M. L. Thompson, 1990 Whilst in certain quarters it may be fashionable to suppose that there is no such thing as society historians they have had no difficulty in finding their subject The difficulty rather is that an outpouring of research and writing is hard for anyone but the specialist to keep up with the literature or grasp the overall picture In these three volumes as is the tradition in Cambridge Histories a team of specialists has assembled the jigsaw of topical monographic research and presented an interpretation of the development of modern British society since 1750 from three perspectives those of regional communities the working and living environment and social institutions Each volume is self contained and each contribution thematically defined contains its own chronology of the period under review Taken as a whole they offer an authoritative and comprehensive view of the manner and method of the shaping of society in the two centuries of unprecedented demographic and economic change **British Politics, 1910-1935** David Powell, 2004 This accessible new study provides a much needed guide to the pivotal period of British history between 1910 and 1935 Combines an up to date synthesis of previous work with a re appraisal of the main personalities themes and events of the period **A Social History of Swimming in England, 1800 - 1918** Christopher Love, 2013-10-18 Covering a time of great social and technological change this history traces the development of the four classic aquatic disciplines of competitive swimming diving synchronized swimming and water polo with its main focus on racing Working from the beginnings of municipal recreational swimming the book fully explores the links between swimming and other aspects of English life society including class education gender municipal governance sexuality and the Victorian invention of the sports amateur professional divide Uniquely focused on swimming often neglected in analytic sports histories this is the first study of its kind and will be an important landmark in the establishment of swimming history as a topic of scholarly investigation This book was previously published as a special issue of the International Journal of the History of Sport **A Reference Guide for English Studies** Michael J. The English Print Trade in the Reign of Edward VI, 1547-1553 Celyn David Richards, 2023-06-26 The protestant reformation was critical to the efflorescence of printing in England between 1547 and 1553 Celyn David Richards explores English print culture during this turbulent period in which an official programme of reform new censorship dynamics and increasingly sophisticated commercial relationships contributed to the trade s rapid expansion Edward VI s reign saw unprecedented levels of religious print production London s first publishing syndicate and a climate of protestant ascendancy which helped English print culture to make up ground on its continental counterparts

Consuming Fantasies Lise Sanders, 2006 In *Consuming Fantasies* Labor Leisure and the London Shopgirl 1880 1920 Lise Shapiro Sanders examines the cultural significance of the shopgirl both historical figure and fictional heroine from the end of Queen Victoria s reign through the First World War As the author reveals the shopgirl embodied the fantasies associated with a growing consumer culture romantic adventure upward mobility and the acquisition of material goods Reading novels such as George Gissing s *The Odd Women* and W Somerset Maugham s *Of Human Bondage* as well as short stories musical comedies and films Sanders argues that the London shopgirl appeared in the midst of controversies over sexual morality and the pleasures and dangers of London itself Sanders explores the shopgirl s centrality to modern conceptions of fantasy desire and everyday life for working women and argues for her as a key figure in cultural and social histories of the period This study will appeal to scholars students and enthusiasts of Victorian and Edwardian life and literature

BOOK JACKET *English Modernism, National Identity and the Germans, 1890-1950* Petra Rau, 2016-05-13 This is the first systematic study to trace the way representations of Germanness in modernist British literature from 1890 to 1950 contributed to the development of English identity Petra Rau examines the shift in attitudes towards Germany and Germans from suspicious competitiveness in the late Victorian period to the aggressive hostility of the First World War and the curious inconsistencies of the 1930s and 1940s These shifts were no simple response to political change but the result of an anxious negotiation of modernity in which specific aspects of Englishness were projected onto representations of Germans and Germany in English literature and culture While this incisive argument clarifies and deepens our understanding of cultural and national politics in the first half of the twentieth century it also complicates current debates surrounding race and otherness in cultural studies Authors discussed include major figures such as Conrad Woolf Lawrence Ford Forster and Bowen as well as popular or less familiar writers such as Saki Graham Greene and Stevie Smith Accessibly written and convincingly argued Rau s study will not only be an important book for scholars but will serve as a valuable guide to undergraduates working in modernism literary history and European cultural relations
