Convergence and Cold War, 1953-1964 Austin Jersild, 2025-07-31 The academic debate in Western social science about the growing convergence or similarities between American and Soviet society acquired political significance in the diverse relationships that made up the global Cold War

Convergence and Cold War 1953 1964 explores the consequences and challenges of convergence through a discussion of U S Soviet relations Sino Soviet relations and East South relations The book argues that the debate about convergence was a debate about the character of the broader Cold War itself and the background to the more recent experience of contemporary globalization and its shared practices and norms The volume begins by addressing how Americans debated the prospect of a less threatening socialist world shaped by the challenges of industrial modernity while the Soviets hoped to imitate Western standards of living alongside developing supposedly more elevated forms of consumption leisure culture trade and economic exchange The second section analyzes the way supporters of Chairman Mao in China associated the socialist bloc's engagement with the West as an example of its deterioration and dangerous abandonment of socialist values and practices The closing chapters examine how the Chinese communicated their frustration with the Soviets and East Europeans to postcolonial states in the Global South Jersild unpacks this through a case study of Guinea Conakry which posed questions about the common practices and policies of the superpowers This volume is a valuable resource to students and scholars of the Cold War and International Relations as well as all those interested in postcolonial studies and the history of globalization

Still More Hot Illustrations for Youth Talks Wayne Rice, 1999 Volume three of the best selling *Hot Illustrations for Youth Talks* series delivers all new lively effective illustrations stories parables and anecdotes from the personal files of many of youth ministry's best speakers
