One thing remains the same: Nobody does records like Guinness World Records. Power Kills R. J. Rummel, 2017-07-12 This volume, newly published in paperback, is part of a comprehensive effort by R. J. Rummel to understand and place in historical perspective the entire subject of genocide and mass murder, or what he calls democide. It is the fifth in a series of volumes in which he offers a detailed analysis of the 120,000,000 people killed as a result of government action or direct intervention. In *Power Kills*, Rummel offers a realistic and practical solution to war, democide, and other collective violence. As he states it: 'The solution is to foster democratic freedom and to democratize coercive power and force. That is, mass killing and mass murder carried out by government is a result of indiscriminate, irresponsible power at the center.' Rummel observes that well-established democracies do not make war on and rarely commit lesser violence against each other. The more democratic two nations are, the less likely is war or smaller-scale violence between them. The more

democratic a nation is the less severe its overall foreign violence the less likely it will have domestic collective violence and the less its democide Rummel argues that the evidence supports overwhelmingly the most important fact of our time democracy is a method of nonviolence *China's Bloody Century* R. J. Rummel, 2017-07-12 Except for Soviet citizens no people in this century have endured so much mass killing as have the Chinese They have been murdered by rebels conniving with their own rulers and then after the defeat in war of the imperial dynasty by soldiers of other lands They have been killed by warlords who ruled one part of China or another They have been executed by Nationalists or Communists because they had the wrong beliefs or attitudes or were simply in the wrong place at the wrong time In *China's Bloody Century* R J Rummel's careful estimate of the total number of killings exceeds 5 million How do we explain such killings crossing ideological bounds and political conditions According to Rummel the one constant factor in all the Chinese mass murder as it was in the Soviet Union and Nazi Germany is arbitrary power It was the factor that united warlords Nationalists Communists and foreign armies The author argues that whenever such undisciplined power is centralized and unchecked the possibility exists that it will be used at the whim of dictators to kill for their own ends whether the aim is ethnic racial purity national unity development or utopia The book presents successive periods in modern Chinese history with each chapter divided into three parts Rummel first relates the history of the period within which the nature and the amount of killings are presented He then provides a detailed statistical table giving the basic estimates with their sources and qualifications The final part offers an appendix that explains and elaborates the statistical computations and estimates While estimates are available in the literature on the number of Chinese killed in Communist land reform or in Tibet or by the Nationalists in one military campaign or another until this book no one has tried to systematically accumulate organize add up and analyze these diverse killings for all of China's governments in this century For *Fortune Favors the Brave* Bruce F. Meyer, 2004-08-16 Their Job Was To Get Inside Enemy Territory And Be Ready To Fight Their Way Back Out At the end of World War II when daring marine reconnaissance units made a life and death difference in island warfare in the Pacific a secret unit was formed inside the military With courageous men risking their lives Test Unit 1 experimented with new ways of inserting marines behind enemy lines by sea and by land and then getting them out again As America barreled towards a confrontation in Indochina and a new era of warfare First Force Recon was born This is the untold inside story of a super elite reconnaissance force U S Special Operations Forces who practiced clandestine insertion and extraction by submarine jet aircraft and helicopter using tools and techniques that had never been tried before Strapping you in the harness of a HALO parachute launching from the torpedo room of a submerged submarine or climbing the extraction rig of a hovering marine chopper *Fortune Favors the Brave* is a firsthand account of what it was like to build a new strike force from the ground up to make sure that the next time America fought a war Force Recon would be there A superb job this book fills a void that needed to be filled Major Bruce Doc Norton USMC Ret **The Pettingell Book of Birding Records** Noel Pettingell, David M.
