegesis theology philosophy and the arts in English Swedish and German contexts is an essential resource for scholars interested in biblical reception history and the history of Jewish Christian relations

**The Third Force in Seventeenth Century Thought** Richard Henry Popkin,1992 This volume contains more than twenty essays in the history of modern philosophy and history of religion by R H Popkin Several of the essays have not been published before Thinkers discussed include Hobbes Henry More Pascal Spinoza Cudworth Newton Hume Condorcet and Moritz Schlick

**The Hebrew Republic** Eric Nelson,2010-03-30 According to a commonplace narrative the rise of modern political thought in the West resulted from secularization the exclusion of religious arguments from political discourse But in this pathbreaking work Eric Nelson argues that this familiar story is wrong Instead he contends political thought in early modern Europe became less not more secular with time and it was the Christian encounter with Hebrew sources that provoked this radical transformation During the sixteenth and seventeenth centuries Christian scholars began to regard the Hebrew Bible as a political constitution designed by God for the children of Israel Newly available rabbinic materials became authoritative guides to the institutions and practices of the perfect republic This thinking resulted in a sweeping reorientation of political commitments In the book s central chapters Nelson identifies three transformative claims introduced into European political theory by the Hebrew revival the argument that republics are the only legitimate regimes the idea that the state should coercively maintain an egalitarian distribution of property and the belief that a godly republic would tolerate religious diversity One major consequence of Nelson s work is that the revolutionary politics of John Milton James Harrington and Thomas Hobbes appear in a brand new light Nelson demonstrates that central features of modern political thought emerged from an attempt to emulate a constitution designed by God This paradox a reminder that while we may live in a secular age we owe our politics to an age of religious fervor in turn illuminates fault lines in contemporary political discourse Images

of Islam, 1453-1600 Charlotte Colding Smith, 2015-10-06 Using evidence from contemporary printed images Smith examines the attitudes of Christian Europe to the Ottoman Empire and to Islam She also considers the relationship between text and image placing it in the cultural context of the Reformation and beyond Experiencing Nature P. Theerman, Karen Hunger Parshall, 2013-03-11 This volume honoring the renowned historian of science Allen G Debus explores ideas of science experiences of nature from within a historiographical tradition that Debus has done much to define As his work shows the sciences do not develop exclusively as a result of a progressive and inexorable logic of discovery A wide variety of extra scientific factors deriving from changing intellectual contexts and differing social millieus play crucial roles in the overall development of scientific thought These essays represent case studies in a broad range of scientific settings from sixteenth century astronomy and medicine through nineteenth century biology and mathematics to the social sciences in the twentieth century that show the impact of both social settings and the cross fertilization of ideas on the formation of science Aimed at a general audience interested in the history of science this book closes with Debus s personal perspective on the development of the field Audience This book will appeal especially to historians of science of chemistry and of medicine **Reform**

**before the Reformation: Vincenzo Querini and the Religious Renaissance in Italy** Stephen David Bowd, 2021-10-11 An important aspect of the Italian Renaissance was church reform This book examines the nature of that reform especially in Venice Florence and Rome as viewed through the unpublished manuscripts of a Venetian nobleman who became a Camaldolese hermit Vincenzo Querini 1478 1514 This book sets Querini s personal journey to reform in the context of Venetian society as well as against the backdrop of political crisis cultural revival and monastic renaissance in Italy generally Querini s attempt to reform himself the Roman Catholic Church and the whole of Christendom are of interest to historians seeking to revise the chronology of early modern church reform since he employed a range of scriptural humanist conciliar monastic and mystical methods that had medieval antecedents but were also imitated by reformers after the Reformation

*John Dee: Interdisciplinary Studies in English Renaissance Thought* Stephen Clucas, 2006-06-18 Intellectual History and the Identity of John Dee In April 1995 at Birkbeck College University of London an interdisciplinary colloquium was held so that scholars from diverse fields and areas of expertise could 1 exchange views on the life and work of John Dee Working in a variety of fields intellectual history history of navigation history of medicine history of science history of mathematics bibliography and manuscript studies we had all been drawn to Dee by particular aspects of his work and participating in the colloquium was to c front other narratives about Dee s career an experience which was both bewildering and instructive Perhaps more than any other intellectual figure of the English Renaissance Dee has been fragmented and dispersed across numerous disciplines and the various attempts to re integrate his multiplied image by reference to a particular world view or philosophical outlook have failed to bring him into focus This volume records the diversity of scholarly approaches to John Dee which have emerged since the synthetic accounts of I R F Calder Frances Yates and Peter French If these approaches

have not succeeded in resolving the problematic multiplicity of Dees activities they will at least deepen our understanding of specific and local areas of his intellectual life and render them more historiographically legible      *Thought and Faith in the Philosophy of Hegel* J.E. Walker, 2012-12-06 The purpose of this collection of papers is to introduce English speaking philosophers and theologians to something of the variety of the contemporary debate about the religious relevance of Hegels thought It is published in the hope that it will appeal not only to specialised students of Hegels Philosophy of Religion but to a wide audience of scholars interested in Hegels thought as a whole The volume grew out of the 1987 Oxford conference on Thought and Faith in the Philosophy of Hegel but has since developed beyond the confines of the original conference programme The programme of the conference consisted of five major papers on different aspects of Hegels religious thought and its reception followed by a somewhat shorter commentary delivered by another scholar in the same field This basic format has been retained but a number of the commentaries have been extended or rewritten and an entirely new piece by Kurt Meist has been commissioned for the purpose of this collection The volume includes studies of the Lectures on the Philosophy of Religion and the Phenomenology as well as pieces dealing with the theological relevance of Hegels philosophy of history and Kierkegaards attack on Hegel It concludes with an examination of the relevance of Hegels doctrine of absolute Spirit to the modern defence of his philosophy as a whole      **Concise Biographical Companion to Index**
