Physicians have had a major role in framing the middle class values of modern western society especially those relating to the professions This book questions the bases of this hegemony by looking first at the early modern physician's insecurities in terms of status and gender and then at the wider world of medicine in London which the College of Physicians sought to suppress The College's proceedings against irregular practitioners constitute a case study in the regulation of an occupation critical for the well being of contemporary Londoners However the College was it is argued an anomalous body detached from most other forms of male authority in the urban context and its claims lacked social recognition It used stereotyping to

construct an account designed for higher authority but at the same time its regulatory efforts were constantly undermined by the effects of patronage. The so-called irregular practitioners emerge as extremely diverse in country of origin, religious belief and levels of formal education yet the full analysis provided here also shows that most were literate and that a significant number later became members of the College. Many were London artisans, barber surgeons and apothecaries who can be seen as the excluded middle between the two better-known extremes of the physician and the quack. In suppressing artisan practitioners the College was also seeking to suppress contractual or citizen medicine, an alternative system of structuring relations between the active patient and the practitioner which was fully integrated in contemporary urban custom and practice but which has since disappeared. The College's selective account also inadvertently reveals the existence of female artisans who practised medicine outside the household routinely and for payment. Although distorted by the College's proximity to the Crown and to elite patrons, the Annals of the College give access to the rich variety of medical practice in early modern London and to the forms of resistance and self-presentation with which those outside the College justified or denied their identity as practitioners.

The Living Church, 1911 **Mother India**, 1963 New Play and Musical Supplement to the Complete Catalogue, 2004 *Who Invented Oscar Wilde?* David Newhoff, 2020-11 AAP PROSE Award Finalist in Media and Culture Studies 2021

In early 1882, before young Oscar Wilde embarked on his lecture tour across America, he posed for publicity photos taken by a famously eccentric New York photographer named Napoleon Sarony. Few would guess that one of those photographs would become the subject of the Supreme Court case that challenged copyright protection for all photography, a constitutional question that asked how a machine-made image could possibly be a work of human creativity. *Who Invented Oscar Wilde* is a story about the nature of authorship and the convenient fiction we call copyright. While a seemingly obscure topic, copyright has been a hotly contested issue almost since the day the internet became publicly accessible. The presumed obsolescence of authorial rights in this age of abundant access has fueled a debate that reaches far beyond the question of compensation for authors of works. Much of the literature on the subject is either highly academic, highly critical of copyright, or both. With a light and balanced touch, David Newhoff makes a case for intellectual property law, tracing the concept of authorship from copyright's ancient beginnings to its adoption in American culture, to its eventual confrontation with photography and its relevance in the digital age. Newhoff tells a little-known story that will appeal to a broad spectrum of interests while making an argument that copyright is an essential ingredient to upholding the principles on which liberal democracy is founded.

Korean Film Eunjung Min, Jinsook Joo, Han Ju Kwak, 2003-04-30

Despite its rise in the global market, recent political progress and a surging interest worldwide, Korean films are relatively unknown and rarely studied. This new work begins by investigating the history, industry structure and trends of filmmaking in Korea, going on to examine how Hollywood films have affected both Korean mainstream and nonmainstream film industries in terms of both means of production and narrative. Moreover, the authors analyze the ways in which Korean

films of recent years have represented the modernization process in Korea itself as well as the ideological implications that arise from the cinematic constructions of Korean imagination More than a mere chronological account of Korean cinematic history IKorean Film R attempts to consider the films as a popular cultural form that have a life beyond their theatrical runs stars genres and key movies become part of any culture s identity and in their narratives and meanings can be located evidence of the ways in which a culture makes sense of itself Korea has never before been given such an extensive treatment of this central idea and here for the first time the nation s culture and cinema are merged into one discussion that both reflects and shapes our understanding of it *Hannah Wilke* Tamara Schenkenberg, Donna Wingate, 2021 Eros and Oneness Tamara H Schenkenberg Elective Affinities Hannah Wilke s Ceramics in Context Glenn Adamson Needed Erase Her Don t Connie Butler Daughter Mother Catherine Opie Ha Ha Hannah Jeanine Oleson Cycling Through Gestures to Strike a Pose Nadia Myre Play and Care Hayv Kahraman Cindy Nemser and Hannah Wilke in Conversation 1975 **The Lone Hand**, 1918 **Collier's**, 1910
