Gunners Moon:

Airman ,1973 *The RAF's Youngest Bomber Pilot of WW2* Graham Waterton,2024-08-30 Having left his grammar school just before his 16th birthday Brian Slade falsified his age to pursue his dream of becoming a pilot Within a few days of his 17th birthday he was awarded his wings It was the start of this teenager s remarkable wartime career Soon after being awarded his pilot s brevet Brian was posted to his first squadron Flying the venerable Vickers Wellington he found himself experimenting with early target marking techniques It was also there that Brian gained the nickname The Boy Slade Though Brian s journey through the wartime RAF mirrored the experiences of tens of thousands of young men what was different if not unique was the fact before he had turned 18 which was the minimum age to begin aircrew training Brian had already completed thirty four operations more than was needed for a tour This tally included the three 1 000 bomber raids against Cologne Essen and Bremen He was awarded a Distinguished Flying Cross for nursing his badly damaged Wellington which sustained flak and night fighter damage home after a raid on Bremen Undaunted Brian soon after volunteered for his second tour of operations It was at this stage that he joined the Lancaster equipped 83 Squadron in the newly formed 8 Group becoming an experienced Pathfinder skipper It was a role in which he marked targets in the Battle of the Ruhr the bombing of Hamburg Operation Gomorrah and the Peenem nderaid The RAF s Youngest Bomber Pilot of WW2 told by his nephew a former officer in the British Army details all of Brian s fifty nine missions and captures his compelling progress with Bomber Command alongside the technological advances in aircraft pathfinder strategy and tactics Sadly Brian s Lancaster was shot down over Berlin in August 1943 The details of its loss remained shrouded in mystery until the puzzle of his aircraft s demise was eventually solved by tracing the family of the only survivor The relent less dangers not just in operations but also in training and the continuous loss of life are drawn into sharp focus But on account of his age Brian s story is unique There may have never been nor will ever be an RAF pilot of 19 years old with his flying and operational experience Complemented with a collection of previously unpublished photographs The RAF s Youngest Bomber Pilot of WW2 is one of the Second World War s most amazing tales

Ghostriders 1968-1975 William Walter,2022-03-08 If necessity is the mother of invention the AC 130 gunship was definitely her offspring Ghostriders Mors De Caelis is a comprehensive history of AC 130 gunship combat operations in Vietnam Laos and Cambodia The story begins with the first AC 130 in 1968 and ends in 1975 at the end of the war in Vietnam It tells the life and death stories of Spectre crews who faced extreme danger while hunting trucks on the Ho Chi Minh Trail and providing fire support for US and allied ground forces Though the AC 130 was credited with 10 000 trucks destroyed this phenomenal achievement came with a hefty price Fifty two Spectre crewmen and six AC 130s were lost during combat operations in Laos and Vietnam Written in third person omniscient point of view by an experienced combat veteran and Spectre Historian all aspects of the story are derived from official declassified records and personal interviews The level of detail and context figuratively puts the reader in the aircraft as an observer flying alongside

a Spectre crew in combat Above all this is the story of Spectre accurate detailed compelling and unique **The Phantom Vietnam War** David R. Honodel,2018-09-15 David R Buff Honodel was a cocky young man with an inflated self image when he arrived in 1969 at his base in Udorn Thailand His war was not in Vietnam it was a secret one in the skies of a neighboring country almost unknown in America attacking the Ho Chi Minh Trail that fed soldiers and supplies from North Vietnam into the South Stateside he learned the art of flying the F 4 but in combat the bomb loaded fighter handled differently targets shot back and people suffered Inert training ordnance was replaced by lethal weapons In the air a routine day mission turned into an unexpected duel with a deadly adversary Complacency during a long night mission escorting a gunship almost led to death A best friend died just before New Year s A RF 4 crashed into the base late in Buff s tour of duty The reader will experience Buff s war from the cockpit of a supersonic F 4D Phantom II doing 5 G pullouts after dropping six 500 pound bombs on trucks hidden beneath triple jungle canopy These were well defended by a skillful elusive determined enemy firing back with 37mm anti aircraft fire and tracers in the sky The man who left the States was a naive self centered young pilot The man who came back 137 missions later was much different **Merchant Vessels of the United States** ,1978

Neptune Craig L. Symonds,2014-04-10 Seventy years ago more than six thousand Allied ships carried more than a million soldiers across the English Channel to a fifty mile wide strip of the Normandy coast in German occupied France It was the greatest sea borne assault in human history The code names given to the beaches where the ships landed the soldiers have become immortal Gold Juno Sword Utah and especially Omaha the scene of almost unimaginable human tragedy The sea of crosses in the cemetery sitting today atop a bluff overlooking the beaches recalls to us its cost Most accounts of this epic story begin with the landings on the morning of June 6 1944 In fact however D Day was the culmination of months and years of planning and intense debate In the dark days after the evacuation of Dunkirk in the summer of 1940 British officials and soon enough their American counterparts began to consider how and where and especially when they could re enter the European Continent in force The Americans led by U S Army Chief of Staff General George C Marshall wanted to invade as soon as possible the British personified by their redoubtable prime minister Winston Churchill were convinced that a premature landing would be disastrous The often sharp negotiations between the English speaking allies led them first to North Africa then into Sicily then Italy Only in the spring of 1943 did the Combined Chiefs of Staff commit themselves to an invasion of northern France The code name for this invasion was Overlord but everything that came before including the landings themselves and the supply system that made it possible for the invaders to stay there was code named Neptune Craig L Symonds now offers the complete story of this Olympian effort involving transports escorts gunfire support ships and landing craft of every possible size and function The obstacles to success were many In addition to divergent strategic views and cultural frictions the Anglo Americans had to overcome German U boats Russian impatience fierce competition for insufficient shipping training disasters and a thousand other impediments including logistical bottlenecks and disinformation

