Gunslinger Iii The Winterbook Prolo:

Gunslinger, Book III Edward Dorn, 1972 *Encyclopedia of American Poetry: The Twentieth Century* Eric L. Haralson, 2014-01-21 The Encyclopedia of American Poetry The Twentieth Century contains over 400 entries that treat a broad range of individual poets and poems along with many articles devoted to topics schools or periods of American verse in the century Entries fall into three main categories poet entries which provide biographical and cultural contexts for the author s career entries on individual works which offer closer explication of the most resonant poems in the 20th century canon and topical entries which offer analyses of a given period of literary production school thematically constructed category or other verse tradition that historically has been in dialogue with the poetry of the United States *The Postmoderns* Donald Allen, George F. Butterick, 1982 This anthology includes many of the major poets to have emerged and gained pre eminence since World War II and whose writing reflects not only the significant changes in this nation s postwar history and the coming to grips with a nuclear age but also an entirely new way of looking at and structuring reality United by their postmodernist concerns with spontaneity instantism formal and syntactic flexibility and the revelation of both the creator and the process through the writing itself these 38 poets represent very diverse strains of an essential American individualism Included are many of the poets whose work first gained widespread national attention with the 1960 publication of *The New American Poetry* Charles Olson Allen Ginsberg Paul Blackburn LeRoi Jones Amiri Baraka Denise Levertov Robert Duncan and others Among the poets included here for the first time are Anne Waldman Diane di Prima Ed Sanders Jerome Rothenberg and James Koller In addition to a new preface by Allen and Butterick the book provides autobiographical notes of all the poets and listings of their major works **Charles Olson** Paul Christensen, 2014-03-19 Charles Olson was an important force behind the raucous explicit jaunty style of much of twentieth century poetry in America This study makes a major contribution to our understanding of his life and work Paul Christensen draws upon a wide variety of source materials from letters unpublished essays and fragments and sketches from the Olson Archives to the full range of Olson s published prose and poetry Under Christensen s critical examination Olson emerges as a stunning theorist and poet whose erratic and often unfinished writings obscured his provocative intellect and the coherence of his perspective on the arts Soon after World War II Olson emerged as one of America s leading poets with his revolutionary document on poetics *Projective Verse* and his now classic poem *The Kingfishers* both of which declared a new set of techniques for verse composition Throughout the 1950s Olson wrote many polemical essays on literature history aesthetics and philosophy that outlined a new stance to experience he called objectism A firm advocate of spontaneous self expression in the arts Olson regarded the poet s return to an intense declaration of individuality as a force to combat the decade s insistence on conformity Throughout his life Olson fought against the depersonalization of the artist in the modern age his resources raw verve and unedited tumultuous lyricism were weapons he used against generalized life and identity This volume begins with

an overview of Olson's life from his early years as a student at Harvard through his short lived political career his rectorship at Black Mountain College and his retirement to Gloucester to finish writing the Maximus poems Christensen provides a systematic review of Olson's prose works including a close examination of his brilliant monograph on Melville Call Me Ishmael Considerable attention is devoted to Olson's theory of projectivism the themes and techniques of his short poems and the strategies and content of his major work the Maximus series In addition there is a critical survey of the works of Robert Creeley Robert Duncan Denise Levertov Paul Blackburn and other poets who show Olson's influence in their own innovative self exploratory poetry

International Who's Who in Poetry 2005 Europa Publications,2004-08-02 The 13th edition of the International Who's Who in Poetry is a unique and comprehensive guide to the leading lights and freshest talent in poetry today Containing biographies of more than 4 000 contemporary poets world wide this essential reference work provides truly international coverage In addition to the well known poets talented up and coming writers are also profiled Contents Each entry provides full career history and publication details An international appendices section lists prizes and past prize winners organizations magazines and publishers A summary of poetic forms and rhyme schemes The career profile section is supplemented by lists of Poets Laureate Oxford University professors of poetry poet winners of the Nobel Prize for Literature winners of the Pulitzer Prize for American Poetry and of the King's Queen's Gold medal and other poetry prizes
