Neoclassical Music in America R. James Tobin, 2014-07-02 From the 1920s to the 1950s neoclassicism was one of the dominant movements in American music Today this music is largely in eclipse mostly absent in performance and even from accounts of music history in spite of and initially because of its adherence to an expanded tonality No previous book has focused on the nature and scope of this musical tradition *Neoclassical Music in America* Voices of Clarity and Restraint makes clear what neoclassicism was how it emerged in America and what happened to it Music reviewer and scholar R James Tobin argues that efforts to define musical neoclassicism as a style largely fail because of the stylistic diversity of the music that fall within its scope However neoclassicists as different from one another as the influential Igor Stravinsky and Paul Hindemith did have a classical aesthetic in common the basic characteristics of which extend to other neoclassicists This study focuses in particular on a group of interrelated neoclassical American composers who came to full maturity in the 1940s These included Harvard professor Walter Piston who had studied in France in the 1920s Harold Shapero the most traditional of the group Irving Fine and Arthur Berger his colleagues at Brandeis Lukas Foss later an experimentalist composer whose origins lay in neoclassicism of the 1940s Alexei Haieff and Ingolf Dahl both close associates of Stravinsky and others Tobin surveys the careers of these figures drawing especially on early reviews of performances before offering his own critical assessment of individual works Adventurous collectors of recordings performing musicians concert and broadcasting programmers as well as music and cultural historians and those interested in musical aesthetics will find much of interest here Dates of composition approximate duration of individual works and discographies add to the work s reference value **Checklist of Writings on American Music, 1640-1992** Guy A. Marco, 1996 Cumulative index to all three volumes of *Literature of American Music in Books and Folk Music Collections* *Monarch of the Flute* Nancy Toff, 2005-08-18 The first biography of Barr re this book examines the profound influence of this Frenchman on twentieth

century American musical life through his development of the flute and flute pedagogy his promotion of new genres and repertoire and new works dedicated to him *The Sibley Muse*, 1990 Henry F. Gilbert Sherrill Martin, 2004-06-30 During his lifetime Henry F Gilbert was regarded as one of the foremost composers of the day and a trailblazer in America's rich musical heritage Often called the Mark Twain of American Music Gilbert was one of American music's nonconformists He was a maverick who became a true prophet of American music as a composer writer editor and lecturer This volume contains a short biography of Gilbert a listing of his compositions including the different versions of the works and the holding libraries A discography is included which puts emphasis on the inclusion of excerpts from contemporary performances This book captures much of the new material on Gilbert that has surfaced since the Henry F Gilbert Papers were presented to Yale The volume is divided into six sections The first is the biography which includes a sketch of Gilbert's life and his importance in establishing an American school of composition The Works and Performances section provides the name of the work publisher and date and revisions of the work Scoring for the compositions is also given along with cross references to Gilbert's program notes and reviews An annotated Bibliography of writings by Gilbert summarizes his philosophy of American music and illuminates his own compositional style A discography general bibliography and a bibliography of works and performances are also concluded This bio bibliography will appeal to musicians and American enthusiasts alike The Sonneck Society Bulletin, 1991 Encyclopedia of Music in the 20th Century Lol Henderson, Lee Stacey, 2014-01-27 The Encyclopedia of Music in the 20th Century is an alphabetically arranged encyclopedia of all aspects of music in various parts of the world during the 20th century It covers the major musical styles concert music jazz pop rock etc and such key genres as opera orchestral music be bop blues country etc Articles on individuals provide biographical information on their life and works and explore the contribution each has made in the field Illustrated and fully cross referenced the Encyclopedia of Music in the 20th Century also provides Suggested Listening and Further Reading information A good first point of reference for students librarians and music scholars as well as for the general reader

researching film music bibliography The book also provides a supplement to Steven D Westcott's *A Comprehensive Bibliography of Music for Film and Television* This insightful volume demonstrates the many ways that bibliography relates music publications to each other and endows grander meaning to individual scholarly observations Some of the fascinating topics covered by *Foundations in Music Bibliography* include the history of thematic catalogs indexing Gregorian chant manuscripts general principles of bibliographic instruction analyses of Debussy discographies musical ephemera and their importance in various types of musicological research bibliographical lacunae i e lack of access to visual sources failure to control primary sources and lack of communication with the rest of the performing arts *Foundations in Music Bibliography* shows librarians how bibliography can be used to help music students and researchers find the information they need among the innumerable available sources It is an indispensable asset to the shelves of all music reference libraries that wish to provide their patrons with the latest bibliographic tools

Sergei Rachmaninoff Robert E. Cunningham

Jr., 2000-10-30 Sergei Rachmaninoff was a renowned composer pianist and conductor Because he was a member of the Russian aristocracy he fled the country after the tsar's abdication and eventually relocated in the United States Many of his compositions are for piano yet he also composed orchestral and symphony works three operas choral and liturgical works some chamber works and numerous songs This guide catalogues his numerous works and performances provides a detailed bibliography and includes a discography of recordings released within the last half century Cross referenced throughout this volume should appeal to music and Rachmaninoff scholars who are looking for a comprehensive guide to further research

Against the Grain Anthony Marcus Lien, 2002 Although the art song was a favorite genre for American composers at the turn of the twentieth century its favor declined rapidly and significantly during and after the 1910s and for the rest of the first half of the century the genre held a marginalized place in the output of the most significant American composers Concomitant with this decline in song composition song publication also declined considerably after 1920 and a significant percentage of the songs published thereafter were authored by composers who specialized in songs and shorter works expressly intended for the domestic song market and written in a conservative musical idiom which appealed to mass audiences In contrast to these earlier declines the number of song concerts in New York City and Chicago increased steadily until about 1930 even as the percentage of song concerts to other concerts held steady After 1930 however the number and percentage of song concerts in these two cities declined as well The emergence of modernism on the musical landscape in the United States after 1915 was largely responsible for the decline in song publication and composition Among other things musical modernism valorized dissonance melodic fragmentation and objectivity these characteristics ran counter to the largely Romantic orientation of the art song with its long spun lyricism and subjectivity As a revision of current thought this

study broadens the accepted corpus of modernist composers to include neo Romantics such as Samuel Barber whose music retained an essentially Romantic character but was frequently imbued with modernistic elements This study also shows that composers in certain stylistic professional and demographic categories wrote songs in significantly greater numbers than others For example in looking at the total song output of over 100 American and transplanted composers there was a direct correlation between musical style and song production the more progressive a composer's musical style the fewer songs he authored In addition to the impact of modernism on the art song these declines were also exacerbated by the art song's close association with other song types which lowered the art song's aesthetic credentials **Bibliographic Index**, 1989
