Education And Youth Employment In Japan:

Education and Youth Employment in Japan Hidetoshi Katō, 1978 Education and Training in Japan Thomas P. Rohlen, Christopher Bjork, 1998 This collection written by Japanese and foreign scholars represents an inclusive cross section of the most important work in key areas of this field Topics include the impact of Japanese education and training on Japan's economy and culture the Japanese influence on the East Asian approach to education in comparison with the educational systems of Korea Taiwan Singapore and Hong Kong Japan's promotion of learning organizations and Knowledge workers for the Information Age **Resources in Education**, 2001 *Jobs for Youth/Des emplois pour les jeunes: Japan 2009* OECD, 2008-12-17 Presents a survey of the main barriers to employment for young people in Japan assessing the adequacy and effectiveness of existing measures to improve the transition from school to work and making recommendations for further action **International Handbook on Education Development in the Asia-Pacific** Wing On Lee, Phillip Brown, A. Lin Goodwin, Andy Green, 2023-11-20 The Springer International Handbook of Educational Development in Asia Pacific breaks new ground with a comprehensive fine grained and diverse perspective on research and education development throughout the Asia Pacific region In 13 sections and 127 chapters the Handbook delves into a wide spectrum of contemporary topics including educational equity and quality language education learning and human development workplace learning teacher education and professionalization higher education organisations citizenship and moral education and high performing education systems The Handbook is grounded in specific Asia Pacific contexts and scholarly traditions using unique country specific narratives for example Vietnam and Melanesia and socio cultural investigations through lenses such as language identity or colonisation while offering parallel academic discourse and analyses framed by broader policy commentary from around the world Japan's Emerging Youth Policy Tuukka Hannu Ilmari Toivonen, 2013 From the 1960s onwards Japan's rapid economic growth coincided with remarkably smooth transitions from school to work and with internationally low levels of youth unemployment However this changed dramatically in the 1990s and by the 2000s youth employment came to be recognized as a serious concern requiring an immediate response What shape did this response take Japan's Emerging Youth Policy is the first book to investigate in detail how the state experts the media as well as youth workers have reacted to the troubling rise of youth joblessness in early 21st century Japan The answer that emerges is as complex as it is fascinating but comprises two essential elements First instead of institutional carrots and sticks as seen in Europe actors belonging to mainstream Japan have deployed controversial labels such as NEET Not in Education Employment or Training to steer inactive youth into low wage jobs A second approach has been crafted by entrepreneurial youth support leaders that builds on what the author refers to as communities of recognition As illustrated in this book using evidence from real sites of youth support one such methodology consists of exploring the user i.e. the support receiver whereby complex disadvantages family relationships and local employment contexts are skilfully negotiated It is this second

dimension in Japan's response to youth exclusion that suggests sustainable internationally attractive solutions to the employment dilemmas that virtually all post industrial nations currently face but which none have yet seriously addressed. Based on extensive fieldwork that draws on both sociological and policy science approaches this book will be welcomed by students, scholars and practitioners in the fields of Japanese and East Asian studies, comparative social policy, youth sociology, the sociology of social problems and social work.

Monthly Labor Review, 1981. Publishes in depth articles on labor subjects, current labor statistics, information about current labor contracts and book reviews.

School to Work Transition in Japan Kaori Okano, 1993. This participant observation study presents the practice of school to work transition at two Japanese high schools and explains variations about the modal career trajectory of low achieving students drawing on Bourdieu's work. It helps to explain the relationship between social values, family ethos, industry, school and economic performance and the relatively low class consciousness in Japan. It should be of interest to educationalists, sociologists and labour relations specialists studying Japan.

Equality and Freedom in Education Brian Holmes, 2022-02-26. First published in 1985, *Equality and Freedom in Education* investigates the extent to which it is possible or desirable to provide equal opportunities in education regardless of age, sex, race, language and social class. Attempts to make such provision regularly attract the criticism that they remove the freedom of parents and religious bodies to educate children in accordance with their particular wishes. To understand this dilemma the book analyses the educational systems and practices in England and Wales, France, the USA, the USSR, China and Japan. Information about each system is provided in accordance with a taxonomy developed by Professor Holmes for the International Bureau of Education in Geneva and widely accepted by Ministries of Education throughout the world. Simplified diagrams show how school systems are organised and how children pass through the school system and essential statistical information taken from UNESCO sources is also provided. The book will be of interest to students of education and sociology.

