Egyptian Myth and Legend Donald Alexander Mackenzie,2020-09-28 In this volume the myths and legends of ancient Egypt are embraced in a historical narrative which begins with the rise of the great Nilotic civilization and ends with the Graeco Roman Age The principal deities are dealt with chiefly at the various periods in which they came into

prominence while the legends are so arranged as to throw light on the beliefs and manners and customs of the ancient people Metrical renderings are given of such of the representative folk songs and poems as can be appreciated at the present day Egyptian mythology is of highly complex character and cannot be considered apart from its racial and historical aspects The Egyptians were as a Hebrew prophet has declared a mingled people and this view has been confirmed by recent ethnological research the process of racial fusion begun in the Delta at the dawn of history says Professor Elliot Smith spread through the whole land of Egypt In localities the early Nilotic inhabitants accepted the religious beliefs of settlers and fused these with their own They also clung tenaciously to the crude and primitive tribal beliefs of their remote ancestors and never abandoned an archaic conception even when they acquired new and more enlightened ideas they accepted myths literally and regarded with great sanctity ancient ceremonies and usages They even showed a tendency to multiply rather than to reduce the number of their gods and goddesses by symbolizing their attributes As a result we find it necessary to deal with a bewildering number of deities and a confused mass of beliefs many of which are obscure and contradictory But the average Egyptian was never dismayed by inconsistencies in religious matters he seemed rather to be fascinated by them There was strictly speaking no orthodox creed in Egypt each provincial centre had its own distinctive theological system and the religion of an individual appears to have depended mainly on his habits of life The Egyptian as Professor Wiedemann has said never attempted to systematize his conceptions of the different divinities into a homogeneous religion It is open to us to speak of the religious ideas of the Egyptians but not of an Egyptian religion
