Forbes, 2010-10-01 The American Discovery of Europe investigates the voyages of America's Native peoples to the European continent before Columbus's 1492 arrival in the New World The product of over twenty years of exhaustive research in libraries throughout Europe and the United States the book paints a clear picture of the diverse and complex societies that constituted the Americas before 1492 and reveals the surprising Native American involvements in maritime trade and exploration Starting with an encounter by Columbus himself with mysterious people who had apparently been carried across the Atlantic on favorable currents Jack D Forbes proceeds to explore the seagoing expertise of early Americans theories of ancient migrations the evidence for human origins in the Americas and other early visitors coming from Europe to America including the Norse The provocative extensively documented and heartfelt conclusions of The American Discovery of Europe present an open challenge to received historical wisdom

*The Gulf Stream* William H. MacLeish, 1989 A nontechnical book about the Gulf Stream one of the most fascinating forces of nature on the globe

Dreaming of Columbus Michael Frankel, 2006-09-01 The author joined the America 500 Rally in Spain for the quincentenary celebration of Christopher Columbus and the epic voyage of 1492 The Rally was a rousing anniversary sail across the Atlantic Ocean and a unique experience in ocean going camaraderie The author recounts the voyage of his junk rigged sailboat with frequent references to the log of Columbus Along the way he highlights the historical background of The Inquisition and Columbus's daring proposal to sail westward to reach the east and Asia The boat's unique junk rig adds to the tantalizing notion that Columbus may have been following the wake of Chinese sailors This is a rare look into the friendships of a sailing rally at sea and in ports Over the short wave radio and potluck dock parties sailors join in an adventure and a celebration of Columbus's feats of ocean navigational

Dreams in the New Century Gary R. Mormino, 2022-05-17 Eminent historian Gary Mormino illuminates early twenty first century Florida and its connections to some of the most significant

events in contemporary American history taking stock of a tumultuous decade of change and explaining the state's social cultural and political intricacies      **Sabra Crossing** Michael L. Frankel, 1991      Imagining Atlantis Richard

Ellis, 2012-01-11 Ever since Plato created the legend of the lost island of Atlantis it has maintained a uniquely strong grip on the human imagination For two and a half millennia the story of the city and its catastrophic downfall has inspired people from Francis Bacon to Jules Verne to Jacques Cousteau to speculate on the island's origins nature and location and sometimes even to search for its physical remains It has endured as a part of the mythology of many different cultures yet there is no indisputable evidence let alone proof that Atlantis ever existed What then accounts for its seemingly inexhaustible appeal Richard Ellis plunges into this rich topic investigating the roots of the legend and following its various manifestations into the present He begins with the story's origins Did it arise from a common prehistorical myth Was it a historical remnant of a lost city of pre-Columbians or ancient Egyptians Was Atlantis an extraterrestrial colony Ellis sifts through the scientific evidence marshaled to prove these theories and describes the mystical and spiritual significance that has accrued to them over the centuries He goes on to explore the possibility that the fable of Atlantis was inspired by a conflation of the high culture of Minoan Crete with the destruction wrought on the Aegean world by the cataclysmic eruption around 1500 B.C. of the volcanic island of Thera or Santorini A fascinating historical and archaeological detective story *Imagining Atlantis* is a valuable addition to the literature on this essential aspect of our mythohistory      **Weakly Nonlocal Solitary Waves and**

**Beyond-All-Orders Asymptotics** John P. Boyd, 2012-12-06 if a physical system is capable of supporting solitary wave motions then such motions will invariably arise from quite general excitations T Maxworthy 1980 pg 52 The discover of nonlocal solitary waves is unknown and anonymous but he or she lived in the dry north of Australia many millennia before the birth of writing There on the shores of the Gulf of Carpentaria vast cylinders of cloud roll from northeast to southwest most mornings Perhaps 300 meters in diameter perhaps 500 meters above the ocean these cylinders of cloud stretch from horizon to horizon As the cloud evaporates on the trailing edge of the wave and condenses on the leading edge the cylinder appears to roll backwards even as it propagates inland at perhaps 10-20 meters per second Often a whole train of cloud cylinders propagates from Cape Yorke Peninsula across the Gulf towards the southwest across modern Burketown perhaps as much as 500 km inland into the Northern Territory Modern day Australians call it the Morning Glory What the discover called it so many centuries before the invention of hieroglyphics the foundation of Ur and the coronation of the First Dynasty of China we do not know But unless he was very different from us he felt awe Physicists Smith 1988 and Rottman and Einaudi 1993 have identified the Morning Glory as a solitary wave      **The Ocean Reader** Eric Paul Roorda, 2020-01-17 From prehistoric times to the present the Ocean has been used as a highway for trade a source of food and resources and a space for recreation and military conquest as well as an inspiration for religion culture and the arts *The Ocean Reader* charts humans relationship to the Ocean which has often been seen as a changeless space without a history It collects familiar forgotten and

