Pandiscio,2009-08-16 A Power Shift in Public Education makes a direct assault on what the author believes are the primary causes of the failed public school system in America This no holds barred book about big ideas makes the case that billions of dollars and millions of man hours have been spent chasing the wrong solutions For decades government units at the national state and local levels have directed their efforts and funding to new programs and materials when their policies should have been directed at staffing schools with outstanding teachers implementing hiring practices free of favoritism and patronage and supporting building principals the real heroes of public education Pandiscio directly attacks the method by which teachers are compensated the reluctance of boards of education to link superintendent compensation to clearly defined student learning goals and the unwillingness of state and local officials to confront the negative impact of teacher unions and binding arbitration on education budgets      **Educational Reform** Douglas J. Simpson,Michael John Brierley Jackson,1997

Responding to a timely global moment where education and international engagement are being redefined and practiced in new ways, the authors call for a reconsideration of paradigms and critical reflection of the entire field of international education. At the same time, the authors show how international education is an imperative for the future of learning and the world, and also crucially that this work cannot be done in a silo. International Education at the Crossroads offers readers a chance to join in the conversation that is as global as it is meaningful in communities, the lives of learners, and institutions around the world. International education requires that everyone the world over work together to produce new knowledge to navigate the crossroads and to collectively chart the directions in which the field will move into the future.