schemes Symonds includes vivid portraits of the key decision makers from Franklin Roosevelt and Churchill to Marshall Dwight Eisenhower and Admiral Sir Bertram Ramsay who commanded the naval element of the invasion Indeed the critical role of the naval forces British and American Coast Guard and Navy is central throughout In the end as Symonds shows in this gripping account of D Day success depended mostly on the men themselves the junior officers and enlisted men who drove the landing craft cleared the mines seized the beaches and assailed the bluffs behind them securing the foothold for the eventual campaign to Berlin and the end of the most terrible war in human history **Air Gunners** ,2014-08-01 Air Gunners is a tale of the life and loves of two men One from the Irish Free State the other from New Jersey in the USA who are thrown together during the mad days of World War II Tim O Leary meets up with Hal Grainger at an RAF aircrew training centre in Yorkshire England while training to become air gunners While they re still in training the Lancaster Bomber they re undergoing training in comes under attack by two Messerschmitt 110 hit and run raiders They manage to shoot down both of their attackers resulting in both of them ending up being recommended for the Distinguished Flying Medal Once they finish their training they move on to an Operational Training Unit where they crew up and undergo further training before moving on to an Operational Squadron Having become firm friends during their time in training they form a deadly partnership as the rear and mid upper gunners of a Lancaster Bomber crew that by wars end they end up being credited with over 55 kills between them Rust Bucket Atk Butterfly,1999 A band of space cowboys set out with uncompromising determination to stave off the forces of darkness and chaos and keep the universe safe for the orderly progression of the human ideal of freedom **Arsenal** Anton Rippon,2020-07-30 A history of the Gunners told through in depth biographies of the team s key players on and off the pitch from its late 19th century beginnings to today Arsenal The Story of a Football Club in 101 Lives tells the history of the team through the biographies of key individuals associated with the club from its formation in the gas lit days of Victorian Britain through to the present day From David Danskin the Scottish mechanical engineer and footballer who was the driving force behind the team raised at Dial Square a workshop at the Royal Arsenal in Woolwich to Arsene Wenger the longest serving and most successful manager in Arsenal s history The in depth stories of the characters players managers chairmen here paint a fascinating picture of how the club indeed the game of football itself has developed from workers playing for fun to today s multi million pound business **Combat Gunner** Pete Larsen,2011-05-13 Between 1965 and 1973 Strategic Air Command B 52 gunners flew an unprecedented number of combat hours in the Vietnam War Gunners with three and four hundred missions were not uncommon Most did their job with bravery and uncommon valor during a time when arrays of SAM missiles were being launched at them from sites in North Vietnam At times some of them got a little rowdy and their antics often surprised and perplexed the zeroes the officers they flew with This exciting and sometimes hilarious story about them closely resembles the truth *Yank* ,1942 **ADA** ,1975-04

The Tempsford Academy Bernard O'Connor,2010-07-21 This book investigates the role played by William Donovan the

OSS mission in London and the Carpetbaggers the US Squadron which was sent to RAF Tempsford to be trained by the Moon Squadrons before undertaking their own missions from Harrington Not only does it describe the work of pilots and crew members it also details some of the missions and gives insight into their social life It includes the story of Owen Johnson and Elizabeth Devereaux Rochester the first American agents to be parachuted into France and Juup Kappius Hilde Meisel and Ann Bayer the first OSS agents to be sent into Germany before the invasion *The Navy List* ,1927 **The Navy of Edward VI and Mary I** Dr C S Knighton,Professor David Loades,2013-07-28 The reigns of Edward VI and Mary I and the early years of Elizabeth I were vital times for naval administration and witnessed the apprenticeship of many who would lead the service later during Elizabeth s reign This volume includes the extant Treasurer s and Victualler s accounts with entries from the State Papers which augment the calendar summaries previously published Documents are also printed for the first time from a variety of archives in Britain and abroad *Phantom Reflections* Mike McCarthy,2006-12-30 Although it took place over three decades ago the Vietnam War at times seems to be a scar that will not heal This memoir essay details the journey of an extremely eager true believer a young pilot who couldn t wait to get in the war and was afraid it would be over before he could participate Starting in the early sixties this memoir captures the thoughts and feelings of a somewhat idealistic young pilot as he seeks adventure glory and excitement in what he believes to be a truly worthwhile cause The narrative covers Colonel McCarthy s assignment to the F 4 Phantom II fighter at the time one of the most capable fighter planes available It details the extensive training necessary to turn him into a fighter pilot and follows him as he is thrust into the midst of the intense air campaigns over North Vietnam and Laos The numerous descriptions of toe curling missions give the reader a realistic feeling of what it was like to be in combat but more than that they show how America s longest and most divisive war was perceived by those who were at the very sharpest point of the spear Unlike many fighter pilot narratives of combat McCarthy s retrospective account offered him an opportunity to reexamine his past beliefs and he candidly discusses why they have altered significantly While the accounts of air combat are riveting by themselves these reflections prove to be equally fascinating **Field and Stream** ,1909 **Journal of the United States Artillery** ,1953 Merchant Vessels of the United States...
