Gunsmoke Over The Atlantic:

Gunsmoke Over the Atlantic Jack Coombe, 2008-12-18 On April 12 1861 the Civil War began when shots were fired on an unfinished fort in Charleston Harbor From that thunderous opening salvo the naval battles to control the Atlantic coast that followed daring savage and often deadly were not only crucial in determining the outcome of the war and the fate of a nation but would change the face of naval warfare forever GUNSMOKE OVER THE ATLANTIC Historian Jack D Coombe author of the critically acclaimed *Thunder Along the Mississippi* and *Gunfire Around the Gulf* combines brilliant research with a novelist's flair for re creation to put us directly into the action of the Civil War on river on shore and at sea In this vivid account we experience the soul gnawing terror of a bombardment the claustrophobic confines of a still unproven submarine and the smoke choked chaos of a harbor in the grips of a full bore naval engagement between two desperate enemies Coombe focuses on the Civil War as it was fought along the Atlantic coast a fierce contest of blockaders and blockade runners ironclads wood hulled battleships land cannon submarines and the first underwater antiship weapons For the North the challenge was to implement a blockade over 3 500 miles of Confederate coastline from Virginia to Texas To do so they would have to modernize an ineffective and outdated U S Navy fallen into incompetence and disrepair For the South the challenge was to create a fledgling navy from whatever meager resources were at hand The Confederacy patched together a navy of river runners and converted battleships turned cornfields into shipyards and put the first ironclad battleship into action And it was the South that introduced the new concept of underwater weaponry sending spar torpedoes mines submarines and a few incredibly brave men willing to deploy them into battle against the North Gunsmoke over the Atlantic chronicles the key engagements from the Monitor and the Virginia dueling at Hampton Roads to the ill fated campaign against Fort Fisher Along the way we meet a remarkable cast of naval strategists and warriors on both sides of the battle witness the crucial often deadly role played by the weather and the sea itself and get a vivid view of such important events as the first amphibious landing in history at Cape Hatteras in 1861 An important work for students of the Civil War and of naval history this book fills in missing pieces of America's most tragic war and shows why when the guns finally fell silent a new era had begun Four years after the fall of Fort Sumter a once divided country had the beginnings of the most powerful navy in the world

A Performative Feel for the Game Trygve B. Broch, 2019-12-21 Applying a cultural sociology of performance this book interrogates how the meaning of sport intersects with gender Trygve B Broch points out uncertainties in the causal arguments made by key figures in the cultural studies tradition instead advancing a meaning centered study of sports as involving both a social and an athletic performance Sports not only reflect or reverse social realities but capture and keep our attention when we use and experience them as a means to reflect on social life injustice and hierarchy More specifically blending approaches from media studies with ethnography Broch explores the women dominated sport of handball in Norway a country that considers gender equality a basis of democracy As such the analyses here show how broadly available meanings about sameness and equality are mediated and experienced through a performative feel for the game
