M. Giangreco, 2017-10-15 Two years before the atomic attacks on Hiroshima and Nagasaki helped bring a quick end to hostilities in the summer of 1945 U S planners began work on Operation Downfall codename for the Allied invasions of Kyushu and Honshu in the Japanese home islands While other books have examined Operation Downfall D M Giangreco offers the most complete and exhaustively researched consideration of the plans and their implications He explores related issues of the first operational use of the atomic bomb and the Soviet Union's entry into the war including the controversy surrounding estimates of potential U S casualties Following years of intense research at numerous archives Giangreco now paints a convincing and horrific picture of the veritable hell that awaited invader and defender In the process he demolishes the myths that Japan was trying to surrender during the summer of 1945 and that U S officials later wildly exaggerated casualty figures to justify using the atomic bombs to influence the Soviet Union As Giangreco writes Both sides were rushing headlong toward a disastrous confrontation in the Home Islands in which poison gas and atomic weapons were to be employed as MacArthur's intelligence chief Charles Willoughby succinctly put it a

hard and bitter struggle with no quarter asked or given *Hell to Pay* examines the invasion of Japan in light of the large body of Japanese and American operational and tactical planning documents the author unearthed in familiar and obscure archives It includes postwar interrogations and reports that senior Japanese commanders and their staffs were ordered to produce for General MacArthur's headquarters This groundbreaking history counters the revisionist interpretations questioning the rationale for the use of the atomic bomb and shows that President Truman's decision was based on real estimates of the enormous human cost of a conventional invasion This revised edition of *Hell to Pay* expands on several areas covered in the previous book and deals with three new topics U S Soviet cooperation in the war against Imperial Japan U S Soviet and Japanese plans for the invasion and defense of the northernmost Home Island of Hokkaido and Operation Blacklist the three phase insertion of American occupation forces into Japan It also contains additional text relevant archival material supplemental photos and new maps making this the definitive edition of an important historical work

Docu-Fictions of War Tatiana Prorokova, 2019-05-01 Historical writing and fiction are not the same thing though historians often creatively manipulate material in imposing plot structures selecting starting and ending points and fashioning compelling literary characters from historical figures In *Docu Fictions of War* Tatiana Prorokova argues that the opposite is also true war fiction offers a kind of history that both documents its subjects and provides a snapshot of the cultural representation of the United States most recent military involvements She covers a largely neglected body of cinematic and literary texts about the First Gulf War the Balkan War the Afghanistan War and the Iraq War to open a fresh analysis of cultural texts on war Prorokova contends that these texts are not pure fiction but docu fictions works of imagination that can document their subjects while disclosing the social political and historical link between war and culture during the last three decades *Docu Fictions of War* analyzes how these representational narratives have highlighted a humanitarian rationale behind American involvement in each war whether the stated goals were to free the oppressed from tyranny stop genocide or rid the world of terrorism The book explores the gap between history what allegedly happened and the cultural mythology that is both true and inexact tangible and sensed recognized and undocumented
