Biomechanics in Sport: Performance Enhancement and Injury Prevention Vladimir Zatsiorsky, 2008-04-15

Biomechanics in Sport is a unique reference text prepared by the leading world experts in sport biomechanics. Over thirty chapters cover a broad spectrum of topics ranging from muscle mechanics to injury prevention and from aerial movement to wheelchair sport. The biomechanics of sports including running, skating, skiing, swimming, jumping in athletics, figure skating, ski jumping, diving, javelin and hammer throwing, shot putting and striking movements are all explained. *Routledge Handbook of Coaching Children in Sport* Martin Toms, Ruth Jeanes, 2022-12-23 The *Routledge Handbook of Coaching Children in Sport* provides a comprehensive and extensive range of critical reflections of key areas impacting on children's sport and coaching up to the age of 16. With coaching related chapters authored by academic across various disciplines including nutrition, psychology, pedagogy, medicine, youth development and sociology, the text provides detailed reviews of the existing state of research and consideration of the implications of these particular factors upon parents, coaches, administrators and clearly the young people themselves as well as recommendations for future research. This new volume provides in depth investigation to key topics of coaching topics such as Learning and Child Development, Protecting Young Athletes, Talent Identification and Development and Inclusive Coaching and finally introduce a broad array of contextual considerations for coaches from considering professional learning through to coaching in particular contexts. This book is more than simply an academic text and it offers insights that will further inform practice in children's sport coaching. The handbook is relevant for students, UG, PG researchers, academics, parents, coaches and administrators as well as those interested in children's sport coaching and the related topics therein. Martin Toms PhD is a senior lecturer, associate professor in the School of Sport, Exercise and Rehabilitation Sciences at the University of Birmingham, UK. A former professional sports coach with an MPhil and PhD exploring the sociological issues of young people in junior sport, Martin has been heavily involved in juniors sport all of his adult life. He has published widely and presented extensively around the world on youth sport including working on international projects and for NBGs, Federations and National Governmental organisations. He has gained European and SCUK funding for youth and coaching related projects as well as being involved in international consultancy. He is a co editor of the *European Journal for Sport and Society* as well as the current Editor in Chief of the *International Journal of Golf Science*. Ruth Jeanes PhD is an associate professor in the Faculty of Education at Monash University, Australia. Ruth's research examines inclusion and exclusion within youth sport, particularly examining how sport can be used to achieve broader social policy objectives targeted at young people. Within this she is particularly interested in the role of coaches in facilitating broader social outcomes for young people. Ruth has published extensively in these areas with over 100 publications across journal articles, book chapters and books. She is widely cited and has been successful in securing extensive funding for her research including two highly competitive Australian Research Council grants. **Practical Sports Nutrition** Louise Burke, 2007 *Practical Sports Nutrition* provides detailed sport specific advice

that enables you to approach individual athletes and teams with an understanding of their sport and unique nutritional needs

Talent Identification and Development in Sport Joseph Baker, Stephen Copley, Jörg Schorer, 2020-10-29 Identifying and developing talented athletes to their fullest potential is a central concern of sport scientists, sports coaches and sports policy makers. The second edition of this popular text offers a state of the science synthesis of current knowledge in talent identification and development in sport from the biological basis of talent to the systems and processes within sport through which that talent is nurtured. Written by a team of leading international experts, the book explores key factors and issues in contemporary sport including nature and nurture in the development of sporting talent, designing optimal developmental environments, long term modelling of athlete development, understanding the complexity of talent selection in depth, case studies of successful talent development systems. With an emphasis on practical implications for all those working in sport, the book offers an authoritative evaluation of the strengths and weaknesses of contemporary systems for identifying and developing talent in sport. This is important reading for any student, researcher or practitioner with an interest in skill acquisition, youth sport, elite sport, sports coaching or sports development.
