Chronology of the Works of Guillaume Dufay Charles Edward Hamm,2015-12-08 Although according to the author much sound research has been done in the Dufay era in recent years Charles Hamm's book marks the first time an attempt has been made at a comprehensive chronology of the works of this composer Professor Hamm approaches all Dufay's compositions from the point of view of mensural practice and has been able to date each piece more precisely than would have been possible in a chronology based on manuscript studies or stylistic analyses He has divided the works into nine groups according to details of mensural usage and on the basis of datable works and other evidence has suggested dates within which the pieces of each group were written Based on his study of Dufay's mensural practice the author suggests that the Missa Sancti Antoni and several other works attributed to Dufay may not have been written by him Originally published in 1964 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Guillaume Du Fay Alejandro Enrique Planchart,2018-09-06 This volume explores the work of one of medieval music's most important figures and in so doing presents an extended panorama of

Rothenberg, 2011-09-14 There is a striking similarity between Marian devotional songs and secular love songs of the late Middle Ages and Renaissance Two disparate genres one sacred the other secular one Latin the other vernacular both praise an idealized impossibly virtuous woman Each does so through highly stylized derivations of traditional medieval song forms Marian prayer derived from earlier Gregorian chant and love songs and lyrics from medieval courtly song Yet despite their obvious similarities the two musical and poetic traditions have rarely been studied together Author David J Rothenberg takes on this task with remarkable success producing a useful and broad introduction to Marian music and liturgy and then coupling that with an incisive comparative analysis of these devotional forms and the words and music of secular love songs of the period The Flower of Paradise examines the interplay of Marian devotional and secular poetics within polyphonic music from ca 1200 to ca 1500 Through case studies of works that demonstrate a specific symbolic resonance between Marian devotion and secular song the book illustrates the distinctive ethos of this period in European

culture Rothenberg makes use of an impressive command of liturgical and religious studies literature and poetry and art history to craft a study with wide application across disciplinary boundaries With its broad scope and unique incisive analysis this book will open up new ways of thinking about the history and development of secular and sacred music and the Marian tradition for scholars students and anyone with an interest in medieval and Renaissance religious culture Masterpieces of Music Before 1750 Carl Parrish, John F. Champion, 2017-11-13 The Low Countries were at the heart of innovation in Europe in the fifteenth century Throughout this period the flourishing cultures of the Low Countries were also wrestling with time itself The Fullness of Time explores that struggle and the changing conceptions of temporality that it represented and embodied showing how they continue to influence historical narratives about the emergence of modernity today The Fullness of Time asks how the passage of time in the Low Countries was ordered by the rhythms of human action from the musical life of a cathedral to the measurement of time by clocks and calendars the work habits of a guildsman to the devotional practices of the laity and religious orders Through a series of transdisciplinary case studies it explores the multiple ways that objects texts and music might themselves be said to engage with imply and unsettle time shaping and forming the lives of the inhabitants of the fifteenth century Low Countries Champion reframes the ways historians have traditionally told the history of time allowing us for the first time to understand the rich and varied interplay of temporalities in the period
