From Ashes to Text Diego Falconí Trávez,2022-08-31 According to some chronicles of the Spanish Conquest the violent arrival of the Conquerors to the Andes in the sixteenth century led to sex dissident people who lived outside the dominant European cisgender heteropatriarchal model being burned at the stake This act burned more than the flesh it also charred practices ways of life and textualities leaving an emptiness and a trauma that would mark the future literatures of the Andean region This book cannot repair those pre sodomite texts and bodies It seeks instead to reconsider the value of the ash a metaphor that allows for a critical and contradictory reading of sexual dissidences in the Andean region in the twentieth century beyond both multiculturalism and the wake of a globalized LGBTI movement Through a comparative analysis and drawing on theoretical perspectives such as anticoloniality feminisms and cuir rather than queer theories the book aims to understand

the value of a series of complex texts in which dissident subjectivities practices and desires help to broaden the understanding of the Andean Winner of the prestigious Casa de las Américas prize the book was praised by the jury for the paradoxical and provocative way that it struggles against the abyss of past destruction and reflects on the contribution of the Global South to the often uniformist thinking around the body and its intersections Commodifying Violence in Literature and on Screen Alejandro Herrero-Olaizola, 2021-10-18 This book traverses the cultural landscape of Colombia through in depth analyses of displacement local and global cultures human rights abuses and literary and media production Through an exploration of the cultural processes that perpetuate the darker side of Latin America for global consumption it investigates the condition that has led writers filmmakers and artists to embrace purposefully or not the incessant violence in Colombian society as the object of their own creative endeavors In this examination of mass marketed cultural products such as narco stories captivity memoirs gritty travel narratives and films Herrero Olaizola seeks to offer a hemispheric approach to the role played by Colombia in cultural production across the continent where the illicit drug trade has made significant inroads To this end he identifies the Colombian condition within the parameters of the global economy while concentrating on the commodification of Latin America's violence for cultural consumption The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Body, Subject & Subjected Dr Debra D Andrist, 2016-01-01 Hominids have always been obsessed with representing their own bodies The first selfies were prehistoric negative hand images and human stick figures followed by stone and ceramic representations of the human figure Thousands of years later moving via historic art and literature to contemporary social media the contemporary term selfie was self generated The book illuminates some selfies This collection of critical essays about the fixation on the human self addresses a multi faceted geographic set of cultures the Iberian Peninsula to pre Columbian America and Hispanic America analysing such representations from medical literal and metaphorical perspectives over centuries Chapter contributions address the representation of the body itself as subject in

both visual and textual manners and illuminate attempts at control of the environment of perception of behaviour and of actions by artists and authors Other chapters address the body as subjected to circumstance representing the body as affected by factors such as illness injury treatment and death These myriad effects on the body are interpreted through the brushes of painters and the pens of authors for social and or personal control purposes The essays reveal critics insights when selfies are examined through a focused lens over a breadth of cultures The result complex and unique is that what is viewed the visual art and literature under discussion becomes a mirror image indistinguishable from the component viewing apparatus the lens

The Aesthetic Border Brantley Nicholson, 2022-05-22 This groundbreaking study examines how modern Colombian literature from Gabriel Garc a M rquez to Juan Gabriel V squez reflects one of the world s most tumultuous entrances into globalization While these literary icons one canonical the other emergent bookend Colombia s fall and rise on the world stage the period between the two was inordinately violent spanning the Colombian urban novel s evolution into narco literature Marking Colombia s cultural and literary manifestations as threefold this book explores Garc a M rquez s retreat to a rural romanticism that paradoxically made him a global literary icon the country s violent end to the twentieth century when its largest economic export was narcotics and the contemporary period in which a new major author has emerged to create a literature of national reconstitution Harkening back to the Regeneration movement and extending through the early twenty first century this book analyzes the cultural implications of Colombia s relationship to the wider world
