Educational Poetics:

Educational Poetics Andrew David Gitlin, Marcie Peck, 2005 Educational research and poetics are often not included in the same conversation Educational Poetics Inquiry Freedom and Innovative Necessity is one of the only texts to explore the possibilities of linking these domains to develop an emergent form of inquiry Such an inquiry utilizes our human potential to go beyond the seductive force of everyday commonsense to consider and put into place alternative perspectives that are often hidden from view These alternative perspectives in turn help create the ability to free ourselves from mental slavery as we change in inventive ways a form of innovative necessity

Time for Educational Poetics Xicoténcatl Martínez Ruiz, 2019-03-19 In Time for Educational Poetics the author addresses a discussion in the context of today's philosophy of education and educational research Conceptually educational poetics is not limited to a theoretical construction but rather focuses on the creative imaginative and poetic experience to being recreated in the teaching learning process Educational poetics is rooted in the philosophical and aesthetic thought of South Asia specifically in how contemplative and creative practices re introduced by Rabindranath Tagore Educational poetics is the convergence of research in creative contemplation and poetic creation practices of conscious attention and mindfulness and practices of peace education and philosophy of non violence This book leads to a perspective in thinking about the risks that jeopardize the future of young generations

A Poetics of Education John I'Anson, Alison Jasper, 2025-03-20 At a time when education is routinely and problematically translated into the discourse of learning and teaching to serve a series of instrumental imperatives the question of what we mean by education is raised with renewed urgency This book looks beyond present horizons to imagine education anew It considers ways of theorising education that acknowledge the complexity of its genealogy empirical practice and imbrication within regimes of governance in the light of education's orientation to both the already actualised and the new and unprecedented A specifically educational milieu is characterised by the kinds of existential movements and negotiations to which this gives rise together with a language and grammar for their articulation that points to their urgency and significance A poetics of education an edupoetics is thus a considered response to this exigency Through engaging a variety of felicitous tropes that include the sea and its navigation Serres opacity Glissant desire A r precarity Butler gift Manning and chiasma Merleau Ponty it becomes possible to articulate an educational image of thinking that in welcoming the new and unforeseen promotes a radical hospitality to difference The chapters engage a variety of writers to explore how an edupoetics might intersect with a series of specific educational scenes and concerns that include for example the qualities of good research that opens to the other than human the complexities of doctoral supervision the pedagogics of gender and the gift of neurodiversity This book articulates an alternative educational imaginary an edupoetics that gestures towards collectivities gathered around matters of intense concern It will be relevant to scholars in the humanities and social sciences interested in educational theory and the philosophy of education

The Lost Second Book of Aristotle's Poetics Walter

Watson,2020-03-04 Aristotle's lost wisdom on comedy and catharsis come to life in this philosopher's interpretation of recovered ancient writings Aristotle's Poetics was the first philosophical treatise to propound a theory of literature But we know that what remains of this important text is incomplete In the existing material Aristotle tells us that he will speak of comedy address catharsis and give an analysis of what is funny but these promised chapters are missing Now philosopher Walter Watson offers a new interpretation of the lost second book of Aristotle's Poetics A document known as the Tractatus Coislinianus first recovered in the Biblioteque Nationale in Paris in 1839 appears to be a summary of Aristotle's second book Based on Richard Janko's philological reconstruction Watson mounts a compelling philosophical argument that gives revealing context to this document and demonstrates its hidden meanings Watson renders lucid and complete explanations of Aristotle's ideas about catharsis comedy and a summary account of the different types of poetry ideas that influenced not only Cicero's theory of the ridiculous but also Freud's theory of jokes humor and the comic Here at last Aristotle's lost second book is found again Ideology, Curriculum, and the New Sociology of Education Lois Weis,Greg Dimitriadis,Cameron

McCarthy,2013-01-11 For more than three decades Michael Apple has sought to uncover and articulate the connections among knowledge teaching and power in education Beginning with Ideology and Curriculum 1979 Apple moved to understand the relationship between and among the economy political and cultural power in society on the one hand and the ways in which education is thought about organized and evaluated on the other This edited collection invites several of the world's leading education scholars to reflect on the relationships between education and power and the continued impact of Apple's scholarship Like Apple's work itself the essays will span a range of disciplines and inequalities emancipatory educational practices and the linkage between the economy and race class and gender formation in relation to schools
