Mr. Hornaday's War Stefan Bechtel,2012-05-15 He was complex quirky pugnacious and difficult He seemed to create enemies wherever he went even among his friends A fireplug of a man who stood only five feet eight inches in his stocking feet he began as a taxidermist and an adventurer who tracked tigers in Borneo with friendly headhunters lead crocodile hunting expeditions in the Orinoco and scouted the last remaining bison in the Montana territories William Temple Hornaday 1854 1937 was also a man ahead of his time He was the most influential conservationist of the nineteenth century second only to his great friend and ally Theodore Roosevelt When this one time big game collector witnessed the wanton destruction of wildlife prevalent in the Victorian era he experienced an awakening and devoted the rest of his life to protecting our planet s endangered species Hornaday founded the National Zoo in Washington D C served for thirty years as director of the renowned Bronx Zoo and

became a fierce defender of wild animals and wild places He devoted fifty years to fighting gun manufacturers poachers scandalously lax game protection laws and the vast apathy of the American public He waged the Plume Wars against the feathered hat industry and is credited with having saved both the Alaskan fur seal and the American bison from outright extinction Mr Hornaday s War restores this major figure to his rightful place as one of the giants of the modern conservation movement But Stefan Bechtel also explores the grinding contradictions of Hornaday s life Though he crusaded against the wholesale slaughter of wildlife he was at one time a trophy hunter and what happened in 1906 at the Bronx Zoo when Hornaday displayed an African man in an ethnographic exhibit shows a side of him that is as baffling as it is repellant This gripping book takes an honest look at a fascinating enigmatic man who both represented and transcended his era s paradoxical approach to wildlife and who profoundly changed the course of the conservation movement for generations to come
