Guinea Pig Podge:

Guinea Pig Podge Racey Helps, 1971-06 Masks Laurie Halse Anderson, 2012-02-16 After Sunita's beloved pet cat Mittens gets injured on her watch she wonders if vet work is right for her. She takes an internship at a research lab but learns that they test on animals and eventually put them to sleep. Sunita loves animals but can she find a way to work with them without harming them.

Defender Richard M Clements, 2011-06-01 Obsession with a celebrity in my case with film director Clive Barker and his associates is a common psychosis. He was my chimera, my phantom, then against whom I went into battle. The story becomes more accessible as the jargon unique to the conflict is introduced. I was stretched almost beyond return but the memoir is resolved with sheltered housing, effective medication, and tears of joy at the turn of 1999 into 2000. I was still alive after many utter miracles of survival and the book reaches closure during the first moments of an infant millennium. I have been well ever since.

Richard M Clements: A brutally honest diary account of one man's mental illness. This is a bit like the first part of Faulkner's *The Sound and the Fury* coupled with *The Curious Incident of the Dog in the Nighttime* and a very bizarre episode of the *X-Files*. Richard describes his book as a cathartic memoir of his time suffering from schizophrenia, detailing his treatment from eight different hospitals as well as his disjointed grips with reality. It's not an easy book to read by its very nature but does provide an incredible insight into the very private world of a schizophrenia sufferer.

By Neil D Arcy Jones Colchester Evening Gazette Description: Not all schizophrenics are violent. This is a myth that the press would like us to believe, a myth undone by my Richard's example. This book is the culmination of a four-year project written from the first person, unreliable narrator perspective. It utilizes truth with facts that however illusory Richard could not voluntarily create himself. This book documents Richard's adventurous learning curves to psychiatric treatment on nine occasions in eight different hospitals for over twenty-nine months since 1990, as terrible as being locked in an ICU for over nine weeks, as exciting as being the saviour of alien planets, and as beautiful as being released from that same ICU to walk under trees that were the tallest things he had ever seen under a blue sky that stretched on forever. This is an inspirational and important book for schizophrenia sufferers. It is perhaps unique, a non-academic work that would appeal to academics, an exciting adventure for the sympathetic, and a case study for mental health professionals to gain a long look into a private world.

About the Author: Richard M Clements is an inspirational author who has survived from acute schizophrenia and now wishes to use his experiences to help others with this disorder. He considers that discussing successful treatment in public is the responsibility for having recovered from illness to those that yet haven't. Richard has written several fictional novels and describes creative writing as the mainstay of his self-esteem, which is vital. Having a book published has been a life-changing experience for Richard, of which he is very proud. For many service users, it could be said that empowerment begins with pride; that pride is good. Richard would like to use his experience to counsel other sufferers of schizophrenia, particularly those also prescribed Clozapine, a medication which has kept him out of hospital and happy for over six years. *A Cry of*

Stone Michael D. O'Brien, 2009-09-03 In this fifth novel in his series *Children of the Last Days* Michael O'Brien explores the true meaning of poverty of spirit. Loosely based on the real lives of a number of native North Americans *A Cry of Stone* is the fictional account of the life of a native artist Rose WGBos. Abandoned as an infant, Rose is raised by her grandmother Oldmary WGBos in the remotest regions of the northern Ontario wilderness. The story covers a period from 1940 to 1973, chronicling Rose's growth to womanhood, her discovery of art, her moving out into the world of cities and sophisticated cultural circles. Above all, it is the story of a soul who is granted little of human strengths and resources yet who strives to love in all circumstances. As she searches for the ultimate meaning of her life, she changes the lives of many people whom she meets along the way. O'Brien takes the reader deep into the heart of a small person. There, he uncovers the beauty and struggles of a soul who wants only to create, to help others to see what she sees. The story also explores the complex lies and false images, the ambitions and posturing that dominate much of contemporary culture and shows how these have contributed to a loss of our understanding of the sacredness of each human life. Once again, Michael O'Brien beautifully demonstrates that no matter how insignificant a person may be in the world, its eyes marvel and mysteries are to be found in everyone. His central character, Rose, is among the despised and rejected of the earth, yet her life bears witness to the greatness in man and to his eternal destiny.

End of the Race Laurie Halse Anderson, 2012-02-16 Maggie learns all about dog racing when an injured greyhound is brought to the clinic. She goes to the track with Dr. Mac and Taryn, the newest Vet Volunteer, to check on the condition of the dogs. It's risky, but it will be worth it if they can save these greyhounds.
