El Estado En La Periferia:

El estado en la periferia Javier Eduardo Revelo Rebolledo, Mauricio García Villegas, 2018 *El Estado en la periferia* García, Mauricio, Revelo, Javier, 2018-10-30 Los enfrentamientos violentos desplazamientos masivos y asesinatos de líderes sociales ocurridos después de que las Fuerzas Armadas Revolucionarias de Colombia FARC EP entregaran las armas en varias regiones del país son una prueba de que enfrentar la violencia no solo depende de la implementación de los acuerdos de paz sino también del fortalecimiento del Estado local La paz negociada es una condición necesaria pero insuficiente para conseguir la paz en general La otra condición también necesaria e insuficiente es la presencia del Estado En la mitad del territorio nacional hay un Estado que solo existe en la letra de la ley en el discurso político o en la narrativa oficial Un Estado al que nadie le cree ni siquiera los funcionarios públicos o los políticos que viven de él Mientras no exista un Estado eficaz en los territorios la violencia incluso la violencia política seguir presente La razón es esta sin eso un Estado eficaz todos los demás atributos del Estado en particular la legitimidad se vienen al piso La eficacia y la legitimidad del Estado son cosas distintas puede haber instituciones eficaces que no son legítimas y viceversa Pero eso solo pasa en la teoría jurídica en la práctica en cambio ambas cosas se consiguen juntas y también se pierden juntas Un Estado que se impone por medio de la fuerza sin conseguir la adhesión de la población termina por perder la capacidad que tenía para imponerse Y un Estado legítimo que no logra imponer el orden o someter a las organizaciones ilegales termina con una población que le pierde el respeto

Trayectorias y encrucijadas de las teorías del desarrollo en América Latina Guillén, Arturo et al., 2024-07-22 Cada poca reinterpreta la historia del pensamiento económico a la luz de sus propias interrogantes Este trabajo que aborda las ideas del desarrollo en América Latina nace de preguntas del campo de estudios sobre el desarrollo a mediados de los 40 años de la crisis de 1982 el gran parte aguas de la historia económica latinoamericana del tiempo reciente Aquí los autores analizan la formación la trayectoria y los legados de cuatro perspectivas que estructuran la reflexión acerca de los problemas de desarrollo y subdesarrollo el marxismo el estructuralismo y más recientemente el neodesarrollismo y el posdesarrollo El conocimiento de estas cuatro perspectivas permite no solo aprehender la historia económica de la región sino abonar a la reflexión sobre la búsqueda de estrategias alternativas en el contexto presente Así el libro expone los contextos específicos los cuestionamientos teóricos y los desafíos prácticos que presidieron la formulación de dichas perspectivas sus cruces así como sus diálogos Se trata de una obra destinada al estudiante al especialista pero también al curioso que desee entender el entrelazamiento de los discursos de las ideas y de los hechos económicos Glosario sobre la teoría social de Niklas Luhmann Giancarlo Corsi, Elena Esposito, Claudio Baraldi, 1996 **El fracaso del desarrollo en África y en el Tercer Mundo** Samir Amin, 1994 Análisis de la actual situación de África y los porqués históricos y estructurales de la misma **El estado en la periferia capitalista** Tilman Evers, 1979 Para construir una teoría sistemática del estado en la periferia capitalista se precisan en opinión del autor dos materias primas una teoría del subdesarrollo y una teoría del estado La

contradicción fundamental del estado en la periferia es que su forma abstracta como estado burgués corresponde a una organización social de pleno desarrollo mientras que su funcionalidad básica consiste en imponer esta organización social en todo el ámbito nacional *El Estado del capitalismo periférico*, 1982 **Fiscal Policy in the Regulation of Adult-Use Cannabis in Colombia** Rodríguez Llach, Alejandro, Cruz Olivera, Luis Felipe, Pereira Arana, Isabel, 2022-09-30 The debate about regulating cannabis for adult use is on the public agenda In our view the best policy on marijuana that a State can develop is the regulation of its cultivation manufacture and use focused on reducing marijuana's comparative impact in illegal economies and drug trafficking networks protecting public health promoting rural development in prioritized areas and promoting reparation measures financed with the resources arising from regulation Drugs are not the devil but nor are they child's play A drug policy that would be respectful of human rights and safeguard public health must lie at an intermediate point between full liberalization and the prohibition currently in place In this document based on a comparative analysis of the regulations issued in Uruguay Canada and the United States and by applying the Principles and Guidelines for Human Rights in Fiscal Policy we argue for the importance of a fiscal framework based on collecting taxes in the cannabis market and focused on mobilizing the maximum amount of available resources to finance the goals of reducing the illegal market preserving public health and assisting the populations affected by drug policy as set forth in the cannabis regulations

