Education Of Desire:

Race and the Education of Desire Ann Laura Stoler, 1995 Michel Foucault's History of Sexuality has been one of the most influential books of the last two decades. It has had an enormous impact on cultural studies and work across many disciplines on gender, sexuality and the body. Bringing a new set of questions to this key work, Ann Laura Stoler examines volume one of History of Sexuality in an unexplored light. She asks why there has been such a muted engagement with this work among students of colonialism for whom issues of sexuality and power are so essential. Why is the colonial context absent from Foucault's history of a European sexual discourse that for him defined the bourgeois self? In *Race and the Education of Desire*, Stoler challenges Foucault's tunnel vision of the West and his marginalization of empire. She also argues that this first volume of History of Sexuality contains a suggestive if not studied treatment of race. Drawing on Foucault's little known 1976 College de France lectures, Stoler addresses his treatment of the relationship between biopower, bourgeois sexuality and what he identified as racisms of the state. In this critical and historically grounded analysis based on cultural theory and her own extensive research in Dutch and French colonial archives, Stoler suggests how Foucault's insights have in the past constrained and in the future may help shape the ways we trace the genealogies of race. *Race and the Education of Desire* will revise current notions of the connections between European and colonial historiography and between the European bourgeois order and the colonial treatment of sexuality. Arguing that a history of European nineteenth century sexuality must also be a history of race, it will change the way we think about Foucault.

change the way we think about Foucault *The Education of Desire* ,1996 **Desire, Education and Teaching** Håvard Åsvoll,2025-06-19 Exploring the implications of a novel theory of educational desire on the prevailing modes of educational research and theory this book contextualises the realm of education studies through the challenging philosophies and theories of Lacan thereby providing a genuinely alternative approach to the study of education Structured into three main parts the book provides a discussion of Lacanian ideas within educational research by setting out a description and analysis of how a theory of desire may work in educational settings and practice Using vignettes and examples to drive the discussion chapters explore the pivotal aspects of desire which could be imaginary symbolic or real elucidated by a mapping of discourses and exploring the reluctance of educational studies to engage with themes related to desire and psychoanalysis Ultimately the book argues for the need to disrupt the theoretical and practical logics and models that limit teacher practice such as accountability visible learning competencies pedagogical knowledge and professional development and how these can be better understood from a Lacanian perspective This book will be of use to scholars researchers and academics in the fields of the philosophy of education the theory of education and teachers and teacher education more broadly Those specifically interested in Lacanian psychoanalysis and a Lacanian view on how the concept of desire may influence educational research and practice will also find the book of use Religious Education ,1923 Available on microfilm from University Microfilms **The Education of Desire** Harvey J.
