engage in a passionate debate about their relevance to the salvation of the soul and thus to the philosopher's ultimate goal. Ilinca Tanaseanu-Döbler examines the development of the discourse on theurgy attempting to reconstruct what was understood as theurgic ritual in the late antique sources. Withstanding the temptation to impose a unity on the disparate sources which span several centuries she thus goes beyond the picture of a coherent extra philosophical tradition drawn by the Neoplatonists to sketch the variations in the rituals subsumed under theurgy and their function and shows how every author constructs his own theurgy. This perspective leads to consider theurgy as an example of an artificial ritual tradition composed from already existing elements to create something claimed as *sui generis*. Theurgy offers the great opportunity to look at such a tradition from its beginning up to its end and to analyse the mechanisms of inventing and reinventing such a ritual tradition in process.

The Greco-Egyptian Magical Formularies Christopher Faraone, Sofia Torallas Tovar, 2022-11-14 In Greco Roman Egypt recipes for magical undertaking called magical formularies commonly existed for love potions curses attempts to best business rivals many of the same challenges that modern people might face In The Greco Egyptian Magical Formularies Libraries Books and Individual Recipes volume editors Christopher Faraone and Sofia Torallas Tovar present a series of essays by scholars involved in a multiyear project to reedit and translate the various magical handbooks that were inscribed in the Roman period in the Greek or Egyptian languages For the first time the material remains of these papyrus

rolls and codices are closely examined revealing important information about the production of books in Egypt the scribal culture in which they were produced and the traffic in single recipes copied from them Especially important for historians of the book and the Christian Bible are new insights in the historical shift from roll to codex complicated methods of inscribing the bilingual papyri in which the Greek script is written left to right and the demotic script right to left and the new realization that several of the longest extant handbooks are clearly compilations of two or more shorter handbooks which may have come from different places The essays also reexamine and rethink the idea that these handbooks came from the personal libraries of practicing magicians or temple scriptoria in one case going so far as to suggest that two of the handbooks had literary pretensions of a sort and were designed to be read for pleasure rather than for quotidian use in making magical recipes
