Educating Caroline Patricia Cabot, Written Maternal Authority and Eighteenth-Century Education in Britain Rebecca Davies, 2016-02-11 Examining writing for and about education in the period from 1740 to 1820 Rebecca Davies s book plots the formation of a written paradigm of maternal education that associates maternity with educational authority Examining novels fiction for children conduct literature and educative and political tracts by Samuel Richardson Sarah Fielding Mary Wollstonecraft Maria Edgeworth Ann Martin Taylor and Jane Austen Davies identifies an authoritative feminine educational voice She shows how the function of the discourse of maternal authority is modified in different genres arguing that both the female writers and the fictional mothers adopt maternal authority and produce their own formulations of ideal educational methods The location of idealised maternity for women Davies proposes is in the act of writing educational discourse rather than in the physical performance of the maternal role Her book contextualizes the development of a written discourse of maternal education that emerged in the enlightenment period and explores the empowerment achieved by women writing within this discourse albeit through a notion of authority that is circumscribed by the rules of a discipline

Educating Tomorrow's Engineers Great Britain: Parliament: House of Commons: Science and Technology Committee,2013-02-08 In the UK we teach young people to become computer users and consumers rather than programmers and software engineers This is creating a chronic skills gap in ICT We need around 82 000 engineers and technicians just to deal with retirements up to 2016 and 830 000 SET professionals by 2020 On the plus side the Government s proposal to include computer science as a fourth science option to count towards the EBac is welcomed The Committee also welcomes the EBac s focus on attainment of mathematics and science GCSEs but is concerned that subjects such as Design and Technology D T might be marginalised A Technical Baccalaureate TechBac is being designed but if it is to be a success schools should be incentivised to focus on the TechBac by making it equivalent to the EBac Reforms to vocational education following the Wolf Review meant that Level 2 of the Engineering Diploma a qualification highly regarded would count as equivalent to one GCSE despite requiring curriculum time and effort equivalent to several GCSEs The Engineering Diploma however is currently being redesigned as four separate qualifications The Committee also expressed concerns over the Department for Education s DfE lack of clarity on its research budget and use of evidence in decision making The DfE needs to place greater focus on gathering evidence before changes to qualifications are made and must leave sufficient time for evidence to be gathered on the effectiveness of policies before introducing further change The possibility of gathering evidence from randomised controlled trials RCTs should be seriously considered

Building Bridges Clare Kosnik, Simone White, Bethan Marshall, A. Lin Goodwin, Jean Murray,2016-07-15 Literacy learning continues to be central to schooling and is currently of major concern to educators policy developers and members of the public alike However the proliferation of communication channels in this digital era requires a fundamental re thinking of the nature of literacy and the pedagogy of literacy teaching and teacher education This

text brings together papers by experts in teacher education literacy and information technology to help chart a way forward in this complex area. Because of their background in teacher education the authors are realistic about what is appropriate and feasible; they do not just jump on a technology bandwagon but they are also able to provide extended examples of how to embed technology in the practice of teacher education. Taking a multi-disciplinary perspective, literacy, teacher education and digital technology, and informed by a range of empirical studies, policy analyses and scholarly reflection, this book makes a unique contribution to the literature on one of education's most pressing challenges: how we prepare teachers of literacy at a time when understandings of literacy are expanding. Chapters by leading researchers are complemented by those offering illuminating vignettes of practice that in turn provide opportunities for interrogation by the rich theoretical toolkit that characterizes the field. The book is thoughtfully structured and manages a coherence that is rare in edited collections. An impressive and heartening read.

Neither Lady nor Slave Susanna Delfino, Michele Gillespie, 2003-10-15 Although historians over the past two decades have written extensively on the plantation mistress and the slave woman, they have largely neglected the world of the working woman. *Neither Lady nor Slave* pushes southern history beyond the plantation to examine the lives and labors of ordinary southern women: white, free, black and Indian. Contributors to this volume illuminate women's involvement in the southern market economy in all its diversity. Thirteen essays explore the working lives of a wide range of women: nuns and prostitutes, iron workers and basket weavers, teachers and domestic servants in urban and rural settings across the antebellum South. By highlighting contrasts between paid and unpaid, officially acknowledged and invisible work within the context of cultural attitudes regarding women's proper place in society, the book sheds new light on the ambiguities that marked relations between race, class and gender in the modernizing South. The contributors are E. Susan Barber, Bess Beatty, Emily Bingham, James Taylor Carson, Emily Clark, Stephanie Cole, Susanna Delfino, Michele Gillespie, Sarah Hill, Barbara J. Howe, Timothy J. Lockley, Stephanie McCurry, Diane Batts Morrow and Penny L. Richards
