Guilty Love:

Guilty Love Charlotte Lamb, 2012-07-16 Nowhere to Run Linzi York loved her husband but Barty had changed His rage and growing despair since the accident had taken a brutal toll Linzi was trapped in a nightmare And Ritchie Calhoun knew it Linzi and Ritchie s relationship had always remained on a cool professional level but now facades were beginning to crumble Needs and desires they were powerless to deny tormented them and it was Linzi who was paying the highest price Then a horrible tragedy shattered their lives and Ritchie s courage proved his love in a way that few men ever could **The Loves and Intrigues of Kings and Queens** Dennis O'Sullivan, 2025-08-10 Reprint of the original first published in 1882 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage **Love's Knowledge** Martha C. Nussbaum, 1992-04-02 This volume brings together Nussbaum s published papers on the relationship between literature and philosophy especially moral philosophy The papers many of them previously inaccessible to non specialist readers deal with such fundamental issues as the relationship between style and content in the exploration of ethical issues the nature of ethical attention and ethical knowledge and their relationship to written forms and styles and the role of the emotions in deliberation and self knowledge Nussbaum investigates and defends a conception of ethical understanding which involves emotional as well as intellectual activity and which gives a certain type of priority to the perception of particular people and situations rather than to abstract rules She argues that this ethical conception cannot be completely and appropriately stated without turning to forms of writing usually considered literary rather than philosophical It is consequently necessary to broaden our conception of moral philosophy in order to include these forms Featuring two new essays and revised versions of several previously published essays this collection attempts to articulate the relationship within such a broader ethical inquiry between literary and more abstractly theoretical elements **La Collerica** , 1857 *Letters From Julia - After Death* W. T. Stead, 1998 Combined with What is Death by Mrs M T Longley and Where Do We Go translated from the French These rare classics are ideal text books for the beginner spiritualist This is one of the best combinations found under one cover on the subject of Spi *The Lady's Magazine, Or, Mirror of the Belles-lettres, Fine Arts, Music, Drama, Fashions, Etc* , 1823 *Proust and Signs* Gilles Deleuze, 2008-01-01 Philosophy **The Complete Works of Sir Arthur Conan Doyle** Arthur Conan Doyle, 2023-12-21 The Complete Works of Sir Arthur Conan Doyle is an exhaustive anthology that encapsulates the diverse literary contributions of one of the most prolific writers of the late 19th and early 20th centuries This collection showcases not only the iconic Sherlock Holmes detective stories characterized by their meticulous attention to detail and an intricate plotting style but also a range of historical novels science fiction and narratives steeped in the supernatural Doyle s mastery of prose is evident in his dynamic characterization and vivid storytelling reflecting the Victorian literary context and evolving societal norms of his time Arthur Conan Doyle a trained physician and avid adventurer drew inspiration from his

medical background and experiences in the natural world to create compelling narratives His fascination with the human psyche and moral complexities often infused his storytelling revealing deeper themes within often fantastical plots The contrast between his scientific profession and the imaginative worlds he created sheds light on his unique literary voice and pioneering contributions to the mystery and detective genres This complete collection is a must read for enthusiasts of classic literature and anyone intrigued by the evolution of mystery fiction Doyle s works not only entertain but also provide a profound insight into the human condition and the intricate nature of truth and deception making this anthology an invaluable addition to any literary library

Urban Poetics in the French Renaissance Elisabeth Hodges,2016-12-05 The city view forms the jumping off point for this innovative study which explores how the concept of the city relates to the idea of the self in early modern French narratives At a time when print culture cartography and literature emerged and developed together the city view a picture or topographic image of a city became one of the most distinctive and popular products of the early modern period Through a construct she calls urban poetics Elisabeth Hodges draws out the relationship between the city and the self showing the impact of the city in cultural production to be so profound that it cannot be extricated from what we know by the name of subjectivity Each chapter of the book brings focus to a crucial text that features descriptions of the self in the city by the writers Villon Corrozet Sc ve and Montaigne and investigate how representations of urban experience prepared the way for the emergence of the autonomous subject Charting a course between cartography literary studies and cultural history this study opens new vistas on some of the period s defining problems the book the subject the city

Dante and Polish

Writers Andrea Ceccherelli, 2024-02-22 Dante and Polish Writers From Romanticism to the Present explores the phenomenon of Polish Danteism from a hermeneutic perspective The chapters shed light on a series of encounters of eminent Polish writers with Dante and the Divine Comedy resulting in original interpretations creative reworkings and a wealth of intertextual references testifying to a dialogue that has always been and still is alive not excluding antagonism and bitter controversy The contributors are all scholars of Polish literature with comparative expertise teaching in Italian and Polish universities which ensures a consistently focused point of view on the receptive context and the ways in which it is affected by the confrontation with Dante The hermeneutic horizon ranges from the Inferno like reading of the inhuman lands with which history abounds to the metaphysical yearning underlying Dante's poetics of transhumanizing to recent perspectives related to the posthuman and storytelling