Modernidades periféricas Adolfo Chaparro Amaya, 2020-04-27 Esta obra se propone problematizar los conceptos a través de las cuales académicos e intelectuales han intentado aclarar cómo y por qué las tradiciones premodernas las expectativas de la modernidad y los efectos de la condición posmoderna resultan indiscernibles a la hora de describir las sociedades latinoamericanas El resultado es un texto fronterizo en el que se inscriben múltiples racionalidades insertas en formas de vida complejas y contradictorias entre sí que definen las distintas pocas y formaciones sociales a partir de la Conquista de América Visto en conjunto si en la primera parte del libro se impone la pregunta por la presencia del pasado prehispánico en el presente de la modernidad colonial y el de la colonialidad en la República en la segunda primer paradigma múltiple y lo heterogéneo que caracteriza las periferias contemporáneas Con el trasfondo de la discusión filosófica contemporánea este libro es un trabajo de archivo conceptual atraído por el proyecto de una teoría que dé cuenta de las sociedades periféricas en el devenir de su propia modernidad **El estado y la pobreza urbana en México** Susan Eckstein, 1999 Las fuerzas del mercado y las políticas gubernamentales formuladas para ayudar a los pobres han servido para mantenerlos en la pobreza Resultado de una encuesta realizada en tres áreas de bajos ingresos de la ciudad de México este libro es una contribución a la sociología política la teoría sociológica la teoría estructural y las teorías de la urbanización *El sistema de transporte público en el Estado de México. El caso de las líneas 1, 2 y 3 del Mexibús* Jaime Linares Zarco, 2025-01-22 Los gobernantes de las grandes urbes enfrentan el reto de garantizar los diversos servicios urbanos a la ciudadanía sin embargo la insuficiencia presupuestal y la crisis económica han mermado la capacidad de respuesta pública Como estrategia el Estado ha

implementado una política de privatización y adjudicación de algún servicio público urbano a particulares. Ya que el Estado de México constituye una de las entidades más importantes del país con más de 16.1 millones de habitantes y una gran contribución económica al PIB nacional la presente investigación se propuso evaluar el impacto económico urbano y sociodemográfico que ha tenido la operación del Sistema de Transporte Masivo Mexibús en el Estado de México específicamente en las líneas 1 Ciudad Azteca Ojo de Agua 2 Plaza Las Américas La Quebrada y 3 Metro Pantitlán Chimalhuacán que operan en el norte y oriente de esta extensa entidad.

El estado en la sociedad capitalista Ralph Miliband, 1997-01-01 Después de los textos fundamentales de Marx Engels Lenin y Gramsci los marxistas no han realizado mayores intentos de abordar el problema del estado en función de la realidad concreta socioeconómica política y cultural de las sociedades capitalistas modernas. En este sentido la obra de Miliband es un valioso aporte a las ciencias sociales.

El Estado en el centro de la mundialización Osorio, Jaime, 2024-06-17 Desde finales del siglo XX hasta comienzos del XXI los temas del Estado y del poder han ocupado un lugar preeminente en los debates de la sociología política y de la ciencia política. En todos ellos prevalece la opinión de que la mundialización provoca el debilitamiento y la muerte del Estado nación. Esta obra propone una tesis contraria: el capitalismo requiere de un sistema interestatal para reproducirse; así la mundialización reclama la participación del Estado nación como un actor fundamental de los cambios económicos y políticos. De ahí la importancia de sentar las funciones y los límites del Estado particularmente aquellos con la sociedad civil donde sus fronteras se vuelven difusas. Jaime Osorio proporciona aquí una teorización y conceptualización del Estado del poder político y de las clases sociales así como un análisis de las relaciones que guardan entre sí. Además define conceptos como imperialismo y mundialización indispensables para examinar el ejercicio de la soberanía en el sistema mundial. Al mismo tiempo discute los supuestos de la teoría de la transición democrática presentando las paradojas de la política y la democracia en América Latina. En conjunto *El Estado en el centro de la mundialización* precisa los lindes de la actividad estatal cuestión que a decir de Antonio Gramsci constituye la discusión más importante de la doctrina política.

El estado de los mercados de productos básicos agrícolas 2022 Organización de las Naciones Unidas para la Agricultura y la Alimentación, 2022-09-05 En la edición de 2022 de *El estado de los mercados de productos básicos agrícolas* SOCO 2022 se examina la forma en que las políticas comerciales sobre la base de enfoques multilaterales y regionales pueden hacer frente a los problemas con que tropieza el desarrollo sostenible en la actualidad. La finalidad de las políticas de comercio alimentario y agrícola debe ser salvaguardar la seguridad alimentaria mundial abordar las compensaciones reciprocas entre los objetivos económicos y los ambientales y reforzar la resiliencia del sistema agroalimentario mundial a las perturbaciones como los conflictos las pandemias y los fenómenos meteorológicos extremos. En el informe se examina la geografía del comercio y se analizan el comercio alimentario y agrícola y sus tendencias en países y regiones los factores que lo impulsan y el entorno de políticas comerciales. La ventaja comparativa las políticas comerciales y los costos comerciales conforman las tendencias del comercio alimentario y agrícola. Cuando la ventaja comparativa se deja sentir en el mercado

