El Croquis 91:

El Croquis 91, 1998 Toyo Ito Toyoo Itō, 2002-07-04 The Architectural Documents series sees the publication of the first monograph on one of the most extraordinary figures on the contemporary architectural scene Toyo Ito of Japan b 1941 Since the 1970s Ito has been carrying out research into building materials light and space research which has led him to design buildings that he himself has defined as non material aerial structures fluid and permeable spaces which avoid rigid compositional geometries Over the years Ito has gradually simplified his language and his work the structure of which has increasingly lost importance can be studied as a series of variations on the layering of the facade His obsession with lightness and transparency are expressed to the full in the most important work of his creative career the Sendai Mediatheque 1995 2001 This book with an exceptional body of illustrations presents the Japanese architects most significant projects starting with the Aluminium House of 1970 1 through to the most recent project for the Mahler 4 office block in Amsterdam 2000 1 The appendix includes a complete list of Toyo Ito s works a selection of his writings as well as a biographical summary and up to date bibliography **New Directions in Picturebook Research** Teresa Colomer, Bettina Kümmerling-Meibauer, Cecilia Silva-Díaz, 2010-07-12 In this new collection children s literature scholars from twelve different countries contribute to the ongoing debate on the importance of picturebook research focusing on aesthetic and cognitive aspects of picture books Contributors take interdisciplinary approaches that integrate different disciplines such as literary studies art history linguistics narratology cognitive psychology sociology memory studies and picture theory Topics discussed include intervisuality twist endings autobiographical narration and metaliterary awareness in picturebooks The essays also examine the narrative challenges of first person narratives ellipsis and frame breaking in order to consider the importance of mindscape as a new paradigm in picturebook research Tying picturebook studies to studies in childhood multimodality and literacy this anthology is a representative of the different opportunities for research in this emerging field *Image, Text, Architecture* Robin Wilson, 2016-03-09 Image Text Architecture brings a radical and detailed analysis of the modern and contemporary architectural media addressing issues of architectural criticism architectural photography and the role of journal editors It covers examples as diverse as an article by British artist Paul Nash in The Architectural Review 1940 an early project by French architects Lacaton Vassal published in the journal 2G 2001 and recent photography by Hisao Suzuki for the Spanish journal El Croquis At the intersection of image and text the book also reveals the role of the utopian impulse within the architectural media drawing on theories of utopian discourse from the work of the French semiotician and art theorist Louis Marin and the American Marxist critic Fredric Jameson Through this it builds a fresh theoretical approach to journal studies revealing a hitherto unexplored dimension of latent or unconscious discourse within the media portrait of architecture The purpose of this enquiry is to highlight moments where a different type of critical voice emerges on the architectural journal page indicating the possibility of a more progressive engagement with the media as a platform for

critical and speculative thinking about architecture and to rethink the journals role within architectural history **URBAN CORPORIS. mapping shaped modern seeing and knowing In what ways do contemporary changes in our experience of the world alter the meanings and practice of mapping and vice versa In their diverse expressions maps and the representational processes of mapping have constructed the spaces of modernity since the early Renaissance The map's spatial fixity its capacity to frame control and communicate knowledge through combining image and text and cartography's increasing claims to scientific authority make mapping at once an instrument and a metaphor for rational understanding of the world Among the topics the authors investigate are projective and imaginative mappings mappings of terraqueous spaces mapping and localism at the chorographic scale and mapping as personal exploration With essays by Jerry Brotton Paul Carter Michael Charlesworth James Corner Wytan Curnow Christian Jacob Luciana de Lima Martins David Matless Armand Mattelart Lucia Nuti and Alessandro Scafi

Forme del vuoto Gianpaola Spirito, 2016-01-03 T00:00:00+01:00 I vuoti che il libro descrive sono spazi prodotti attraverso un processo di sottrazione che estrae la materia sostituendola con lo spazio una modalità compositiva e costruttiva arcaica riscoperta dal Moderno e utilizzata oggi da molti artisti e architetti contemporanei Forme del vuoto indaga e riconosce i diversi caratteri che questo spazio assume Esso si colloca tra interno ed esterno sui bordi nei luoghi di confine dell'architettura La sua presenza muta profondamente gli oggetti architettonici li trasforma in relazionali capaci di tessere molteplici interazioni con i soggetti che li abitano e con i paesaggi urbani che li circondano di produrre nuovi significati attraverso la modificazione di tipi e spazi consolidati nella storia dell'architettura e della città di generare nuove possibilità del

sentire Le diverse forme che il vuoto sottratto assume sono indagate attraverso la descrizione e la rappresentazione diagrammatica delle opere che messe in sequenza costruiscono un percorso dall interno verso l esterno che intende mostrare il progressivo processo di contaminazione dell oggetto architettonico contemporaneo con il contesto in cui si colloca la perdita di significato delle tradizionali contrapposizioni pubblico privato aperto chiuso figura sfondo e la loro sostituzione con categorie intermedie che rispecchiano la volontà relazionale di molta architettura contemporanea

Barr and the Museum of Modern Art made the case for Piranesi's alleged abstraction in the 1930s and how Sergei Eisenstein reinvented Piranesi as a progenitor of his own innovative filmmaking techniques Tschudi's exploration of Piranesi's influence on modern architectural discourse includes interviews with such distinguished architects as Peter Eisenman Bernard Tschumi Steven Holl and Rem Koolhaas Generously illustrated Piranesi and the Modern Age offers an entirely new reading of Piranesi's work
