modern master of alternate history a novel of alien contact set in the tumultuous year of the Watergate scandal It s 1974 and Jerry Stieglitz is a grad student in marine biology at UCLA with a side gig selling short stories to science fiction magazines just weeks away from marrying his longtime fianc e Then his life is upended by grim faced men from three letter agencies

who want him to join a top secret Project Azorian in the middle of the north Pacific Ocean and they really don't take no for an answer. Further, they're offering enough money to solve all of his immediate problems. Joining up and swearing to secrecy, what he first learns is that Project Azorian is secretly trying to raise a sunken Russian submarine while pretending to be harvesting undersea manganese nodules. But the dead Russian sub, while real, turns out to be a cover story as well. What's down on the ocean floor next to it is the thing that killed the sub: an alien spacecraft. Jerry's a scientist, a longhair, a storyteller, a dreamer. He stands out like a sore thumb on the Glomar Explorer, a ship full of CIA operatives, RAND Corporation eggheads, and roustabout divers. But it turns out that he's the one person in the North Pacific who's truly thought out all the ways that human-alien first contact might go. And meanwhile, it's still 1974, back on the mainland. Richard Nixon is drinking heavily and talking to the paintings on the White House walls. The USA is changing fast, and who knows what will happen when this story gets out. *Three Miles Down* is both a fresh and original take on First Contact and a hugely enjoyable romp through the pop culture, political tumult, and conspiracies within conspiracies atmosphere that was 1974. Turtledove, 2018-09-18 The modern master of alternate history and New York Times bestselling author envisions a world in which Europe and the Middle East have traded places. io9's New Sci-Fi and Fantasy Books You Need to Put on Your Radar. This Fall, Senior investigator Khalid al Zarzisi is a modern man, a product of the unsurpassed educational systems of North Africa and the Middle East. Liberal, tolerant, and above all, rich, the countries and cultures of North Africa and the Middle East have dominated the globe for centuries, from the Far East to the young nations of the Sunset Lands. But one region has festered for decades: Europe, whose despots and monarchs can barely contain the simmering anger of their people. From Ireland to Scandinavia, Italy to Spain, European fundamentalists have carried out assassinations, hijackings, and bombings on their own soil and elsewhere. Extremist fundamentalist leaders have begun calling for a crusade, an obscure term from the mists of European history. Now Khalid has been sent to Rome, ground zero of backwater discontent. He and his partner Dawud have been tasked with figuring out how to protect the tinpot Grand Duke, the impoverished Pope, and the overall status quo before European instability starts overflowing into the First World. Then the bombs start to go off. *In High Places* Harry
