The Genius Engine Kathleen Stein, 2007-05-04 Embarking on a spellbinding journey to the frontiers of neuroscience acclaimed science editor and writer

Kathleen Stein takes an enthralling in depth look at the prefrontal cortex the site of our working memory impulse control reason perception decision making and emotional processing all the things that comprise our human genius **When Things Seem Odd** Michael Joseph Legare,2016-01-13 As you will discover by reading this book the term stranger danger is not only misleading to children it actually does more harm than good By the constant reminder that a child encounters by media adults and television programs about never talking to strangers children are often left confused and powerless of how to deal with the many strangers they come across on a day to day bases Secondly this book aims to teach children to become aware of their instincts feelings of uneasiness suspicion or otherwise their apprehension when it is appropriate and important to do so and when it comes to people and situations they encounter as they go about their lives Not just people of whom they do not know strangers but also of people of whom they may already know Finally this book is in two parts The first part are the three short stories of Polly a fictional character that describes in detail certain dilemmas she encounters when she becomes lost first at a grocery store next at the fair and then in the third story the close encounter she experiences of nearly being abducted by a stranger The stories go into detail about the positive aspects that Polly took each time to protect herself in each case scenario The encounters are based on a realistic chain of circumstances The second part of this book is aimed towards parents to look at self protection strategies suggested by some of the world s most prestigious experts on the subject of child safety and the criminal mind **Murder on Trial** Robert Asher, Lawrence B. Goodheart, Alan Rogers, 2005-03-29 A historical romp through the fascinating subject of murder jurisprudence in the United States from the colonial period to the present showing how changing social mores have influenced the application of murder law **The Encyclopedia of the Ted Bundy Murders** Kevin Sullivan, 2020-01-07 The Bundy expert s authoritative A to Z guide to the people and locations involved in the case against America s most infamous serial killer True crime author of The Bundy Murders Kevin M Sullivan provides a comprehensive guide to the notorious murderer s life and crimes This alphabetized volume lists hundreds of people involved in the case as well as dozens of locations where significant events occurred This veritable Who s Who of the Bundy murders is an essential reference for researchers and students of the subject Sullivan s A to Z coverage of Ted Bundy provides a solid guide to the people and places that define the man and the monster including some not present in other Bundy narratives It nicely rounds out his Bundy oeuvre and gives readers an extensive reference tool on one of the world s most infamous serial killers Katherine Ramsland author of Confession of a Serial Killer *Forever for All* R. Michael Perry, 2000 This book considers the problems of death and the hereafter and how these ages old problems ought to be addressed in light of our continuing progress A materialistic viewpoint of reality is assumed denying the likelihood of supernatural or other superhuman assistance Death however is not seen as inevitable or even irreversible it is maintained that the problem can and should be addressed scientifically in all of its aspects The book thus follows recent immortalist thinking that places hopes in future advances in our understanding and technology A functionalist reductionist argument is

