Effective Meetings John E. Tropman, 1995-11-15 The purpose of this book is to improve the decision making process in social work groups. Illustrating the volume with various meeting models including advisory groups, intergroup and intercultural meetings, John E. Tropman examines a number of critical issues facing social workers including family and community violence, health care and homelessness. New to this Second Edition is a discussion of the relationship between meetings and missions, goals and external and internal forces. Effective Meetings John E. Tropman, 1996 This book shows that the value of group decision making lies in its ability to bring together people with a variety of different expertise and experiences. These techniques are applied to problems such as health care, homelessness and family violence. Business Communication for Managers Payal Mehra, 2011 Business Communication for Managers is a student friendly, practical and example driven book that gives students a thorough knowledge of business communication covering all the major communication topics included in MBA syllabi across the country. The New Social Work Practice presents a comprehensive view of contemporary social work. Whether it be general or specialist practice, care and control or power and oppression, these central issues and recurring themes are given a topical treatment. Changes in core aspects of social work are fully explored in lively and realistic ways, combining the essence of good practice with current organizational demands. The aim of the original workbook remains intact to guide and stimulate learning about social work practice. The book achieves this purpose by presenting various aspects of social work using different settings and contexts. New and revised activities are included to promote discussion, understanding, learning and better practice. Taken together, the topics and themes in the book define the essential elements of a curriculum for social work practice. **Creating Small Scale Social Programs** Barbara Schram, 1997-10-14 Built around a single case study, Creating New Agency Programs clearly illustrates how to effectively plan, implement and evaluate a small scale social program. Each step in the planning process is introduced and described in a way that allows the reader to vicariously participate in the evolution of the program. Useful charts, time lines and resource lists are included and can be easily referenced and utilized. This book's emphasis on planning is important not only because it is a much used and generally under taught skill, but because successful planning is the process that can turn the dreams of a community into concrete reality. This book is geared toward designing programs to meet specific social needs and organizing the relevant human resources to implement them. The programs are specific, detail and activity oriented but are designed to support long range goals which may be
