,2008-01-01 We desperately need the dynamic revolution in education that this book offers us reflecting the new ways of thinking and being on this planet that will permit us to live in peace as a global family even through massive climate changes Read it and put these ideas into practice as quickly as possible in any ways you can Elisabet Sahtouris Evolutionary biologist and futurist author of EarthDance Living Systems in Evolution *Teaching in Alternative and Flexible Education Settings* Aspa Baroutsis,Glenda McGregor,Martin Mills,Kitty te Riele,2019-12-18 Alternative and flexible education settings may come in different forms but they generally have in common a focus on young people who have been disengaged from conventional

schooling One challenge of these settings therefore is to change the way education is offered in order to better engage these students Much of the onus for this changed approach is on the staff teachers youth workers and other support staff Therefore the purpose of this book is to examine different aspects of the work of staff in these settings Several common threads run through the chapters in this book highlighting core aspects of the work of staff in these settings A strong sense of commitment to working with and for young people from marginalised backgrounds Validation of the relational and emotional nature of education as a fundamentally people centred enterprise The importance of explicit attention to critical reflection on staff members own positionality assumptions and identity Collegiality as a crucially affirming part of school culture for staff These elements are pertinent to educational settings everywhere The chapters in this book serve as a reminder of what really counts for our young people and their schooling The chapters in this book were originally published as a special issue of Teaching Education