mundial el comercio beneficia a todos los países. Eliminar los obstáculos arancelarios y reducir los costos comerciales puede fomentar el comercio y el crecimiento económico. Los acuerdos comerciales tanto regionales como multilaterales pueden facilitar el proceso de convertir el comercio en una vía para el crecimiento, pero los beneficios del comercio se distribuyen de forma desigual. Cuando se toma en consideración el impacto ambiental en el plano mundial, por ejemplo, el cambio climático. Adoptar un enfoque multilateral del comercio puede ayudar a ampliar el alcance de las medidas de mitigación. La revolución pendiente. El cambio político en el África negra Albert Roca Álvarez, 2005. Desde hace más de un siglo el África negra ha sido un campo de experimentación de los diseñadores sociales, primero de las metrópolis coloniales y después de los países desarrollados. Sin embargo, África ha mostrado una espectacular resistencia a adoptar los modelos ajenos o al menos una fuerte autonomía para adaptarlos al contexto africano. El ámbito político no es una excepción. Lealtades tradicionales o renovadas agrupaciones facciosas conviven con las representaciones democráticas. **La insubordinación fundante** Marcelo Gullo, 2025-01-13. Creo que habrá que destacar de este magnífico libro tres aspectos principales: su relevante sistema de categorías analíticas, su amplia información histórica y su tesis central de que todos los procesos emancipatorios exitosos resultaron de la conveniente conjugación de una actitud de insubordinación ideológica para con el pensamiento dominante y de un eficaz impulso estatal. Este espléndido libro de Marcelo Gullo culmina con reflexiones extremadamente pertinentes acerca de las posibilidades que tiene América del Sur de realizar esa insubordinación fundante y con el apoyo del Estado salir de su condición periférica para convertirse de ese modo en un importante interlocutor internacional independiente. Considero esta obra de lectura indispensable para todos los sudamericanos comenzando por sus líderes políticos. Helio Jaguaribe El Estado, la nación y la democracia en Europa Rokkan, Stein, 2017-12-29. Esta obra es el resultado final de un cuidadoso y complejo trabajo de recopilación, ordenación, selección e interpretación de los escritos de Stein Rokkan, llevado a cabo por Peter Flora con el objetivo de recoger las ideas fundamentales de aquel sobre la formación de Estados y naciones en Europa y presentar un macromodelo del desarrollo político. Centrándose en los procesos de formación estatal, construcción nacional y políticas de masas, Rokkan establece las bases para la comprensión de la Europa contemporánea y proporciona un enfoque sistemático para una macrosociología histórica comparada combinada con recopilaciones y análisis modernos, consiguiendo una sistematización teórica y aportando verificación empírica. Se recogen elementos y conceptos básicos para la comprensión y construcción del modelo de Rokkan, el desarrollo del concepto de centro-periferia y aspectos sobre la estructuración territorial de Europa desde los inicios. Sus ideas se estructuran sobre el proceso seguido por Europa hacia la democratización y su fracaso en ciertas zonas. Finalmente se exponen los conceptos de clivaje y tipos de coyuntura crítica como arranque histórico de los clivajes, su evolución hacia partidos y el surgimiento de tipos de partidos según su modelo de Europa. **Repensando el siglo XIX desde América Latina y Francia** Arturo Andrés Roig, Yamandú Acosta, 2009.

Diccionario razonado del Occidente medieval Jacques Le Goff, 2003-09-11. Obra en la que un nutrido grupo de

reconocidos medievalistas abordan bajo la dirección de Le Goff y Schmitt los temas fundamentales del feudalismo a la naturaleza pasando por el amor cortés la sexualidad o el pecado para comprender la Edad Media en todos sus aspectos materiales sociales o simbólicos

Neurobiología de la visión Urtubia Vicario, César, 2004-12-31 El objetivo de este libro es contribuir a la comprensión de los mecanismos bioquímicos y neurofisiológicos de la percepción visual. La mayor parte de los procesos que se presentan han sido descubiertos muy recientemente y aún quedan por dilucidar muchos aspectos de tan apasionante ámbito de la función perceptiva. Se han intentado exponer en capítulos independientes aunque unidos entre sí en bloques de varios capítulos aspectos individuales de estos mecanismos de forma clara y con profusión de subapartados para contribuir a una mejor comprensión del tema. Básicamente puede decirse que el texto se organiza en dos grandes apartados: el proceso visual en la retina y el proceso visual en el cerebro.
