Education At The Crossroads The Terry Lectures Series:

Education at the Crossroads. (Yale University Terry Lectures for 1943.) (Third Printing.). Jacques Maritain, 1944

Education at the Crossroads Jacques Maritain, 1947 *Education at the Crossroads* Jacques Maritain, 1943-01-01 The author a modern Catholic writer philosopher sets forth his views on Christian education *The Year of Our Lord 1943* Alan Jacobs, 2018-07-02 The Year of Our Lord 1943 tells the story of how five Christian intellectuals Jacques Maritain T S Eliot C S Lewis W H Auden and Simone Weil sought to provide a plan for the moral and spiritual renewal of the Western democracies in the post World War II world Hearings, Reports and Prints of the House Committee on Education and Labor United States. Congress. House. Committee on Education and Labor, 1972 **Naturalism and Historical**

Understanding John P. Anton, 1967-06-30 As philosopher historian and teacher John Herman Randall Jr is world renowned and universally respected In more than fifty years of study he has probed Western thought inclusively from the early Greeks Aristotle and the Peripatetics through contemporary European and American philosophers Currently Professor Randall is conducting his scholarly research at the University of Padua and the Columbia Padua Institute a society which he helped found devoted to the study of the Aristotelian tradition in the Renaissance In his introduction to this volume the editor characterizes Professor Randall s relation to the contemporary world of thought It can be said in truth that Randall never touched a subject matter without making it luminous and intelligible and has scorned no inquiry no idea no vision ever ardently pursued by men anywhere The measure of our intellectual indebtedness to him will not soon be taken This volume has provided the rare opportunity to present related work of several eminent scholars in different fields Most of the essays were written to honor Professor Randall on the occasion of his 65th birthday Using Randall s work as a point of departure and reflecting its broad relevance they treat subjects as diverse as religion Greek philosophy Kant s philosophy of science Renaissance Aristotelianism and British Empiricism Included also are two tributes and memoirs personal reminiscences of Randall s early career and a valuable bibliography of Randall s published work **California Schools** ,1944 Summary of Major Legislative Action of the Committee on Education and Labor, U.S. House of Representatives, 92d Congress ,1973

Catholic Schools and the Common Good Anthony S. Bryk, Valerie E. Lee, Peter Blakeley. Holland, Anthony S Bryk, 2009-06-30 The authors examine a broad range of Catholic high schools to determine whether or not students are better educated in these schools than they are in public schools They find that the Catholic schools do have an independent effect on achievement especially in reducing disparities between disadvantaged and privileged students The Catholic school of today they show is informed by a vision similar to that of John Dewey of the school as a community committed to democratic education and the common good of all students **Understanding Maritain** Deal Wyatt Hudson, Matthew J. Mancini, 1987 **God in Gotham** Jon Butler, 2020-09-29 A master historian traces the flourishing of organized religion in Manhattan between the 1880s and the 1960s revealing how faith adapted and thrived in the supposed capital of American

secularism In Gilded Age Manhattan Catholic Jewish and Protestant leaders agonized over the fate of traditional religious practice amid chaotic and multiplying pluralism Massive immigration the anonymity of urban life and modernity's rationalism bureaucratization and professionalization seemingly eviscerated the sense of religious community Yet fears of religion's demise were dramatically overblown Jon Butler finds a spiritual hothouse in the supposed capital of American secularism By the 1950s Manhattan was full of the sacred Catholics Jews and Protestants peppered the borough with sanctuaries great and small Manhattan became a center of religious publishing and broadcasting and was home to august spiritual reformers from Reinhold Niebuhr to Abraham Heschel Dorothy Day and Norman Vincent Peale A host of white nontraditional groups met in midtown hotels while black worshippers gathered in Harlem's storefront churches Though denied the ministry almost everywhere women shaped the lived religion of congregations founded missionary societies and in organizations such as the Zionist Hadassah fused spirituality and political activism And after 1945 when Manhattan's young families rushed to New Jersey and Long Island's booming suburbs they recreated the religious institutions that had shaped their youth God in Gotham portrays a city where people of faith engaged modernity rather than foundered in it Far from the world of disenchantment that sociologist Max Weber bemoaned modern Manhattan actually birthed an urban spiritual landscape of unparalleled breadth suggesting that modernity enabled rather than crippled religion in America well into the 1960s

School and Society, 1943-07 *Alternative Futures in American Education* United States. Congress. House. Committee on Education and Labor. Select Subcommittee on Education, 1972 **Reason, Faith, and Revolution** Terry Eagleton, 2009-04-21 On the one hand Eagleton demolishes what he calls the superstitious view of God held by most atheists and agnostics and offers in its place a revolutionary account of the Christian Gospel On the other hand he launches a stinging assault on the betrayal of this revolution by institutional Christianity There is little joy here then either for the anti God brigade Richard Dawkins and Christopher Hitchens in particular nor for many conventional believers *Résumé de l'auteur*

Life After Faith Philip Kitcher, 2014-01-01 Offers a positive argument for secularism as a way of providing for human needs and giving meaning to people's lives thus filling the role of religion and offers a vision for successors to religion

Books in Series, 1876-1949 R.R. Bowker Company, 1982 **Why Johnny Can't Learn** Opal Moore, 1975 **The Religion and Science Debate** Harold W. Attridge, 2009-09-01 Eighty one years after America witnessed the Scopes trial over the teaching of evolution in public schools the debate between science and religion continues In this book scholars from a variety of disciplines sociology history science and theology provide new insights into the contemporary dialogue as well as some perspective suggestions for delineating the responsibilities of both the scientific and religious spheres Why does the tension between science and religion continue How have those tensions changed during the past one hundred years How have those tensions impacted the public debate about so called intelligent design as a scientific alternative to evolution With wit and wisdom the authors address the conflict from its philosophical roots to its manifestations within American culture In

doing so they take an important step toward creating a society that reconciles scientific inquiry with the human spirit This book which marks the one hundredth anniversary of The Terry Lecture Series offers a unique perspective for anyone interested in the debate between science and religion in America **News Notes of California Libraries** California State Library, 1944 Vols for 1971 include annual reports and statistical summaries **Moral Education** John L. Elias, 1989 Noting that moral education has long been associated with schooling as well as with the responsibilities of families and religious groups the author of this text provides an interdisciplinary and comprehensive study of morals and values education