Jeffrey. Bolster,2009-06-30 Few Americans black or white recognize the degree to which early African American history is a maritime history W Jeffrey Bolster shatters the myth that black seafaring in the age of sail was limited to the Middle Passage Seafaring was one of the most significant occupations among both enslaved and free black men between 1740 and 1865 Tens of thousands of black seamen sailed on lofty clippers and modest coasters They sailed in whalers warships and privateers Some were slaves forced to work at sea but by 1800 most were free men seeking liberty and economic opportunity aboard ship Bolster brings an intimate understanding of the sea to this extraordinary chapter in the formation of black America Because of their unusual mobility sailors were the eyes and ears to worlds beyond the limited horizon of black communities ashore Sometimes helping to smuggle slaves to freedom they were more often a unique conduit for news and information of concern to blacks But for all its opportunities life at sea was difficult Blacks actively contributed to the Atlantic maritime culture shared by all seamen but were often outsiders within it Capturing that tension Black Jacks examines not only how common experiences drew black and white sailors together even as deeply internalized prejudices drove them apart but also how the meaning of race aboard ship changed with time Bolster traces the story to the end of the Civil War when emancipated blacks began to be systematically excluded from maritime work Rescuing African American seamen from obscurity this stirring account reveals the critical role sailors played in helping forge new identities for black people in America An epic tale of the rise and fall of black seafaring Black Jacks is African Americans freedom story presented from a fresh perspective *Tuna* Richard Ellis,2009-07-14 Famed marine researcher and illustrator Richard Ellis brings us a work of scientific achievement that will forever change the way we think about fish fishing and the dangers inherent in the seafood we eat The bluefin tuna is one of the world s biggest fastest and most highly evolved marine animals as well as one of its most popular delicacies Now however it hovers on the brink of extinction Here Ellis explains how a fish that was once able to thrive has become a commodity and how the natural world and the global economy converge on our plates With updated information on mercury levels in tuna this is at once an astounding ode to one of nature s greatest marvels and a serious examination of a creature and world at risk **Ribbon of Sand** John Alexander,James D. Lazell,2000 This rich and beautiful exploration of the natural history and romantic past of the Outer Banks the fragile barrier islands that stretch nearly 200 miles down the North Carolina coast has been updated from its 1992 version to include up to date developments 27 illustrations 2 maps Index **Iron Men, Wooden Women** Margaret S.

Creighton, Lisa Norling, 1996-05 From the voyage of the Argonauts to the Tailhook scandal seafaring has long been one of the most glaringly male dominated occupations In this groundbreaking interdisciplinary study Margaret Creighton Lisa Norling and their co authors explore the relationship of gender and seafaring in the Anglo American age of sail Drawing on a wide range of American and British sources from diaries logbooks and account ledgers to songs poetry fiction and a range of public sources the authors show how popular fascination with seafaring and the sailors rigorous male only life led to models of gender behavior based on iron men aboard ship and stoic women ashore Yet Iron Men Wooden Women also offers new material that defies conventional views The authors investigate such topics as women in the American whaling industry and the role of the captain s wife aboard ship They explore the careers of the female pirates Anne Bonny and Mary Read as well as those of other women transvestite heroines who dressed as men to serve on the crews of sailing ships And they explore the importance of gender and its connection to race for African American and other seamen in both the American and the British merchant marine Contributors include both social historians and literary critics Marcus Rediker Dianne Dugaw Ruth Wallis Herndon Haskell Springer W Jeffrey Bolster Laura Tabili Lillian Nayder and Melody Graulich in addition to Margaret Creighton and Lisa Norling     **Mid-Atlantic Country** ,1989     Ribbon of Sand John Alexander, James Lazell, 1992-05-01 Wind currents tides and sand Kingsnakes and rice rats The disappearance of the Lost Colony the raids of the pirate Blackbeard and the Wright brothers first attempts at flight The Outer Banks is a place like no other