developed for the possibility of resurrecting the dead through the eventual creation of replicas and related constructs. Meanwhile, it is urged that medical advances leading to the conquest of biological death should be pursued along with cryonics, freezing the newly deceased for possible eventual reanimation. A common ground thus is sought between two hitherto largely independent strands of scientific immortalism: the one based on hopes in a remote but hyperadvanced future, the other on the nearer term prospects of presently advancing technology. The resulting philosophy encompassing both past and future is directed toward the long term interests of each sentient being and it thereby acquires a moral dimension. The immortalization of humans and other life forms is seen as a great moral project and labor of love that will unite us in a common cause and provide a meaningful destiny. A rational and thorough exploration of human potential. Few have considered much less visualized the profound changes set to occur over the next few decades through exponential advances in science and philosophy. Mike Perry has and he shares his vision with eloquence. Jim Halperin, author of *The Truth Machine* and *The First Immortal*. *Understanding Sexual Serial Killing* Frederick Toates, Olga Coschug-Toates, 2022-06-02. This book provides an integrative and jargon free understanding of the phenomenon of sexual serial killing to a wide readership. **Facing the Wind** Julie Salamon, 2002-04-09. Robert and Mary Rowe's second child Christopher was born with severe neurological and visual impairments. For many years the Rowes' courageous response to adversity set an example for other parents of children with birth defects. Then the pressures on Bob Rowe, personal and professional, took their toll and he fell into depression and ultimately delusion. And one day he took a baseball bat and killed his wife and three children. Julie Salamon deftly avoids sensationalism as she tells the Rowes' tragic story with intelligence, sympathy, and insight. Like all great literary journalism, *Facing the Wind* asks us to join its issues and examine our own lives and problems in the new bright light that good writing always sheds. Keep It Real: Everything You Need to Know About Researching and Writing Creative Nonfiction Lee Gutkind, 2011-02-07. The one guide every creative nonfiction writer needs to turn to when being creative. Writers of memoir and narrative nonfiction are experiencing difficult days with the discovery that some well known works in the genre contain exaggerations or are partially fabricated. But what are the parameters of creative nonfiction? *Keep It Real* begins by defining creative nonfiction. Then it explores the flexibility of the form, the liberties and the boundaries that allow writers to be as truthful, factual, and artful as possible. A succinct but rich compendium of ideas, terms, and techniques. *Keep It Real* clarifies the ins and outs of writing creative nonfiction. Starting with acknowledgment of sources, running through fact checking, metaphor, and navel gazing, and responsibilities to their subjects, this book provides all the information you need to write with verve while remaining true to your story. **Total Confinement** Lorna A. Rhodes, 2004-02-26. In this rare firsthand account, Lorna Rhodes takes us into a hidden world that lies at the heart of the maximum security prison. Focusing on the supermaximums and the mental health units that complement them, Rhodes conveys the internal contradictions of a system mandated to both punish and treat. Her often harrowing, sometimes poignant exploration of maximum security confinement.

includes vivid testimony from prisoners and prison workers describes routines and practices inside prison walls and takes a hard look at the prison industry More than an expos Total Confinement is a theoretically sophisticated meditation on what incarceration tells us about who we are as a society Rhodes tackles difficult questions about the extreme conditions of confinement the treatment of the mentally ill in prisons and an ever advancing technology of isolation and surveillance Using her superb interview skills and powers of observation she documents how prisoners workers and administrators all struggle to retain dignity and a sense of self within maximum security institutions In settings that place in question the very humanity of those who live and work in them Rhodes discovers complex interactions from the violent to the tender among prisoners and staff Total Confinement offers an indispensable close up of the implications of our dependence on prisons to solve long standing problems of crime and injustice in the United States

Transcending Violence Tod Schneider, 2002 Every Ted Bundy Charles Manson Littleton Rwanda Kosovo inspires a renewed desperate search for explanations a brilliant synthesis of all available models by Lt Col Dave Grossman author of the Pulitzer nominated *On Killing* *Transcending Violence* stands out in offering both explanations pragmatic solutions Violence comes in many shapes sizes It grows in almost any soil Ethnic warfare school shootings crimes of passion murder for hire seem to have little in common One specialist blames overblown self esteem while another points to deep rooted shame Criminologists sociologists police peace activists military historians forensic psychologists bring contrasting perspectives to the table Each explanation carries a large grain of truth but when applied across the board quickly falls apart One error has been an obsession with finding only one factor that can carry the entire blame Competing theories often throw light on specific incidents but not on others These various perspectives become considerably more valuable when interwoven Specifically their shared characteristics concerns can be sorted into up to 5 steps 10 primary reinforcers Variations on these 5 steps produce individually tailored paths to violence That tapestry is laid out in the first half of *Transcending Violence* In part two *Transcending Violence* takes this confluence model turns it on its head By identifying specific steps and reinforcers for violence we become empowered to invert them We can disassemble the steps eliminate the reinforcers These actions apply at all levels from the individual to the global

Sympathy for the Devil Virginia A. McConnell, 2005-01-01 Details the 1895 arrest and trial of a medical student for the grisly murder of two young women inside San Francisco's Emmanuel Baptist Church in what the press of the day characterized as a reenactment of Dr Jekyll and Mr Hyde

Dissociation and the Dissociative Disorders Paul F. Dell, John A.
