Educating Special Learners Education:

Strengths-Based Approaches to Educating All Learners with Disabilities Michael L. Wehmeyer, 2019-03-08

Michael Wehmeyer a leading scholar with over four decades of experience as a teacher teacher educator researcher and advocate provides a cogent but accessible account of the evolution of special education Offering a compelling vision of where the field should be headed in the next decade he notes how the digital revolution has made it possible for all learners to gain access to content and instruction This text focuses on the need to consider how young people with and without disabilities learn and the importance of creating personalizable education as strengths based approaches to disability move education away from diagnosis and remediation to schoolwide instruction for all students This book is not written as a criticism of traditional special education models but instead examines the big ideas for going beyond special education that can improve outcomes for learners with disabilities and prepare them for the 21st century world Book Features Provides a framework for reconceptualizing how students with disabilities are educated Content aligns with changing contexts and innovations in education including personalizable education and self determined learning Identifies current well established practices that can facilitate efforts to address 21st century learning needs for learners with disabilities Written in a conversational voice for a broad audience to stimulate consideration of future directions for special education **Mainstream or Special?**

Josephine Jenkinson, 2012-10-02 There remains some controversy about how best to meet the needs of pupils with special educational needs Should they be educated in mainstream schools alongside their peers or does this mean that specialist help and resources are denied to them This book explores in depth the ways in which this problem has been tackled in Australia the UK and Canada It looks at the major issues which have been raised and the types of provisions and resourcing which have been offered and then goes on to provide a vision of how future education provision might look for pupils with special educational needs What Really Works in Special and Inclusive Education David Mitchell, 2014-01-10 As teachers around the world deal with the challenges of inclusive education they must find effective ways of enhancing their classroom teaching methods What Really Works in Special and Inclusive Education presents teachers with a range of evidence based strategies they can immediately put into practice in their classrooms This unique book will be an invaluable resource for educators who may not have the time or the inclination to engage with theory heavy research but who wish to ensure that their teaching strategies are up to the minute and proven to be the most effective best practices Each of the 27 strategies that this book comprises has a substantial research base a strong theoretical rationale and clear guidelines on their implementation as well as cautionary advice where necessary In this new second edition David Mitchell a leading writer in special and inclusive education continues to break new ground with revised and updated strategies based on evidence from the most recent studies in the field From the myriad of related research available only those studies with genuine potential for improving the practices of teachers and schools have been included with the aim of facilitating high quality learning and

social outcomes for all learners in schools Updates to this new edition include four new chapters on response to intervention universal design for learning inter agency cooperation and one on the Finnish education system over 350 new references an even wider international focus including evidence drawn from Asia references to recent developments in neuroscience a new companion website with extra case studies links to further reading journal articles and videos and an interactive quiz at www.routledge.com/cw/mitchell This book will be essential reading for anyone with a vocational or academic interest in evidence based special educational needs teaching strategies whether a student in initial teacher education or a qualified classroom teacher teacher educator educational psychologist special needs coordinator parent consultant or researcher David Mitchell is an Adjunct Professor in the College of Education University of Canterbury Christchurch New Zealand and a consultant in inclusive education This is the book I wish I had written synthesizing an enormous literature focused on special needs students It is robust it is readable and it is your right hand resource A stunner of a book Professor John Hattie University of Melbourne author of Visible Learning
