INDICE HISTORICA ESPANOL publicacion semestral del CENTRO DE ESTUUDIOS HISTORICOS INTERNACIONALES , Modernization, Urbanization and Development in Latin America, 1900s - 2000s Arturo Almandoz, 2014-10-10 In this book Arturo Almandoz places the major episodes of Latin America's twentieth and early twenty first century urban history within the changing relationship between industrialization and urbanization modernization and development This relationship began in the early twentieth century when industrialization and urbanization became significant in the region and ends at the beginning of the twenty first century when new tensions between liberal globalization and populist nationalism challenge development in the subcontinent much of which is still poverty stricken Latin America's twentieth century modernization and development are closely related to nineteenth century ideals of progress and civilization and for this reason Almandoz opens with a brief review of that legacy for the different countries that are the focus of his book Mexico Chile Brazil Argentina and Venezuela but with references to others He then explores the regional distortions which resulted from the interaction between industrialization and urbanization and how the imbalance between urbanization and the productive system helps to explain why take off was not followed by the drive to maturity in Latin American countries He suggests that the close yet troublesome relationship with the United States the recurrence of dictatorships and autocratic regimes and Marxist influences in many domains are all factors that explain Latin America's stagnation and underdevelopment up to the so called lost decade of 1980s He shows how Latin America's fate changed in the late twentieth and early twenty first century when neoliberal programmes political compromise and constitutional reform dismantled the traditional model of the corporate state and centralized planning He reveals how economic growth and social improvements have been attained by politically left wing yet economically open market countries while others have resumed populism and state intervention All these trends make up the complex scenario for the new century especially when considered against the background of vibrant metropolises that are the main actors in the book *indice historico espanol* Universidad de Barcelona. Centro de Estudios Históricos Internacionales, 1993 [Indice histórico español](#) , 2006 *Virtuous Waters* Casey Walsh, 2018-04-20 *Virtuous Waters* is the first study of mineral waters and bathing in Mexico It traces the evolving ideas about these waters from European contact to the present in order to shed new light on human environment relations in the modern world Our relation to water is among the most urgent of global issues as increasing scarcity and pollution threaten food shortages deteriorating public health and the collapse of aquatic ecosystems Drawing on ideas from political ecology the author brings together an analysis of the shifts in the concept of water and a material history of environments infrastructures and bathing The book analyzes a range of issues concerning complex water cultures that have formed around Mexican groundwaters over time and suggests that this understanding might also help us comprehend and confront the water crisis that is coming to a head in the twenty first century Provided by publisher *Dilemas contemporáneos del derecho notarial* Álvaro, Rengifo, 2019-07-31 Este

texto busca evidenciar que el ámbito notarial ha sido y seguirá siendo un núcleo de interacción económica y social en el cual las concepciones ideológicas más esenciales de un Estado se encuentran con la autonomía individual en el ejercicio mismo del notariado por lo cual el notario cobra un papel de intermediario entre el Estado y la sociedad El notario como depositario de la fe pública está en medio de una relación compleja y a veces conflictiva entre las bases ideológicas del Estado y el ideal de autonomía del notario y la ciudadanía Para explicar la relación entre influencias ideológicas notariado y sociedad el autor usa una metodología predominantemente genealógica haciendo un comentario histórico rico de la configuración ideológica que toma el notariado y el ejercicio notarial a lo largo de las sucesivas pocas de la historia colombiana para explicar la manera en que el notariado puede ser visto tanto como un medio de reproducción social o como una herramienta de enseñanza y defensa de los derechos humanos y ejercicio de autonomía Este libro es de interés para expertos en derecho notarial abogados o
