Gerstl-Pepin,2005 The new Benjamin January novel from the best selling author Abishag Shaw is seeking vengeance for his brother s murder and Benjamin January is seeking money after his bank crashes Far beyond the frontier in the depths of the Rocky Mountains both are to be found at the great Rendezvous of the Mountain Men a month long orgy of cheap booze shooting matches tall tales and cut throat trading But at the rendezvous the discovery of a corpse opens the door to hints of a greater plot of madness and wholesale murder **Politics and Educational Change** Patricia Broadfoot,Colin Brock,Witold Tulasiewicz,2018-04-17 Published in 1981 Throughout the world education is a highly contentious political issue Politicians are involved in educational decision making at all levels and very often educational reform is as much motivated by political ideology as by educational considerations This book which draws together the work of many leading authorities examines the current state of educational politics in many parts of the world The book looks at the problem from a theoretical and a comparative perspective and then analyses the problem in particular areas which include North America Western Europe and Third World countries **The Study of Educational Politics** Jay D. Layton,1995 The Study of Educational Politics is an indispensable guide for students scholars and researchers of the politics of education and of educational policy studies This comprehensive work surveys major trends during the last twenty five years with chapters synthesizing political and policy developments at local national and state levels in the US as well as in the international arena Particularly useful are in depth examinations of the emerging micropolitics of education field as well as the policy analysis and cultural and feminist studies **An Education in Politics** Jesse Rhodes,2012-04-13 Since the early 1990s the federal role in education exemplified by the controversial No Child Left Behind Act NCLB has expanded dramatically Yet states and localities have retained a central role in education policy leading to a growing struggle for control over the direction of the nation s schools In *An Education in Politics* Jesse H Rhodes

explains the uneven development of federal involvement in education While supporters of expanded federal involvement enjoyed some success in bringing new ideas to the federal policy agenda Rhodes argues they also encountered stiff resistance from proponents of local control Built atop existing decentralized policies new federal reforms raised difficult questions about which level of government bore ultimate responsibility for improving schools Rhodes s argument focuses on the role played by civil rights activists business leaders and education experts in promoting the reforms that would be enacted with federal policies such as NCLB It also underscores the constraints on federal involvement imposed by existing education policies hostile interest groups and above all the nation s federal system Indeed the federal system which left specific policy formation and implementation to the states and localities repeatedly frustrated efforts to effect changes national reforms lost their force as policies passed through iterations at the state county and municipal levels Ironically state and local resistance only encouraged civil rights activists business leaders and their political allies to advocate even more stringent reforms that imposed heavier burdens on state and local governments Through it all the nation s education system made only incremental steps toward the goal of providing a quality education for every child
