

THE DOVER POLITICAL

THE EGO AND HIS OWN

The Case of the Individual Against Authority

Max Stirner

Credited with influencing the philosophies of Nietzsche and Ayn Rand and the development of Objectivism and existentialism, this prophetic 1844 work challenges the very notion of a common good as the driving force of civilization. By examining the role of the human ego, author Max Stirner chronicles the battle of the individual against the collective—showing how, throughout history, the latter inevitably leads to oppression.

Stirner begins with a study of the individual ego and then traces its subjugation from ancient times to the nineteenth century. Nothing escapes his discernment: the ancient philosophers, Christianity, monarchism, the bourgeois state. All have bound individuals with laws, morality, and obligations. Revolutions expunge the evil only to replace it with another, and Stirner predicted—years before the publication of Marx's Manifesto—that socialism would climax in the ultimate totalitarian state.

For students of political science and philosophy, this book is essential reading. For those concerned about the encroachment of authority upon individual liberty, Stirner articulates a philosophy that remains unsurpassed in its scope.

The Ego and His Own; the Case of the Individual Against Authority, by Max Stirner [pseud.] Translated from the German by Steven T. Byington. Edited, with Annotations and an Introd. by James J. Martin Max Stirner, *The Ego and His Own by Max Stirner* Max Stirner, 1963 *The Ego and His Own* Max Stirner, 1989 **The Ego and His Own** Max Stirner, 2019-11-19 In *The Ego and His Own* Max Stirner presents a provocative exploration of individualism and the nature of the self challenging established philosophical doctrines Written in the mid 19th century this seminal work is characterized by its passionate rhetoric and unique style blending fierce critique with a muscular prose Stirner posits that the individual is the ultimate authority dismissing collective ideologies in favor of personal autonomy His existential philosophy resonates within the context of German idealism and Romanticism offering an alternative vision that positions the ego at the center of existence unrestrained by societal norms or moral imperatives Max Stirner born Johann Caspar Schmidt in 1806 was influenced by the intellectual currents of his time including Hegelianism and Feuerbach's humanism His provocative views were often met with criticism yet they paved the way for modern anarchist and existential thought Stirner's emphasis on the self as the primary concern reflects his own experiences in an era marked by political turmoil and social upheaval shaping his revolutionary approach to philosophy and life For readers seeking to deepen their understanding of individualist thought and its implications for modern society *The Ego and His Own* is a compelling and essential read Stirner's radical emphasis on self ownership and freedom invites profound introspection making this text not only a historical artifact but a contemporary manifesto for those advocating for personal liberation I Am the Truth Michel Henry, 2003 A part of the return to religion now evident in European philosophy this book represents the culmination of the career of a leading phenomenologist who investigates the multiple kinds of truth associated with Christianity **Anarchist Seeds Beneath the Snow** David Goodway, 2006-01-01 From William Morris to Oscar Wilde to George Orwell left libertarian thought has long been an important but neglected part of British cultural and political history This work seeks to recover that indigenous anarchist tradition It argues that a recovered anarchist tradition could be a touchstone for contemporary political radicals *The Ego and His Own* Max Stirner, 1907 **Riddle of the Human 'I'** Sergei O. Prokofieff, 2017-04-24 Anyone who embarks upon the study of anthroposophy will soon recognise that the mystery of the human ego lies at its very heart This mystery is one of the central questions of anthroposophical Christology and at the same time forms one of the most difficult

cognitive challenges presented by anthroposophy Sergei O Prokofieff The question of the true nature of the human I or individuality is one of the key issues of our time but it is also one of the most complex riddles of existence This booklet doesn't give simple answers but adds perspectives that deepen the theme offering a picture of its manifold mysteries In three great panoramas the author develops central aspects of the topic beginning with the threefold nature of human individuality followed by an illumination of the cosmic dimension of the ego and finally an encapsulation of the significance of the earthly ego With his usual thoroughness and clarity Sergei O Prokofieff throws light on one of the fundamental questions of our time

A Philosophy of the Christian Religion Edward J. Carnell, 2007-11-01 Introducing the Edward Carnell Library Nine Titles Listed Inside A Philosophy of the Christian Religion is not a defense of the Christian faith in the conventional sense The gamut of contending values and the systems of thought preoccupying the contemporary mind are analyzed here with admirable comprehension and lucidity These competing philosophies are severally evaluated by the whole perspective of the Christian system and demonstrated as partial here and now values incapable of satisfying the demands of the whole man Christianity is a coherent religion It never asks the heart to trust values which the reason is obliged to discard as contradictory No value commitment is completely satisfying until the complete man is satisfied from the preface *The Secret Doctrine (Vol. 1-3)* Helena Blavatsky, 2019-04-26 The Secret Doctrine is one of the most influential esoteric and occult books of all time In the first part of the book the author explains the origin and evolution of the universe itself in terms derived from the Hindu concept of cyclical development While in the second part she describes the origins of humanity through an account of Root Races said to date back millions of years **A Theory of Moral Objectivity** Robert M.
