Guinness Of The Century:

Guinness's Brewery in the Irish Economy 1759-1876 Patrick Lynch, John Vaizey, 2011-06-16 This 1960 text examines the role that Guinness's brewery played in the Irish economy in the years between 1759-1876 **British Shareholder**

Meetings in the Long Nineteenth Century Timothy Alborn, 2023-12-19 This collection of reported British shareholder meetings originally published between 1800 and 1920 provides scholars and students new insight into the development of big businesses in the world today. Although such meetings comprised only one of many facets of companies' intersections with their publics during the nineteenth century, they regularly provide a rich insight into each industry. This collection offers a breadth of examples including utilities, land companies, and theatres, as well as mining, insurance, banking, and transport, to allow readers to gain a sense of the protean nature of incorporation during the long nineteenth century. Following a general introduction, the book is divided into four sections: Doing the Business on day-to-day financial operations; Politics on corporate activities that intersected with British political and imperial concerns; Failure on the communication and reception of financial ruin; and Mergers and Acquisitions on shareholders' responses to proposed mergers. Short introductions to each document provide the necessary information about each company and its constituents. This title will be of great interest to students of History, Business, and Finance.

Malt, Hops, Magic and Passion Andy Mitchell, 2024-03-26 Seasoned qualified master brewer Andrew Mitchell knows that although there are millions who enjoy drinking beer around the world, many have either limited or no knowledge of the beer brewing process. In a fascinating guide for beer lovers, brewers, and beer drinkers, Mitchell shares insight into what makes a beer a beer and what really goes on behind the scenes in the backroom of a brewery. While blending his personal experiences working in brewing plants and breweries for forty-five years with facts and anecdotes about the delicious golden liquid, he covers a variety of beer-related topics that include the brewing process, the importance of a beer glass, the different beers enjoyed in different nations, ideal beer and cheese pairings, the reasons why beer makes us happy, craft versus mainstream beer, and much more. **Malt, Hops, Magic and Passion** offers insights, personal stories, and interesting facts that reveal a candid glimpse into the world of beer, breweries, and the life of a master brewer.

A Century of Catholic Converts Lorene Hanely Duquin, 2003-04-01 These are the conversions that made history. For most of the last hundred years, it all has been predicting the end of the Catholic Church, and indeed all organized religion. Meanwhile, a steady stream of conversions has brought the best minds of recent history into the Church. Why did they convert? Why do countless thousands still convert every year? Lorene Duquin was away from the Church for many years, but she set out to answer that question when she was writing the biography of one of those converts. The answers she found led her back into the Church herself. In these fascinating and often inspiring stories, you'll find how the historical context influences conversions, how other people help the convert along the way, and how Catholicism has inspired so many great minds. Then you'll see how each of these converts has in turn brought something uniquely valuable into the Church.

Alcohol and Liver Cirrhosis in Twentieth-Century Britain Ryosuke Yokoe, 2023-04-28 The relationship between alcohol consumption and liver cirrhosis has long been contested by doctors and medical professionals creating numerous implications for the public reputation of alcohol in Britain Despite this it was not until the 1970s that cirrhosis came to be understood as an alcoholic disease This book contextualises developments in this debate through the twentieth century by examining the significant influence that medical expertise had on policy responses to alcohol misuse as well as the social reputation of alcohol consumption It demonstrates how the degree to which drinking was seen to be responsible for liver disease directly shaped how different groups such as the temperance movement and the drinks industry exaggerated or downplayed the destructive properties of alcohol Covering a series of themes including the science of disease causation the social standing of medical expertise and alcohol and public health policy this book argues that in order to properly understand the trajectory of debates around drinking we need to consider the twentieth century alcohol problem as primarily a medical issue Contrary to the tendency by existing works to disassociate perceptions and responses to alcohol use from the objective knowledge of its effects on the body this book shows that medical understandings of liver disease influenced how alcohol was conceptualised in relation to its harms Offering a fresh perspective on the interaction between scientific knowledge and policy during the twentieth century this book provides insights for those researching the social political and cultural history of modern Britain as well as historians of medicine and health
