Gunter Grass Reader:

The Günter Grass Reader Günter Grass, 2004 Sample Text The Politics of Remembrance in the Novels of Günter Grass Alex Donovan Cole, 2022-11-30 This manuscript argues for the importance of Günter Grass as a political thinker in addition to his status as a novelist and public intellectual capable of forming ethical responses to contemporary issues like neoliberalism and place of the petit bourgeoisie in social life I define Grass's trajectory as a thinker through his novels and speeches Primarily I draw attention to the role memory plays in Grass's thought that his work represented an intellectual and aesthetic response to the role Nazism continued to play in West German politics in the post war era To Grass Nazism represented a resurgent threat unaddressed following the end of World War II Later Grass amended his concept of memory politics to address neoliberal capitalism reiterating his radicalism and affirming the need for German society to resist the rise of extreme ideologies **Günter Grass's "Danzig-Quintet"** Katharina Hall, 2007 This study extends the long established notion of Grass's Danzig Trilogy to that of the Danzig Quintet a literary project of epic proportions which explores the evolution of Germany's relationship to its Nazi past over a period of forty years The interlocking stories of *Die Blechtrommel* 1959 *Katz und Maus* 1961 *Hundejahre* 1963 *rtlich bet ubt* 1969 and *Im Krebsgang* 2002 are mediated by the memory and language of seven first person narrators Using the dual conceptualisation of memory developed by Freud and Lacan reliving versus recollecting the past the author shows how these narrators accounts assert the reality of the Holocaust as well as German wartime suffering while highlighting the reluctance of ordinary Germans to admit their involvement in the Nazi regime This delineation of the complex relationship of three generations to their history is deepened by the intertextual nature of the quintet Using the theory of Peter Brooks Umberto Eco Shoshana Felman and Hayden White the study explores how Grass's textual strategies encourage the reader to view all five works as one overarching narrative while simultaneously avoiding any literary or historical closure In the process the study places each book in the context of its moment of production and also considers the implications of Grass's belated admission in August 2006 that he served with the Waffen SS during the final months of World War Two **The Environmentalist's Dilemma** Arno Kopecky, 2021-10-19 For readers of Ronald Wright Rebecca Solnit and Yuval Noah Harari comes a compelling inquiry into our relationship with humanity's latest and greatest calamity In *The Environmentalist's Dilemma* award winning journalist Arno Kopecky zeroes in on the core predicament of our times the planet may be dying but humanity's doing better than ever To acknowledge both sides of this paradox is to enter a realm of difficult decisions Should we take down the government or try to change it from the inside Is it okay to compare climate change to Hitler Is hope naive or indispensable How do you tackle collective delusion Should we still have kids And can we take them to Disneyland Inquisitive and relatable Kopecky strikes a rare note of optimistic realism as he guides us through the moral minefields of our polarized world From start to finish *The Environmentalist's Dilemma* returns to the central question How should we engage with the story of our times **Günter Grass's Use of Baroque**

Literature Alexander Weber, 1995 This is the first study to discuss the affinity between Grass's complete works and baroque literature Grass's employment of baroque literature is of particular interest because it takes up a tradition from which German literature has long broken away Alexander Weber's argument moves from an outline of general thematic parallels in the early works to an analysis of the conscious use of baroque literature in *Der Butt* and *Das Treffen in Telgte* He offers both a close reading of Grass and general reflections on how a past literary tradition can be adopted by a modern writer The study focuses on the themes of vanity *carpe diem* and Senecan Stoicism in the early works it discusses parallels between the rhetorical structure of the courtly historical novel and *Der Butt* and traces the artist's melancholy and baroque allegories in *Der Butt* and *Das Treffen in Telgte*

The Reader's Construction of Narrative Horst Ruthrof, 2016-08-19 In this book first published in 1981 the author argues that narrative is an interaction between the presented world and the presentational process and attempts to define narrative from the perspective of reading The Reader's Construction of Narrative includes chapters on narrative language translating narrative and discusses what happens when we read a narrative text This book will be of particular interest to students of literary theory

The Committed Reader Robert A. Stebbins, 2013 Committed utilitarian reading is either dominantly practical or more or less equally practical and fulfilling Pleasurable reading is conceptualized as an important kind of casual leisure experienced primarily as relaxation active entertainment and sexual stimulation racy pornographic stories Such reading can also be a launching pad for day dreams or lively conversation Self fulfilling reading is explored in a disquisition on the liberal arts hobbies This is no place for speed reading but instead is where we care to pause often to appreciate the artistry of the writing creativity of the plot profundity of the message i.e. the information it contains and the like And in fulfilling reading we sometimes want to analyze the material This book explores three main motives for reading identified as utilitarian pleasurable and fulfilling Its principal object is to deepen our understanding of why some adults and eager late adolescent readers go in for committed reading or reading that as we strive to acquire literary knowledge and experience necessarily consumes considerable time and requires continuous concentration The conceptual frameworks guiding this endeavor are library and information science and the serious leisure perspective Through their lenses the author examines the reading of books magazines manuals reports and other lengthy material as carried out in the three domains of life work leisure and non work obligation In brief committed reading provides its enthusiasts with knowledge and experience which among other ways are sought acquired interpreted organized and sometimes disseminated within the three domains This book also examines committed reading in daily life its ease convenience affordability and enduring effects There follows a portrait of the various reading environments including music to read by reading at airports and on airplanes reading in one's study in a park on public transit in public libraries and elsewhere This is part of the reader's social world which is further comprised of book clubs bookstores Amazon.com censorship author public readings and more

historic shipwrecks The second part engages novels poems films artwork and musical composition that grapple with shipwreck Collectively the chapters suggest the spectacular productivity of shipwreck narrative the multiple ways in which its concerns and logic have inspired anxious creativity in the last century Titlestad recognizes in weaving in his personal experience that shipwreck the destruction of form and the advent of disorder could be seen not only as a corollary for his own neurological disorder but also an abiding principle in tropology This book describes how shipwreck has figured in texts from historical narratives to fiction film and music as an analogue for emotional psychological and physical fragmentation

Musical Biographies Michal Ben-Horin, 2016-04-25 Since the second half of the twentieth century various routes including history and literature are offered in dealing with the catastrophe of World War II and the Holocaust Historiographies and novels are of course written with words how can they bear witness to and reverberate with traumatic experience that escapes or resists language In search for an alternative mode of expression and representation this volume focuses on postwar German and Austrian writers who made use of music in their exploration of the National Socialist past Their works invoke however new questions What happens when we cross the line between narration and documentation and between memory and a musical piece How does identification and fascination affect our reading of the text What kind of ethical issues do these testimonies raise As this volume shows reading these musical biographies is both troubling and compelling since they fail to come to terms with the past In playing the haunting music that does not let us put the matter to rest they call into question not only the exclusion of personal stories by official narratives but also challenge writers and readers most intimate perspectives on an unmasterable past
