Samuel Foster,2021-06-17 Despite Britain entering the 20th century as the dominant world power public discourses were imbued with a cultural pessimism and rising social anxiety Through this study Samuel Foster explores how this changing domestic climate shaped perceptions of other cultures and Britain s relationship to them focusing on those Balkan territories that formed the first Yugoslavia from 1918 to 1941 Yugoslavia in the British Imagination examines these connections and demonstrates how the popular image of the region s peasantry evolved from that of foreign Other to historical victim suffering at the hand of modernity s worst excesses and symbolizing Britain s perceived decline This coincided with an emerging moralistic sense of British identity that manifested during the First World War Consequently Yugoslavia was legitimized as the solution to peasant victimization and as Foster s nuanced analysis reveals enabling Britain s imagined and self promoted revival as civilization s moral arbiter Drawing on a range of previously unexplored archival sources this compelling transnational analysis is an important contribution to the study of British social history and the nature of statehood in the modern Balkans *A Hundred Years Eating* James P. A New England? G. R. Searle, 2005-07-29 G R Searle s absorbing narrative history breaks conventional chronological barriers to carry the reader from England in 1886 the apogee of the Victorian era with the nation poised to celebrate the empress queen s golden jubilee to 1918 as the war to end all wars drew to a close leaving England to come to term with its price above all in terms of human life but also in the general sense that things would never be the same again This was an age of extremes a period of imperial pomp and circumstance with a political elite preoccupied with display and ceremony alongside the growing cult of the simple life the zenith of imperialism with its idealization of war on the one hand the start of the Labour Party a socialist renaissance and welfare politics on the other and a radical challenging of traditional gender stereotypes in the face of the prevailing cult of masculinity Under Professor Searle s historical microscope all the details of daily life spring into sharp relief Half forgotten figures such as Edward Carpenter Vesta Tilley and Sir Henry Campbell Bannerman take their place on stage beside Oscar Wilde the Pankhursts and Lloyd George Motoring and aviation to become such an intrinsic part of life within the next decades had their beginnings in this period as pastimes for the rich From the wretched slums of England s great cities to their bustling docks and factories from the grand portals of Westminster to the violent political challenges of the Ulster Unionists and the militant suffrage movement from Blackpool s tower and beach packed with holidaymakers to the trenches of the Western Front the energy creativity and often destructive turmoil of the years 1886 1918 are brought into focus in this magisterial history

THE NEW OXFORD HISTORY OF ENGLAND

The aim of the New Oxford History of England is to give an account of the development of the country over time It is hard to treat that development as just the history which unfolds within the precise boundaries of England and a mistake to suggest that this implies a neglect of the histories of the Scots Irish and Welsh Yet the institutional core of the story which runs from Anglo Saxon times to our own is the story of a state structure built round the English monarchy and its effective successor the Crown in Parliament While the emphasis of individual volumes in the series will vary the ultimate outcome is intended to
