Covering over 1500 singers from the birth of opera to the present day, this marvelous volume will be an essential resource for all serious opera lovers and an indispensable companion to the enormously successful *Grove Book of Operas*. The most comprehensive guide to opera singers ever produced, this volume offers an alphabetically arranged collection of authoritative biographies that range from Marion Anderson, the first African American to perform at the Met, to Benedict Zak, the classical tenor and close friend and colleague of Mozart. Readers will find fascinating articles on such opera stars as Maria Callas and Enrico Caruso, Ezio Pinza and Fyodor Chaliapin, Lotte Lehmann and Jenny Lind, Lily Pons and Luciano Pavarotti. The profiles offer basic information such as birth date, vocal style, first debut, most memorable roles, and much more. But these articles often go well beyond basic biographical information to offer colorful portraits of the singer's personality and vocal style, plus astute evaluations of their place in operatic history and many other intriguing observations. Many entries also include suggestions for further reading so that anyone interested in a particular performer can explore their life and career in more depth. In addition, there are indexes of singers by voice type and by opera role, and premieres. The articles are mostly drawn from the acclaimed *Grove Music Online* and have been fully revised, and the book is further supplemented by more than 40 specially commissioned articles on contemporary singers. A superb new guide from the first name in opera reference, *The Grove Book of Opera Singers* is a lively and authoritative work, beautifully illustrated with color and black and white pictures. It is an essential volume and the perfect gift for opera lovers everywhere. **Late Style and its Discontents** Gordon McMullan, Sam Smiles, 2016-09-01. Late style is a critical term routinely deployed to characterise the work of selected authors, composers, and creative artists as they enter their last phase of production, often but not only in old age. Taken at face value, this terminology merely points to a chronological division in the artist's oeuvre, late being the antonym of early or the third

term in the triad early middle late However almost from its inception the idea of late style or late work has been freighted with aesthetic associations and expectations that promote it as a special episode in the artist's creative life Late style is often characterised as the imaginative response made by exceptional talents to the imminence of their death In their confrontation with death creative artists critics claim produce work that is by turns a determination to continue while strength remains a summation of their life's work and a radical vision of the essence of their craft And because this creative phenomenon is understood as primarily an existential response to a common fate so late style is understood as something that transcends the particularities of place time and medium Critics seeking to understand late work regularly invoke the examples of Titian Goethe and Beethoven as exemplars of what constitutes late work proposing that something unites the late style of authors composers and creative artists who otherwise would not be bracketed together and that lateness per se is a special order of creative work The essays in this collection resist this position Ranging across literature the visual arts music and scientific work the material assembled here looks closely at the material biographical and other contexts in which the work was produced and seeks both to question the assumptions surrounding late style and to prompt a more critical understanding of the last works of writers artists and composers
