Guitar Makers Kathryn Marie Dudley, 2014-11-10 It whispers it sings it rocks and it howls It expresses the voice of the folk the open road freedom protest and rebellion youth and love It is the acoustic guitar And over the last five decades it has become a quintessential American icon Because this musical instrument is significant to so many in ways that are emotional cultural and economic guitar making has experienced a renaissance in North America both as a popular hobby and for some a way of life In Guitar Makers

Kathryn Marie Dudley introduces us to builders of artisanal guitars their place in the art world and the specialized knowledge they've developed Drawing on in depth interviews with members of the lutherie community she finds that guitar making is a social movement with political implications Guitars are not simply made they are born Artisans listen to their wood respond to its liveliness and strive to endow each instrument with an unforgettable tone Although professional luthiers work within a market society Dudley observes that their overriding sentiment is passion and love of the craft Guitar makers are not aiming for quick turnover or the low cost reproduction of commodities but the creation of singular instruments with unique qualities and face to face transactions between makers buyers and dealers are commonplace In an era when technological change has pushed skilled artisanship to the margins of the global economy and in the midst of a capitalist system that places a premium on ever faster and more efficient modes of commerce Dudley shows us how artisanal guitar makers have carved out a unique world that operates on alternative more humane and ecologically sustainable terms

The Guitar in America Jeffrey J. Noonan, 2009-10-08 The Guitar in America offers a history of the instrument from America's late Victorian period to the Jazz Age The narrative traces America's BMG banjo mandolin and guitar community a late nineteenth century musical and commercial movement dedicated to introducing these instruments into America's elite musical establishments Using surviving BMG magazines the author details an almost unknown history of the guitar during the movement's heyday tracing the guitar's transformation from a refined parlor instrument to a mainstay in jazz and popular music In the process he not only introduces musicians including numerous women guitarists who led the movement but also examines new techniques and instruments Chapters consider the BMG movement's impact on jazz and popular music the use of the guitar to promote attitudes towards women and minorities and the challenges foreign guitarists such as Miguel Llobet and Andres Segovia presented to America's musicians This volume opens a new chapter on the guitar in America considering its cultivated past and documenting how banjoists and mandolinists aligned their instruments to it in an effort to raise social and cultural standing At the same time the book considers the BMG community within America's larger musical scene examining its efforts as manifestations of this country's uneasy coupling of musical art and commerce

Rugs, Guitars, and Fiddling Chris Goertzen, 2022-10-21 What do exotic area rugs, handcrafted steel string guitars, and fiddling have in common today? Many contemporary tradition bearers embrace complexity in form and content. They construct objects and performances that draw on the past and evoke nostalgia effectively but also reward close attention. In Rugs, Guitars, and Fiddling: Intensification and the Rich Modern Lives of Traditional Arts, author Chris Goertzen argues that this entails three types of change that can be grouped under an umbrella term: intensification. First, traditional creativity can be intensified through virtuosity through doing hard things extra fluently. Second, performances can be intensified through addition by packing increased amounts of traditional materials into the conventionally sized packages. Third, intensification through selection: artistic impact can grow even if amount of information recedes by emphasizing compelling ideas. e.g., crafting a red and black viper poised to strike rather than a pretty duck decoy featuring more colors and contours. Rugs: handwoven in southern Mexico; luthier-made guitars and southern US fiddle styles experience parallel changes, all absorbing just enough of the complex flavors, dynamics, and rhythms of modern life to translate inherited folklore into traditions that can be widely celebrated today. New mosaics of details and skeins of nuances don't transform craft into esoteric fine art but rather enlist the twists and turns and endless variety of the contemporary world therapeutically, helping transform our daily chaos into parades of negotiable jigsaw puzzles. Intensification helps make crafts and traditional performances more accessible and understandable and thus more effective, bringing past and present closer together, helping folk arts continue to perform their magic today.
