Edith Wharton's Brave New Politics:

Edith Wharton's Brave New Politics Dale M. Bauer, 1994 Most critics claim that Edith Wharton's creative achievement peaked with her novels *The House of Mirth* and *The Age of Innocence* dismissing her later fiction as reactionary sensationalistic and aesthetically inferior In *Edith Wharton's Brave New Politics* Dale M Bauer overturns these traditional conclusions She shows that Wharton's post World War I writings are acutely engaged with the cultural debates of her day from reproductive control to authoritarian politics to mass culture and its ramifications Bauer examines the social and political critique implicit in Wharton's later works from *Summer* 1917 to her last novel *The Buccaneers* published posthumously in 1938 She integrates historical political and feminist concerns to recast Wharton's antimodernism and to recover the novelist's understanding of public life and private morality *Edith Wharton's Brave New Politics* illustrates how literary criticism can change the course of a literary career In her refutation of the dominant interpretations of Wharton's literary work Bauer challenges the prevailing conception of this genteel woman of letters showing that to read Wharton's works in isolation from her complex politics is to misunderstand Wharton's aims and to miss entirely the exhilarating power of these later fictions

The Architectural Imagination of Edith Wharton Annette Benert, 2007 Edith Wharton has recently returned to prominence as a major American novelist But few have taken her architectural work as seriously as she herself took it or noticed its effects on her career Two early architectural books and three travel works give sustained critical attention to the built environment Early novels graphically portray the physical miseries of the poor and marginalized and their course in hierarchies of class and gender By contrast her letters consistently celebrate the tastes and manners of the elite At its best her fiction embodies this tension the beauty and grace of elegant houses and public spaces juxtaposed to their effects on those under their control This book tracks Wharton's literary and architectural work in tandem revealing their complex relationship It also foregrounds the odd symmetry of her career which began and ended in fierce attachment to traditional values moved from delight in Italy to despair for France and centered on the brilliantly crafted structures and spaces of the prewar novels Annette Larson Benert is Associate Professor of English at DeSales University

Prospects for the Study of American Literature Richard Kopley, 1997-08 What can there possibly be left to say about This common litany resonant both in and outside of academia reflects a growing sense that the number of subjects and authors appropriate for literary study is rapidly becoming exhausted Take heart admonishes Richard Kopley in this dynamic new anthology for this is decidedly not the case While generations of literary study have unquestionably covered much ground in analyzing canonical writers many aspects of even the most well known authors both their lives and their work remain underexamined Among the authors discussed are T S Eliot Ralph Waldo Emerson William Faulkner Harriet Beecher Stowe Walt Whitman Ernest Hemingway Richard Wright Edith Wharton Nathaniel Hawthorne Zora Neale Hurston Henry James Willa Cather Herman Melville Edgar Allan Poe Henry David Thoreau and Mark Twain
