can best be understood in its company He cast doubt on perceived certainties even as he hungered for knowledge and at the end of his life delivered a mind bending lecture on the origins of the universe that would win the admiration of twentieth century physicists Pursuing extraordinary conjectures and a unique aesthetic vision he remained a figure of explosive contradiction he gleefully exposed the hoaxes of the era s scientific fraudsters even as he perpetrated hoaxes himself Tracing Poe s hard and brilliant journey *The Reason for the Darkness of the Night* is an essential new portrait of a writer whose life is synonymous with mystery and imagination and an entertaining erudite tour of the world of American science just as it was beginning to come into its own
