circumstances of life on the frontier in fact a succession of frontiers that moved inexorably westward that were a determining influence on American character and institutions Turner read this paper propounding his thesis at the meeting of the American Historical Association in Chicago July 12 1893 as part of the World's Columbian Exposition It was timely he suggested because the Census of 1890 had announced the closing of the frontier in the United States and thus the end of an important stage of American development

Ray, 2017-03-03 In 1995 Texas Historical Commission underwater archaeologists discovered the wreck of La Salle's *La Belle* remnant of an ill-fated French attempt to establish a colony at the mouth of the Mississippi River that landed instead along today's Matagorda Bay in Texas During 1996-1997 the Commission uncovered the ship's remains under the direction of archaeologist James E. Bruse and employing a team of archaeologists and volunteers Amid the shallow waters of Matagorda Bay a steel cofferdam was constructed around the site creating one of the most complex nautical archaeological excavations ever attempted in North America and allowing the archaeologists to excavate the sunken wreck much as if it were located on dry land The ship's hold was discovered full of everything the would-be colonists would need to establish themselves in the New World more than 1.8 million artifacts were recovered from the site More than two decades in the making due to the immensity of the find and the complexity of cataloging and conserving the artifacts this book thoroughly documents one of the most significant North American archaeological discoveries of the twentieth century

of the conflict carried a wide array of weapons from sabers and lances to carbines revolvers and other firearms Though some sections of the cavalry placed their trust in the sabre the advent of viable breechloading carbines especially repeaters such as the Spencer was to transform warfare within little more than a decade of General Lee's final surrender at Appomattox However output struggled to keep up with unprecedented demands on manufacturing technology and distribution in areas where communication was difficult and in states whose primary aim was to equip their own men rather than contribute to the arming of Federal or Confederate regiments In addition the almost unparalleled losses of men and equipment ensured that almost any firearm effectual or not was pressed into service Consequently the sheer variety of weaponry carried reflected the mounted soldiers various roles in different theatres of operation but also the availability or otherwise of weapons notably on the Confederate side Fully illustrated this study assesses the effectiveness of the many different weapons arming the Civil War cavalryman and analyses the strengths and weaknesses of the decisions made after 1865 concerning the armament of the US cavalry