Investing in Youth: Japan OECD, 2017-05-29. This report provides a detailed diagnosis of youth policies in the area of education, training, social and employment policies. Its main focus is on disengaged or at risk of disengaged youth.

Productivity, Investment in Human Capital and the Challenge of Youth Employment Pietro Manzella, 2011-07-12. From an international and comparative perspective, young people's access to the labour market is a complex issue with certain contradictory aspects reflecting the level of development of labour law and industrial relations in their respective countries. In the most advanced economies there has been a steady increase in the age at which young people exit the educational system and enter the labour market, giving rise to significant economic and social problems. The increase in levels of educational attainment is associated in some cases with an alarming rate of unemployment among those with academic qualifications while employers encounter considerable difficulty in recruiting workers for unskilled and semi-skilled positions. The economies of developing countries, on the other hand, are characterized by different trends reminiscent of the early stages of modern labour law with the large scale exploitation of young workers and children.

many of whom join the flow of migrants towards the more highly developed regions of the world with the consequent risk of impoverishing human capital in the country of origin The ADAPT Labour Studies Book Series has in connection been set up with a view to achieving a better understanding of these and other issues in the field of Labour and Employment relations in a global dimension through an interdisciplinary and comparative approach *Connecting People with Jobs Towards Better Social and Employment Security in Korea* OECD,2018-03-14 This report has a special focus on low income groups jobseekers and workers and policies geared towards closing the considerable gaps these groups are facing around income and employment support in Korea It concludes that significant additional action will be needed to make income **Preparing Youth for the 21st Century: The Transition from Education to the Labour Market Proceedings of the Washington D.C. Conference -- 23-24 February 1999** OECD,1999-09-02 This publication points the way to future initiatives to improve youth labour market and educational outcomes as identified by policy makers and experts of OECD countries brought together at the Washington Conference *Preparing Youth for the 21st Century* **Education Indicators**,1996 Japan Frank Baldwin,Anne Allison,2015-12-15 A joint publication of the Social Science Research Council and New York University Press **The Crisis of Global Youth Unemployment** Tamar Mayer,Sujata Moorti,Jamie K. McCallum,2018-09-21 Since the economic and financial crisis of 2008 the proportion of unemployed young people has exceeded any other group of unemployed adults This phenomenon marks the emergence of a laborscape This concept recognizes that although youth unemployment is not consistent across the world it is a coherent problem in the global political economy This book examines this crisis of youth unemployment drawing on international case studies It is organized around four key dimensions of the crisis precarity flexibility migration and policy responses With contributions from leading experts in the field the chapters offer a dynamic portrait of unemployment and how this is being challenged through new modes of resistance This book provides cross national comparisons both ethnographic and quantitative to explore the contours of this laborscape on the global national and local scales Throughout these varied case studies is a common narrative from young workers families students volunteers and activists facing a new and growing problem This book will be an imperative resource for students and researchers looking at the sociology of globalization global political economy labor markets and economic geography Research in Education ,1971 Youth Employment and Joblessness in Advanced Countries David G. Blanchflower,Richard B. Freeman,2007-12-01 The economic status of young people has declined significantly over the past two decades despite a variety of programs designed to aid new workers in the transition from the classroom to the job market This ongoing problem has proved difficult to explain Drawing on comparative data from Canada Germany France Sweden and the United Kingdom these papers go beyond examining only employment and wages and explore the effects of family background education and training social expectations and crime on youth employment This volume brings together key studies providing detailed analyses of the difficult economic situation plaguing young workers Why have demographic

changes and additional schooling failed to resolve youth unemployment How effective have those economic policies been which aimed to improve the labor skills and marketability of young people And how have youths themselves responded to the deteriorating job market confronting them These questions form the empirical and organizational bases upon which these studies are founded **OECD Employment Outlook 2008** OECD,2008-07-18 This 2008 edition of OECD s annual report on labour markets brings the reader detailed information on recent labour market developments as well as in depth analysis of the effects of various policy measures and prospects through 2009 **Congressional Record** United States. Congress,1981 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873
